

24, 1998, that grants conditionally AirCell's waiver request of section 22.925. The waiver permits AirCell, Inc., and a number of cellular licensees, which jointly entered into resale agreements with AirCell, Inc., to furnish system capacity for the provision of cellular service on a secondary, conditional basis to airborne terminal units using technology developed by AirCell, Inc. The waiver also gives AirCell the authority to operate a specially-designed mobile cellular telecommunications unit for use aboard general aviation aircraft. The AirCell system gives the public greater access to safety-related data and wireless telephone services for general aviation and equips pilots with a transmission facility that can provide a method of receiving real-time information about changing weather conditions, navigation, telemetry, and aircraft operations.

Form Number: N/A.

Type of Review: Extension of currently approved collection.

Respondents: Business or other for-profit entities.

Number of Respondents: 4,867.

Estimated Time per Response: 0.25 to 3.0 hours.

FCC staff use this information in field investigations to monitor licensees' compliance with the FCC's technical rules and to ensure that licensee is operating in accordance with its station authorization. Station personnel use the value F (efficiency factor) in the event that measurement by the indirect method of power is necessary.

new media ownership rules adopted by the Commission on June 2, 2003. (Report and Order, MB Docket 02-277 and MM Dockets 01-235, 01-317, and 00-244, and Notice of Proposed Rulemaking, *In The Matter of 2002 Biennial Regulatory Review—Review of the Commission's Broadcast Ownership Rules and Other Rules Adopted Pursuant to Section 202 of the Telecommunications Act of 1996*.) 68 FR 46285, August 5, 2003. The Court ordered "that the prior ownership rules remain in effect pending resolution of these proceedings." *Prometheus Radio Project v. FCC*, No. 03-3388 (3d Cir. Sept. 3, 2003) (*per curiam*). The Court's Order requires that the Commission process broadcast station applications under the prior ownership rules.

FCC Form 301 is used to apply for authority to construct a new commercial AM, FM, or TV broadcast station, or to make changes in existing facilities of such a station. In addition, FM licensees or permittees may request, by application on FCC Form 301, upgrades on adjacent and co-channels, modifications to adjacent channels of the same class and downgrades to adjacent channels without first submitting a petition for rulemaking. All applicants using this one-step process must demonstrate that a suitable site exists which would comply with allotment standards with respect to minimum distance separation and city-grade coverage and which would be suitable for tower construction. To receive authorization for commencement of Digital Television ("DTV") operation, commercial broadcast licensees must file FCC Form 301 for a construction permit. This application may be filed anytime after receiving the initial DTV allotment but must be filed before mid-point in a particular applicant's required construction period. The Commission will consider these applications as minor changes in facilities. Applications will not have to supply full legal or financial qualification information.
