## POSTAL SERVICE

### 39 CFR Part 111

#### Machinable Parcel Testing Changes

**AGENCY:** Postal Service.

**ACTION:** Proposed rule.

**SUMMARY:** The Postal Service proposes revisions to the *Domestic Mail Manual* (DMM) that would centralize the processing of requests for parcel testing. Such testing is requested to determine if the parcels can be successfully processed on bulk mail center (BMC) parcel sorters when they do not conform to the general machinability criteria in the DMM. Under this proposal parcel testing would no longer be performed by the BMC manager. It would be performed by the Manager, BMC Operations, USPS Headquarters.

**DATES:** Submit comments on or before March 22, 2004.

**ADDRESSES:** Mail or deliver written comments to the Manager, Mailing Standards, U.S. Postal Service, 1735 N Lynn Street, Room 3025, Arlington, VA 22209–6038. Copies of all written comments will be available for inspection and photocopying between 9 a.m. and 4 p.m., Monday through Friday, at Postal Service Headquarters Library, 475 L'Enfant Plaza, SW., 11 Floor N, Washington, DC. Comments may be submitted via fax to 703–292–4058, ATTN: Obataiye B. Akinwale or via e-mail to [obataiye.b.akinwale@usps.gov](mailto:obataiye.b.akinwale@usps.gov).

**FOR FURTHER INFORMATION CONTACT:** Obataiye B. Akinwale, 703–292–3643.

#### SUPPLEMENTARY INFORMATION:

##### Background

Under current Postal Service standards, a mailer may submit a request for testing of parcels to a destinating BMC plant manager. The BMC plant manager may authorize the mailer to enter such parcels as machinable parcels rather than as irregular parcels if the parcels are tested on BMC parcel sorters and determined by the manager to be machinable. The parcels must be properly labeled,

entered at a post office within the service area of the authorizing BMC, and bear delivery addresses located within the service area of the authorizing BMC.

The Postal Service maintains that system-wide consistency would be achieved if exception requests are processed at one central location rather than at each BMC. This change is in line with the Postal Service's obligation to ensure prompt, efficient, reliable responses to customer needs.

#### Proposed Changes

This proposal would revise the DMM standards for testing parcels that do not conform to the general machinability criteria for machinable parcels. Under this proposal, mailers would send requests for testing to the manager, BMC Operations, USPS Headquarters for a determination of machinability. The procedure for testing parcels would ensure that customer expectations of consistency across postal operations are met. The procedure also would remove the processing of requests for testing from BMCs and enable BMC Operations at USPS Headquarters to ensure that test results are consistent.

Although exempt from the notice and comment requirements of the Administrative Procedure Act (5 U.S.C. of 553(b), (c)) regarding proposed rulemaking by 39 U.S.C. 410(a), the Postal Service invites public comment on the following proposed revisions to the DMM, incorporated by reference in the *Code of Federal Regulations*. #### 4.3 Exception

[Revise 4.3 to read as follows:]

Some parcels may be successfully processed on BMC parcel sorters even though they do not conform to the general machinability criteria in 4.1. The manager, BMC Operations, USPS Headquarters (see G043 for address) may authorize a mailer to enter such parcels as machinable parcels rather than irregular parcels if the parcels are tested on BMC parcel sorters and prove to be machinable. Mailers who wish to have parcels tested for machinability on USPS parcel sorting machines must:

a. Submit a written request to BMC Operations. The request must list mailpiece characteristics for every shape, weight, and size to be considered. If the letter requesting testing describes a mailpiece that falls within the specifications of pieces that were tested previously, they will not be tested.

b. Describe mailpiece construction, parcel weight(s), estimated number of parcels to be mailed in the coming year, and preparation level (e.g., destination BMC pallets).

c. Send 100 samples to the test facility designated by the manager, BMC Operations at least 6 weeks prior to the first mailing date. The manager, BMC Operations will recommend changes, to ensure machinability, for parcels that do not qualify.

#### 6.0 OUTSIDE PARCEL (NONMACHINABLE)

An outside parcel is a parcel that exceeds any of the maximum dimensions for a machinable parcel.

#### ENVIRONMENTAL PROTECTION AGENCY

##### 40 CFR Part 261

[FRL–7625–2]

#### Hazardous Waste Management System; Identification and Listing of Hazardous Waste; Proposed Exclusion

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Proposed rule and request for comment.

**SUMMARY:** The EPA is proposing to grant a petition submitted by Bekaert Corporation (Bekaert) to exclude (or delist) a certain solid waste generated by its Dyersburg, Tennessee, facility from the lists of hazardous wastes.

The EPA used the Delisting Risk Assessment Software (DRAS) in the evaluation of the impact of the petitioned waste on human health and the environment.

The EPA bases its proposed decision to grant the petition on an evaluation of waste-specific information provided by the petitioner. This proposed decision, if finalized, would exclude the petitioned waste from the requirements of hazardous waste regulations under the Resource Conservation and Recovery Act (RCRA).

If finalized, the EPA would conclude that Bekaert's petitioned waste is nonhazardous with respect to the original listing criteria and that the generation of an F006 hazardous waste sludge from the treatment of waste waters from electroplating processes performed by the facility will not be hazardous at the point of generation because of the adequately reduced likelihood of migration of constituents from this waste. The EPA would also conclude that Bekaert's process minimizes short-term and long-term threats from the petitioned waste to human health and the environment.

**DATES:** The EPA will accept comments until April 5, 2004. The EPA will stamp comments received after the close of the comment period as late. These late comments may not be considered in formulating a final decision. Your requests for a hearing must reach the EPA by March 8, 2004. The request
