*Estimated Reporting and Recordkeeping “Non-Hour Cost”*

*Burden:* We have identified no “non-hour cost” burdens.

*Public Disclosure Statement:* The PRA (44 U.S.C. 3501, *et seq.*) provides that an agency may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number. Until OMB approves a collection of information, you are not obligated to respond.

*Comments:* Before submitting an ICR to OMB, PRA section 3506(c)(2)(A) requires each agency “\* \* \* to provide notice \* \* \* and otherwise consult with members of the public and affected agencies concerning each proposed collection of information \* \* \*”. Agencies must specifically solicit comments to: (a) Evaluate whether the proposed collection of information is necessary for the agency to perform its duties, including whether the information is useful; (b) evaluate the accuracy of the agency’s estimate of the burden of the proposed collection of information; (c) enhance the quality, usefulness, and clarity of the information to be collected; and (d) minimize the burden on the respondents, including the use of automated collection techniques or other forms of information technology.

Agencies must also estimate the “non-hour cost” burdens to respondents or recordkeepers resulting from the collection of information. Therefore, if you have costs to generate, maintain, and disclose this information, you should comment and provide your total capital and startup cost components or annual operation, maintenance, and purchase of service components. You should describe the methods you use to estimate major cost factors, including system and technology acquisition, expected useful life of capital equipment, discount rate(s), and the

period over which you incur costs. Capital and startup costs include, among other items, computers and software you purchase to prepare for collecting information, monitoring, and record storage facilities. You should not include estimates for equipment or services purchased: (i) Before October 1, 1995; (ii) to comply with requirements not associated with the information collection; (iii) for reasons other than to provide information or keep records for the Government; or (iv) as part of customary and usual business or private practices.

We will summarize written responses to this notice and address them in our submission for OMB approval. As a result of your comments, we will make any necessary adjustments to the burden in our submission to OMB.

*Public Comment Policy:* MMS’s practice is to make comments, including names and home addresses of respondents, available for public review during regular business hours. If you wish your name and/or address to be withheld, you must state this prominently at the beginning of your comment. MMS will honor this request to the extent allowable by law; however, anonymous comments will not be considered. All submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, will be made available for public inspection in their entirety.

*MMS Federal Register Liaison Officer:* Denise Johnson (202) 208–3976.

**DEPARTMENT OF THE INTERIOR**

**Bureau of Reclamation**

**Quarterly Status Report of Water Service, Repayment, and Other Water-Related Contract Negotiations**

**AGENCY:** Bureau of Reclamation, Interior.

**ACTION:** Notice.

**SUMMARY:** Notice is hereby given of contractual actions that have been proposed to the Bureau of Reclamation (Reclamation) and were pending through December 31, 2003, and contract actions that have been completed or discontinued since the last publication of this notice on October 28, 2003. From the date of this publication, future quarterly notices during this calendar year will be limited to new, modified, discontinued, or completed contract actions. This annual notice should be used as a point of reference to identify changes in future notices. This notice is one of a variety of means used to inform the public about proposed contractual actions for capital recovery and management of project resources and facilities consistent with section 9(f) of the Reclamation Project Act of 1939. Additional announcements of individual contract actions may be published in the **Federal Register** and in newspapers of general circulation in the areas determined by Reclamation to be affected by the proposed action.

**ADDRESSES:** The identity of the approving officer and other information pertaining to a specific contract proposal may be obtained by calling or writing the appropriate regional office at the address and telephone number given for each region in the **SUPPLEMENTARY INFORMATION** section.

**FOR FURTHER INFORMATION CONTACT:** Sandra L. Simons, Manager, Water

Contracts and Repayment Office, Bureau of Reclamation, P.O. Box 25007, Denver, Colorado 80225-0007; telephone 303-445-2902.

**SUPPLEMENTARY INFORMATION:** Consistent with section 9(f) of the Reclamation Project Act of 1939 and the rules and regulations published in 52 FR 11954, April 13, 1987 (43 CFR 426.22), Reclamation will publish notice of proposed or amendatory contract actions for any contract for the delivery of project water for authorized uses in newspapers of general circulation in the affected area at least 60 days prior to contract execution. Announcements may be in the form of news releases, legal notices, official letters, memorandums, or other forms of written material. Meetings, workshops, and/or hearings may also be used, as appropriate, to provide local publicity. The public participation procedures do not apply to proposed contracts for the sale of surplus or interim irrigation water for a term of 1 year or less. Either of the contracting parties may invite the public to observe contract proceedings. All public participation procedures will be coordinated with those involved in complying with the National Environmental Policy Act. Pursuant to the "Final Revised Public Participation Procedures" for water resource-related contract negotiations, published in 47 FR 7763, February 22, 1982, a tabulation is provided of all proposed contractual actions in each of the five Reclamation regions. When contract negotiations are completed, and prior to execution, each proposed contract form must be approved by the Secretary of the Interior, or pursuant to delegated or redelegated authority, the Commissioner of Reclamation or one of the regional directors. In some instances, congressional review and approval of a report, water rate, or other terms and conditions of the contract may be involved.

Public participation in and receipt of comments on contract proposals will be facilitated by adherence to the following procedures:

1. Only persons authorized to act on behalf of the contracting entities may negotiate the terms and conditions of a specific contract proposal.

2. Advance notice of meetings or hearings will be furnished to those parties that have made a timely written request for such notice to the appropriate regional or project office of Reclamation.

3. Written correspondence regarding proposed contracts may be made available to the general public pursuant to the terms and procedures of the

Freedom of Information Act, as amended.

4. Written comments on a proposed contract or contract action must be submitted to the appropriate regional officials at the locations and within the time limits set forth in the advance public notices.

5. All written comments received and testimony presented at any public hearings will be reviewed and summarized by the appropriate regional office for use by the contract approving authority.

6. Copies of specific proposed contracts may be obtained from the appropriate regional director or his designated public contact as they become available for review and comment.

7. In the event modifications are made in the form of a proposed contract, the appropriate regional director shall determine whether republication of the notice and/or extension of the comment period is necessary.

Factors considered in making such a determination shall include, but are not limited to (i) the significance of the modification, and (ii) the degree of public interest which has been expressed over the course of the negotiations. At a minimum, the regional director shall furnish revised contracts to all parties who requested the contract in response to the initial public notice.

## DEPARTMENT OF THE INTERIOR

### Bureau of Reclamation

#### Allocation of Water Supply and Long-Term Contract Execution, Central Arizona Project, Arizona

**AGENCY:** Bureau of Reclamation, Interior.

**ACTION:** Notice of re-opening the public review period for the draft environmental impact statement (EIS) on the Allocation of Water Supply and Long-Term Contract Execution, Central Arizona Project (CAP) (INT-DES-00-24).

**SUMMARY:** Pursuant to the National Environmental Policy Act (NEPA) of 1969, as amended, and the Council on Environmental Quality's Regulations for Implementing the Procedural Provisions of NEPA, the Bureau of Reclamation (Reclamation) filed a draft EIS with the U. S. Environmental Protection Agency (EPA) on the Allocation of Water Supply and Long-Term Contract Execution, CAP, on June 23, 2000. The draft EIS proposes allocation of remaining available CAP water and execution of associated contracts. Reclamation published a notice of availability for the draft EIS in the **Federal Register** on June 23, 2000 (65 FR 39177). EPA's notice of availability was published on June 30, 2000 (65 FR 40629). The public review period for the draft EIS was from June 23, 2000, to August 25, 2000. On July 12, 2000, a **Federal Register** notice was published (65 FR 43037) indicating that due to legislation passed during the public comment period prohibiting the expenditure of resources to complete the NEPA process, no public hearings would be held; however, written comments on the adequacy of the draft EIS would continue to be accepted until August 25, 2000.

Due to the amount of time that has passed since the original review period closed, Reclamation is re-opening the public review period for the draft EIS, to receive comments from interested organizations and individuals on the adequacy of the draft EIS in describing environmental impacts of the proposal. All written comments received during the original public review period are part of the record and do not have to be resubmitted.

At this time, Reclamation does not plan to hold any public hearings to obtain oral comments on the draft EIS; however, if substantial interest in having hearings is expressed, one or more public hearings will be scheduled and public notice will be provided in the **Federal Register**.

**DATES:** If you believe a public hearing should be scheduled, please contact Mr. Bruce Ellis by March 15, 2004 (see **FOR FURTHER INFORMATION CONTACT** section below).

Written comments on this draft EIS must be received no later than April 27, 2004.

**ADDRESSES:** Send written comments to Mr. Bruce Ellis, Chief, Environmental Resources Management Division, Bureau of Reclamation, Phoenix Area Office (PXA0-1500), PO Box 81169, Phoenix, AZ 85069-1169; or by fax (602) 216-4006.

The draft EIS is available on the Internet at <http://www.usbr.gov/lc/phoenix/>. Copies of the draft EIS are also available upon request from Ms. Janice Kjesbo, Bureau of Reclamation, Phoenix Area Office (PXA0-1500), PO Box 81169, Phoenix, AZ 85069-1169, telephone (602) 216-3864, or fax (602) 216-4006.

See **SUPPLEMENTARY INFORMATION** for a list of libraries where the draft EIS is available for public inspection and review.

**FOR FURTHER INFORMATION CONTACT:** Mr. Bruce Ellis at (602) 216-3854.

**SUPPLEMENTARY INFORMATION:** As indicated in previous **Federal Register** notices, this NEPA process involves proposed modifications to previous CAP water allocations. The purpose and need for the Federal action is to allocate remaining available CAP water in a manner that would facilitate the resolution of outstanding Indian water rights claims in the State of Arizona. Authority for this action is pursuant to the Colorado River Basin Project Act of 1968 (Public Law 90-537).

The proposed allocation is taking place in the context of settlement negotiations concerning operation and repayment of the CAP and Indian water rights. These negotiations are being conducted by the U.S. Departments of the Interior and Justice, with representatives of the Central Arizona Water Conservation District (CAWCD) (which operates the CAP), several Indian Tribes, Arizona Department of Water Resources (ADWR), non-Indian agricultural districts, and several municipalities. The Proposed Action (or Settlement Alternative) identified in the draft EIS is an allocation of CAP water which is consistent with terms of
