

15 U.S.C. 4301 *et seq.* ("the Act"), The Institute of Nuclear Materials Management ("INMM") has filed written notifications simultaneously with the Attorney General and the Federal Trade Commission disclosing (1) the name and principal place of business of the standards development organization and (2) the nature and scope of its standards development activities. The notifications were filed for the purpose of invoking the Act's provisions limiting the recovery of antitrust plaintiffs to actual damages under specified circumstances.

Pursuant to section 6(b) of the Act, the name and principal place of business of the standards development organization is: The Institute of Nuclear Materials Management, Northbrook, IL. The nature and scope of INMM's standards development activities are: Standards for the packaging and transportation of fissile and radioactive materials, and non-nuclear hazardous materials including waste and mixed waste; but not including movement or handling during processing and manufacturing operations; and standards for protection, control, and accounting of special nuclear materials in all phases of the nuclear fuel cycle, including analytical procedures where necessary and special to this purpose, except that physical protection of special nuclear materials within a nuclear power plant is not included.

Notice Pursuant to the National Cooperative Research and Production Act of 1993—International Imaging Industry Association, Inc.

Notice is hereby given that, on September 17, 2004, pursuant to section 6(a) of the National Cooperative Research and Production Act of 1993, 15 U.S.C. 4301 *et seq.* ("the Act"), International Imaging Industry Association, Inc. ("IIA") has filed written notifications simultaneously with the Attorney General and the Federal Trade Commission disclosing (1) the name and principal place of business of the standards development organization and (2) the nature and scope of its standards development activities. The notifications were filed for the purpose of invoking the Act's

provisions limiting the recovery of antitrust plaintiffs to actual damages under specified circumstances.

Pursuant to section 6(b) of the Act, the name and principal place of business of the standards development organization is: International Imaging Industry Association, Inc., Harrison, NY. The nature and scope of IIA's standards development activities are: (a) To promote the standardization of imaging products and service and methods of testing or rating the performance thereof; (b) to sponsor, actively participate in, and support the creation of one or more imaging standards and/or protocols to enable manufacturers, developers, and providers of various devices, software and services to achieve interoperability; (c) to collect and disseminate information of value of manufacturers, sellers and consumers of imaging products, and otherwise to further the manufacture, sale or use of imaging products and services; (d) to act as the industry voice, appearing before and cooperating with legislative committees, agencies, and government bodies in conjunction with matters affecting the imaging industry; (e) to drive adoption of standards and initiatives through a variety of promotional efforts, including but not limited to marketing activities, development of proof of concept/feasibility demonstrations, and pilot/prototype or testing projects; (f) to promote and encourage a wider understanding and appreciation of imaging, the imaging arts and a greater use of imaging products and services; (g) to further friendly and cordial relations among manufacturers, developers, and providers of imaging products and services, and between such vendors and the sellers and consumers of their products; and (h) to undertake such other activities as may from time to time be appropriate to further the purposes and achieve the goals set forth above.

Dorothy B. Fountain,

Deputy Director of Operations, Antitrust Division.

Notice Pursuant to the National Cooperative Research and Production Act of 1993—Joint Venture Under ATP Award No. 70NANB4H3044

Notice is hereby given that, on October 22, 2004, pursuant to section 6(a) of the National Cooperative

Research and Production Act of 1993, 15 U.S.C. 4301 *et seq.* ("the Act"), the Joint Venture under ATP Award No. 70NANB4H3044 ("ATP JV") has filed written notifications simultaneously with the Attorney General and the Federal Trade Commission disclosing (1) the identities of the parties and (2) the nature and objectives of the venture. The notifications were filed for the purpose of invoking the Act's provisions limiting the recovery of antitrust plaintiffs to actual damages under specified circumstances.

Pursuant to section 6(b) of the Act, the identities of the parties are Sarnoff Corporation, Princeton, NJ; Autoliv ASP, Inc., Auburn Hills, MI; and Ford Motor Company, Dearborn, MI. The general area of ATP JV's planned activity is active automotive safety through a novel fusion of vision and radar sensors that will identify and evaluate impending collisions in time to take advance action.

Notice Pursuant to the National Cooperative Research and Production Act of 1993—National Electrical Manufacturers Association

Notice is hereby given that, on September 17, 2004, pursuant to section 6(a) of the National Cooperative Research and Production Act of 1993, 15 U.S.C. 4301 *et seq.* ("the Act"), National Electrical Manufacturers

Association ("NEMA") has filed written notifications simultaneously with the Attorney General and the Federal Trade Commission disclosing (1) the name and principal place of business of the standards development organization and (2) the nature and scope of its standards development activities. The notifications were filed for the purpose of invoking the Act's provisions limiting the recovery of antitrust plaintiffs to actual damages under specified circumstances.

Pursuant to section 6(b) of the Act, the name and principal place of business of the standards development organization is: National Electrical Manufacturers Association, Rosslyn, VA. The nature and scope of NEMA's standards development activities are; NEMA administers and publishes standards that are related to a spectrum of electrical products produced globally, including but not limited to, industrial automation equipment including industrial controls and systems, motors, and power sources for welding; lighting systems including lamps, lighting controls, lamp ballasts, and lighting fixtures (luminaries); consumer products including dry batteries, smoke and fire detectors, and residential controls; building construction products including circuit breakers, receptacles, conduit, outlet boxes, switches, surge suppressors, insulating materials, and wire and cable; equipment for the electric utility industry; and medical imaging equipment including CT, Ultrasound, X-ray, and MRI. NEMA also serves as Secretariat for DICOM (Digital Communications in Medicine) Standards Committee; certain ANSI Accredited Standards Committees ("ASC"); and certain technical committees of the International Electrotechnical Commission (IEC). NEMA also publishes the standards developed by itself and by DICOM and ASC.

Notice Pursuant to the National Cooperative Research and Production Act of 1993—National Fluid Power Association: Cooperative Network for Research in Motion Control Through Fluid Power

Notice is hereby given that, on September 21, 2004, pursuant to section 6(a) of the National Cooperative Research and Production Act of 1993, 15 U.S.C. 4301 *et seq.* ("the Act"), National Fluid Power Association: Cooperative Network for Research in Motion Control Through Fluid Power ("CNR") has filed written notifications simultaneously with the Attorney General and the Federal Trade Commission disclosing (1) the identities of the parties and (2) the nature and objectives of the venture. The notifications were filed for the purpose of invoking the Act's provisions limiting the recovery of antitrust plaintiffs to actual damages under specified circumstances.

Pursuant to section 6(b) of the Act, the identifies of the parties are National Fluid Power Association, Milwaukee, WI; Ace Controls, Inc., Farmington Hills, MI; Balluff, Inc., Florence, KY; Bimba Manufacturing Company, Monee, IL; Enfield Technologies, Trumbull, CT; Bosch Rexroth Corporation, Hoffman Estates, IL; Caterpillar Inc., Joliet, IL; Eaton Corporation, Eden Prairie, MN; Festo Corporation, Hauppauge, NY; Gates Corporation, Denver, CO; Hoerbiger-Origa Corporation, Glendale Heights, IL; HUSCO International, Inc., Waukesha, WI; Moog Inc., East Aurora, NY; Parker Hannifin Corporation, Cleveland, OH; Ross Controls, Troy, MI; Quality Control Corporation, Chicago, IL; Sauer-Danfoss, Ames, IA; Georgia Institute of Technology, Atlanta, GA; Milwaukee School of Engineering, Milwaukee, WI; and University of Minnesota, Minneapolis, MN. The nature and objectives of CNR's planned activities are to strengthen ties between researchers and the fluid power industry, stimulate interest in fluid power at research universities, attract highly qualified students to the study of fluid power, to provide and make accessible quality university research and development on motion control issues facing the fluid power industry as a whole, and to advance the promotion of, provide support for, and encourage participation in, research, development, and education relevant to the fluid power industry in general. CNR's initial research projects include the
