

much of the conclusions made in the Report and Order. The Commission, however, reconsidered and adopted a proposal to permit existing cellular radiotelephone licensees to extend to adjacent unserved areas of less than fifty (50) square miles on a secondary basis without modifying their existing cellular geographic service area. Section 1.929 of the rules provides that an application or amendment is classified as minor or major. A carrier seeking to extend into adjacent unserved areas must generally seek approval from the Commission by filing a major modification. Pursuant to the Order on Reconsideration, a carrier that seeks to extend in adjacent unserved areas on a secondary basis need only file a minor amendment. The cellular licensee must indicate on FCC Form 601, Main Form, Item 7 that it is filing a minor amendment; and submit Schedules D and F of the FCC Form 601. Additionally, the Commission eliminated information collection requirements in Sections 22.130 and 22.323. Sections 1.949, 1.955, 1.957 and 22.946(a) are now included in this information collection.

Further, Section 22.313 has been eliminated from this information collection and incorporated into the part 22 collection (above, OMB Control Number 3060-0508).
