

DEPARTMENT OF THE INTERIOR**Bureau of Reclamation****Lake Berryessa Visitor Services Plan, Napa County, CA**

AGENCY: Bureau of Reclamation, Interior.

ACTION: Extension of comment period for review of Draft Environmental Impact Statement (DEIS).

SUMMARY: The Bureau of Reclamation is extending the review period for the DEIS to March 22, 2004. The notice of availability of the DEIS and notice of public workshop and notice of public hearings was published in the **Federal Register** on October 31, 2003 (68 FR 62097). A notice for an additional open house meeting was published in the **Federal Register** on December 19, 2003 (68 FR 70835). The public review period was originally to end on February 4, 2004.

DATES: Submit comments on the DEIS on or before March 22, 2004.

ADDRESSES: Send comments on the DEIS to Ms. Janet Sierzputowski, Bureau of Reclamation, 2800 Cottage Way (Attn: MP-140), Sacramento, CA 95825.

FOR FURTHER INFORMATION CONTACT: Mr. Stephen Rodgers at 707-966-2111 x106, fax 707-966-0409, or e-mail: srodgers@mp.usbr.gov. A copy of the Executive Summary, DEIS, and/or the technical appendices may be obtained by calling Ms. Sierzputowski at 916-978-5112. The DEIS is also accessible at www.usbr.gov/mp/berryessa.

SUPPLEMENTARY INFORMATION: Our practice is to make comments, including names and home addresses of respondents, available for public review. Individual respondents may request that we withhold their home address from public disclosure, which we will honor to the extent allowable by law. There also may be circumstances in which we would withhold a respondent's identity from public disclosure, as allowable by law. If you wish us to withhold your name and/or address, you must state this prominently at the beginning of your comment. We will make all submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, available for public disclosure in their entirety.

Dated: January 27, 2004.

Frank Michny,

Regional Environmental Officer, Mid-Pacific Region.

BILLING CODE 4310-MN-M

DEPARTMENT OF LABOR**Employment and Training Administration****Job Corps: Preliminary Finding of No Significant Impact (FONSI) for the Proposed Job Corps Center Located on Scott Hamilton Drive in Little Rock, AR**

AGENCY: Employment and Training Administration, Labor.

ACTION: Preliminary Finding of No Significant Impact (FONSI) for the proposed Job Corps Center to be located on Scott Hamilton Drive in Little Rock, Arkansas.

SUMMARY: Pursuant to the Council on Environmental Quality Regulations (40 CFR part 1500-08) implementing procedural provisions of the National Environmental Policy Act (NEPA), the Department of Labor, Employment and Training Administration, Office of Job Corps, in accordance with 29 CFR 11.11(d), gives notice that an Environmental Assessment (EA) has been prepared for a proposed new Job Corps Center to be located in Little Rock, Arkansas, and that the proposed plan for a new Job Corps Center will have no significant environmental impact. This preliminary Finding of No Significant Impact (FONSI) will be made available for public review and comment for a period of 45 days.

DATES: Comments must be submitted by March 29, 2004.

ADDRESSES: Any comment(s) are to be submitted to Eric Luetkenhaus, Employment and Training Administration, Department of Labor, 200 Constitution Avenue, NW., Room S-4203, Washington, DC 20210, (202) 693-3109 (this is not a toll-free number).

FOR FURTHER INFORMATION CONTACT:

Copies of the EA are available to interested parties by contacting Michael F. O'Malley, Architect, DOL Historic Preservation Officer, U.S. Department of Labor, Employment and Training Administration, 200 Constitution Avenue, NW., Room N-4659, Washington, DC 20210, (202) 693-3108 (this is not a toll-free number).

SUPPLEMENTARY INFORMATION: This Environmental Assessment (EA) summary addresses the proposed construction of a new Job Corps Center in Little Rock, Arkansas. The subject property for the proposed Job Corps Center is an approximately 32-acre undeveloped parcel of land owned by Celestica Corporation.

The new center will require construction of nine (9) new buildings.

The proposed Job Corps Center will provide housing, training, and support services for 272 resident students and 28 non-resident students. The current facility utilization plan includes new dormitories, a cafeteria building, administration offices, recreation facilities, and classroom facilities.

The construction of the Job Corps Center on this proposed site would be a positive asset to the area in terms of environmental and socioeconomic improvements, and long-term productivity. The proposed Job Corps Center will be a new source of employment opportunity for people in the central Arkansas area. The Job Corps program provides basic education, vocational skills training, work experience, counseling, health care and related support services. The program is designed to graduate students who are ready to participate in the local economy.

The proposed project will not have any significant adverse impact on any natural systems or resources. No State or Federal threatened or endangered species (proposed or listed) have been identified on the subject property.

The Job Corps Center construction will not affect any existing historic structures, as there are no known historic or archeologically sensitive areas on the proposed property parcel.

Air quality and noise levels should not be affected by the proposed development project. Due to the nature of the proposed project, it would not be a significant source of air pollutants or additional noise, except possibly during construction of the facility. All construction activities will be conducted in accordance with applicable noise and air pollution regulations, and all pollution sources will be permitted in accordance with applicable pollution control regulations.

The proposed Job Corps Center is not expected to significantly increase the vehicle traffic in the vicinity.

The proposed project will not have any significant adverse impact on the surrounding water, sewer, and storm water management infrastructure. The new buildings to be constructed for the proposed Job Corps Center will be tied in to the existing Central Arkansas Water distribution system. The new buildings to be constructed for the proposed Job Corps Center will also be tied in to the existing Little Rock Wastewater Utility system.

Entergy would provide the electricity for the site. This is not expected to create any significant impact to the regional utility infrastructure.

The relocation of the Job Corps Center is not expected to result in a significant

increase in vehicular traffic, since many of the Job Corps Center residents will either live at the Job Corps Center or use public transportation. While some Job Corps Center students and staff may use personal vehicles, their number would not result in a significant increase in vehicular traffic in the area. However, the proposed Job Corps Center entrance would be from Scott Hamilton Road. Scott Hamilton Road is a well used, two-lane thoroughfare. It may be necessary to install a traffic signal or widen Scott Hamilton Road in the area of the property.

No significant adverse affects to local medical, emergency, fire and police services are anticipated. The primary medical provider located closest to the proposed Job Corps parcel is the Southwest Hospital, approximately 5 miles from the proposed Job Corps Center. The Job Corps Center will have a small medical and dental facility on-site for use by the residents as necessary. Security services at the Job Corps will be provided by the center's security staff. Law enforcement services are provided by the Little Rock Police Department's Southwest Little Rock Patrol Division, located approximately 5 miles from the proposed project site. The local fire station is the Little Rock Fire Department. The fire department has two stations which operate 24 hours a day near the proposed site.

The proposed project will not have a significant adverse sociological affect on the surrounding community. Similarly, the proposed project will not have a significant adverse affect on demographic and socioeconomic characteristics of the area.

The alternatives considered in the preparation of this FONSI were as follows: (1) No action; and (2) continue project as proposed. The no action alternative was not selected. The U.S. Department of Labor's goal of improving the Job Corps Program by improving the learning environment at Job Corps Centers would not be met under this alternative. Due to the suitability of the proposed site for establishment of a new Job Corps Center, and the absence of any identified significant adverse environmental impacts from locating a Job Corps Center on the subject property, the "continue project as proposed" alternative was selected.

Based on the information gathered during the preparation of the EA, no environmental liabilities, current or historical, were found to exist on the proposed Job Corps Center site. The construction of the Job Corps Center on Scott Hamilton Road in Little Rock, Arkansas will not create any significant adverse impacts on the environment.

Dated this 9th day of February, 2004.

Richard C. Trigg,

Administrator, Office of Job Corps.

BILLING CODE 4510-30-P

DEPARTMENT OF LABOR

Employment Standards Administration, Wage and Hour Division

Minimum Wages for Federal and Federally Assisted Construction; General Wage Determination Decisions

General wage determination decisions of the Secretary of Labor are issued in accordance with applicable law and are based on the information obtained by the Department of Labor from its study of local wage conditions and data made available from other sources. They specify the basic hourly wage rates and fringe benefits which are determined to be prevailing for the described classes of laborers and mechanics employed on construction projects of a similar character and in the localities specified therein.

The determinations in these decisions of prevailing rates and fringe benefits have been made in accordance with 29 CFR part 1, by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR part 1, Appendix, as well as such additional statutes as may from time to time be enacted containing provisions for the payment of wages determined to be prevailing by the Secretary of Labor in accordance with the Davis-Bacon Act. The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work at the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public comment procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in the effective date as prescribed in that section, because the necessity to issue current construction industry wage determinations frequently and in large volume causes procedures to be impractical and contrary to the public interest.

General wage determinations decisions, and modifications and supersedes decisions thereto, contain no expiration dates and are effective from their date of notice in the **Federal Register**, or on the date written notice is received by this agency, whichever is earlier. These decisions are to be used in accordance with the provisions of 29 CFR parts 1 and 5. Accordingly, the applicable decision, together with any modifications issued, must be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR part 5. The wage rates and fringe benefits, notice of which is published herein, and which are contained in the Government Printing Office (GPO) document entitled "General Wage Determinations Issued Under The Davis-Bacon And Related Acts," shall be the minimum paid by contractors and subcontractors to laborers and mechanics.

Any person, organization, or government agency having an interest in the rates determined as prevailing is encouraged to submit wage rate and fringe benefit information for consideration by the Department.

Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Wage and Hour Division, Division of Wage Determinations, 200 Constitution Avenue, NW., Room S-3014, Washington, DC 20210.

Modification to General Wage Determination Decisions

The Number of the decisions listed to the Government Printing Office document entitled "General Wage Determinations Issued Under the Davis-Bacon and related Acts" being modified are listed by Volume and State. Dates of publication in the **Federal Register** are in parentheses following the decisions being modified.
