Environmental Impact Statement Availability

AGENCY: National Park Service, Interior.

ACTION: The National Park Service announces the availability of the Record of Decision for the Final Environmental Impact Statement for Saratoga National Historical Park General Management Plan.

SUMMARY: In September 2004, the Regional Director, Northeast Region, National Park Service approved the Record of Decision (ROD) of the Final Environmental Impact Statement for Saratoga National Historical Park General Management Plan. The ROD is a statement of the background of the project, the decision made, synopsis of the other alternatives considered, the basis for the decision, the environmentally preferable alternative, a summary of measures to minimize environmental harm, and an overview of the public involvement in the decisionmaking process. The ROD is now available from the National Park Service.

Decision (Selected Action)

After thorough analysis and extensive public involvement, the National Park Service will implement Alternative D (the Preferred Alternative identified in the Draft and abbreviated Final Environmental Impact Statements) to help guide management of Saratoga National Historical Park. Alternative D was selected because it supports the purpose and significance of the park, and minimizes impacts on the park's resources while providing for public use and enjoyment of those resources.

Alternative D: Focus on the Burgoyne Campaign seeks to improve visitor understanding of the events that led to the 1777 British surrender by providing a more complete and logical depiction of these events. This approach also includes—secondary to the strategic factors—interpretation of the efforts to commemorate the military events and

opportunities to reflect on their meaning. Additionally, Alternative D enables the park to expand its partnerships with other Burgoyne Campaign—related sites and regional entities in the Champlain-Hudson and Mohawk valleys.

Other Alternatives Considered

Three additional alternatives were considered analyzed for impacts on the environment. They are summarized below. Alternative D was formed by combining elements of alternatives B and C.

Alternative A: Focus on Current Management Objectives allowed for incremental action toward existing objectives with minimum change to the park's current management philosophy and physical conditions. This concept would have entailed no significant expansion of the park's participation in regional initiatives over the current situation. Alternative A served as the "no-action" alternative required by the National Environmental Policy Act.

Alternative B: Focus on the Battles, Siege, and Surrender concentrated on improving visitor understanding of the events that led to the 1777 British surrender at Saratoga by providing a more complete and logical depiction of these events. It rehabilitated key landscape features to help the visitor understand conditions faced by the armed forces and how landscape conditions were used and manipulated to serve tactical needs. This concept also enabled park staff to work with regional partners in developing outreach initiatives.

Alternative C: Focus on the Park as Memorial Grounds presented the park as a memorial landscape that had been commemorated in numerous ways over generations, from the erection of monuments, to the establishment of State and Federal parkland, to contemporary efforts to link important sites through regional heritage initiatives. This approach preserved and enhanced interpretation of key landscape features to help the visitor understand the military events of 1777 and the efforts to commemorate those events. Moreover, this alternative envisioned the park as an important gateway to the regional initiatives of the Champlain-Hudson and Mohawk valleys.

Decision Rationale

The major Federal laws and policies that apply to Federal agency actions in the General Management Plan are the National Park Service Organic Act and General Authorities Act, the public laws creating and augmenting Saratoga
