

Committee's recommendation that the park repatriate the human remains to the tribes listed above in Summary.

In 2001, an additional human bone was discovered in the Guadalupe Mountains National Park collection during a review of cataloged mammal bones. This bone was originally collected from Pratt Cave in 1967 and is believed to represent one of the individuals previously considered by the Review Committee.

Disposition of funerary objects associated with culturally unidentifiable human remains is not addressed by the Native American Graves Protection and Repatriation Act and no associated funerary objects are included in this notice.

Determinations. Under 25 U.S.C. 3003, Guadalupe Mountains National Park officials determined that the human remains represent the physical remains of 10 individuals of Native American ancestry. Guadalupe Mountains National Park officials determined that the human remains are culturally unidentifiable.

Notification. Guadalupe Mountains National Park is responsible for sending copies of this notice to the Indian tribes listed above in Consultation.

BILLING CODE 4312-50-S

DEPARTMENT OF THE INTERIOR

National Park Service

Notice of Inventory Completion: U.S. Department of the Interior, Bureau of Indian Affairs, Washington, DC, and Milwaukee Public Museum, Milwaukee, WI

AGENCY: National Park Service, Interior.

ACTION: Notice.

Notice is here given in accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), 25 U.S.C. 3003, of the completion of an inventory of human remains and associated funerary objects in the control of the U.S. Department of the Interior, Bureau of Indian Affairs, Washington, DC, and in the possession of the Milwaukee Public Museum, Milwaukee, WI. The human remains and associated funerary objects were removed from the Navajo Indian Reservation.

This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA, 25

U.S.C. 3003 (d)(3). The determinations in this notice are the sole responsibility of the museum, institution, or Federal agency that has control of the Native American human remains and associated funerary objects. The National Park Service is not responsible for the determinations in this notice.

A detailed assessment of the human remains was made by Bureau of Indian Affairs and Milwaukee Public Museum professional staff and contract specialists in physical anthropology in consultation with representatives of the Hopi Tribe of Arizona; Pueblo of Acoma, New Mexico; Pueblo of Laguna, New Mexico; and Zuni Tribe of the Zuni Reservation, New Mexico.

In 1925, human remains representing a minimum of one individual were removed from the vicinity of Inscription House, Navajo Canyon, in Arizona, on the Navajo Indian Reservation by museum curator, Samuel A. Barrett, during a Milwaukee Public Museum expedition. No known individual was identified. The one associated funerary object is a potsherd.

On the basis of stylistic attributes, the associated funerary object can be identified as dating to circa post- A.D. 1300, the Pueblo IV or Pueblo V period of Anasazi culture.

At an unknown date, human remains representing a minimum of one individual were removed from ruins in Navajo, AZ, on the Navajo Indian Reservation, by A.J. Newcomb, a trading post operator in Tohatchi, NM. Mr. Newcomb donated the human remains to the Milwaukee Public Museum in 1925. No known individual was identified. No associated funerary objects are present.

The human remains were removed from a refuse heap outside a kiva wall associated with ruins in Navajo, AZ, on the Navajo Indian Reservation. Objects found in the ruins but not donated to the Milwaukee Public Museum indicate that the formation of the refuse heap dates to circa A.D. 900-1600. The human remains exhibit lamboid cranial deformation, which is associated with the Pueblo II through Pueblo IV periods of Anasazi culture.

At an unknown date, human remains representing three individuals were removed from "Ruin #2, Silent City," presumed to be located near Tohatchi, NM, on the Navajo Indian Reservation by A.J. Newcomb. Mr. Newcomb donated the remains to the Milwaukee Public Museum in 1921. No known individuals were identified. The one associated funerary object is an earthenware pot.

One of the individuals from the Silent City site was removed from a refuse

heap outside a kiva wall associated with the ruins. Stylistic attributes of the pot identify the occupation as affiliated with the Anasazi culture. Stylistic attributes of the pot also date the burial of one of the other individuals to circa A.D. 900-1300, Pueblo II-III period of the archeologically defined Anasazi culture.

Based on cranial morphology, dental traits, and associated funerary objects, the human remains are identified as Native American. Consultation evidence provided by the Hopi Tribe of Arizona indicates that Navajo Canyon in Arizona, and Navajo, AZ, both on the Navajo Indian Reservation, are part of the aboriginal territory of the Hopi culture, despite current occupation by the Navajo Nation, Arizona, New Mexico and Utah. Consultation evidence provided by representatives of the Hopi Tribe of Arizona; Pueblo of Acoma, New Mexico; Pueblo of Laguna, New Mexico; and Zuni Tribe of the Zuni Reservation, New Mexico indicates that these groups are descended from Anasazi people living in the vicinity of the present-day Navajo Indian Reservation.

Officials of the Bureau of Indian Affairs and the Milwaukee Public Museum have determined that, pursuant to 25 U.S.C. 3001 (9-10), the human remains described above represent the physical remains of at least five individuals of Native American ancestry. Officials of the Bureau of Indian Affairs and Milwaukee Public Museum also have determined that, pursuant to 25 U.S.C. 3001 (3)(A), the two objects described above are reasonably believed to have been placed with or near individual human remains at the time of death or later as part of the death rite or ceremony. Lastly, officials of the Bureau of Indian Affairs and Milwaukee Public Museum have determined that, pursuant to 25 U.S.C. 3001 (2), there is a relationship of shared group identity that can be reasonably traced between the Native American human remains and associated funerary objects and the Hopi Tribe of Arizona; Pueblo of Acoma, New Mexico; Pueblo of Laguna, New Mexico; and Zuni Tribe of the Zuni Reservation, New Mexico.

Representatives of any other Indian tribe that believes itself to be culturally affiliated with the human remains and associated funerary objects should contact Dr. Alex Barker, Anthropology Section Head, Milwaukee Public Museum, 800 West Wells Street, Milwaukee, WI 53233, telephone (414) 278-2786, before December 23, 2004. Repatriation of the human remains and associated funerary objects to the Hopi

Tribe of Arizona; Pueblo of Acoma, New Mexico; Pueblo of Laguna, New Mexico; and Zuni Tribe of the Zuni Reservation, New Mexico may begin after that date if no additional claimants come forward.

The Bureau of Indian Affairs is responsible for notifying the Hopi Tribe of Arizona; Pueblo of Acoma, New Mexico; Pueblo of Laguna, New Mexico; and Zuni Tribe of the Zuni Reservation, New Mexico that this notice has been published.

DEPARTMENT OF THE INTERIOR

National Park Service

Notice of Inventory Completion: Milwaukee Public Museum, Milwaukee, WI

AGENCY: National Park Service, Interior.

ACTION: Notice.

Notice is here given in accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), 25 U.S.C. 3003, of the completion of an inventory of human remains and associated funerary objects in the possession of the Milwaukee Public Museum, Milwaukee, WI. The human remains and associated funerary objects were removed from Fond du Lac, Green Lake, and Winnebago Counties, WI.

This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA, 25 U.S.C. 3003 (d)(3). The determinations in this notice are the sole responsibility of the museum, institution, or Federal agency that has control of the Native American human remains and associated funerary objects. The National Park Service is not responsible for the determinations in this notice.

A detailed assessment of the human remains was made by Milwaukee Public Museum professional staff and contract specialists in physical anthropology in consultation with representatives of the Ho-Chunk Nation of Wisconsin; Iowa Tribe of Kansas and Nebraska; Iowa Tribe of Oklahoma; Otoe-Missouria Tribe of Indians, Oklahoma; and Winnebago Tribe of Nebraska.

In 1926, human remains representing a minimum of one individual were removed from a grave near Luco Creek (site 47-FD-242), Fond du Lac, Fond du Lac County, WI, during sewer

construction. In 1926, Robert Weeks donated a glazed ceramic perfume bottle from this grave to the Milwaukee Public Museum. No known individual was identified. The one associated funerary object is a glazed ceramic perfume bottle.

The presence of the perfume bottle dates the burial to the 19th century. The human remains from this burial are currently in the possession of the Wisconsin Historical Society.

In 1931, human remains representing a minimum of one individual were removed from a location on the south shore of Lake Puckaway, Green Lake County, WI, by Rudolf Boettger. Mr. Boettger donated the human remains and an associated funerary object to the Milwaukee Public Museum in the same year. No known individuals were identified. The one associated funerary object is a copper alloy bracelet.

The presence of the bracelet dates the burial to circa A.D. 1770-1900.

In 1931 and 1932, human remains representing a minimum of two individuals were removed from the McCauley Campsite (47-WN-222), Oshkosh, Winnebago County, WI, by Arthur P. Kannenberg. The McCauley Campsite is located at the point where the Fox River flows into Lake Winnebago, between Frankfort and Eveline Streets, Oshkosh, WI. No known individuals were identified. No associated funerary objects are present.

Archeological evidence indicates that the McCauley site was inhabited during the historic period.

Based on cranial morphology and dental characteristics, the human remains are determined to be Native American. Archeological evidence and oral historical evidence provided during consultations indicate that Luco Creek, Lake Puckaway, and Lake Winnebago, WI, are located within the historic territory of the Ho-Chunk Nation of Wisconsin and the Winnebago Tribe of Nebraska. The dates of occupation of the sites are consistent with the time period during which the Ho-Chunk Nation of Wisconsin and the Winnebago Tribe of Nebraska inhabited the area.

Officials of the Milwaukee Public Museum have determined that, pursuant to 25 U.S.C. 3001 (9-10), the human remains described above represent the physical remains of at least three individuals of Native American ancestry. Officials of the Milwaukee Public Museum also have determined that, pursuant to 25 U.S.C. 3001 (3)(A), the two objects described above are reasonably believed to have been placed with or near individual human remains at the time of death or later as part of the death rite or

ceremony. Lastly, officials of the Milwaukee Public Museum have determined that, pursuant to 25 U.S.C. 3001 (2), there is a relationship of shared group identity that can be reasonably traced between the Native American human remains and associated funerary objects and the Ho-Chunk Nation of Wisconsin and the Winnebago Tribe of Nebraska.

Representatives of any other Indian tribe that believes itself to be culturally affiliated with the human remains and associated funerary objects should contact Dr. Alex Barker, Anthropology Section Head, Milwaukee Public Museum, 800 West Wells Street, Milwaukee, WI 53233, telephone (414) 278-2786, before December 23, 2004. Repatriation of the human remains and associated funerary objects to the Ho-Chunk Nation of Wisconsin and the Winnebago Tribe of Nebraska may proceed after that date if no additional claimants come forward.

The Milwaukee Public Museum is responsible for notifying the Ho-Chunk Nation of Wisconsin; Iowa Tribe of Kansas and Nebraska; Iowa Tribe of Oklahoma; Otoe-Missouria Tribe of Indians, Oklahoma; and Winnebago Tribe of Nebraska that this notice has been published.
