II. What is the Agency’s Authority for Taking this Action?

Section 5(h)(1) of TSCA and 40 CFR 720.38 authorizes EPA to exempt persons from premanufacture notification (PMN) requirements and permit them to manufacture or import new chemical substances for test marketing purposes, if the Agency finds that the manufacture, processing, distribution in commerce, use, and disposal of the substances for test marketing purposes will not present an unreasonable risk of injury to health or the environment. EPA may impose restrictions on test marketing activities and may modify or revoke a test marketing exemption upon receipt of new information which casts significant doubt on its finding that the test marketing activity will not present an unreasonable risk of injury.

III. What Action is the Agency Taking?

EPA approves the above-referenced TME. EPA has determined that test marketing the new chemical substance, under the conditions set out in the TME application and in this notice, will not present any unreasonable risk of injury to health or the environment.

IV. What Restrictions Apply to this TME?

The test market time period, production volume, number of customers, and use must not exceed specifications in the application and this notice. All other conditions and restrictions described in the application and in this notice must also be met.

SUPPLEMENTARY INFORMATION: This is a summary of the Commission’s public notice, CC Docket No. 96-45, DA 04-27, released January 8, 2004. On November 5, 2003, Sprint on behalf of its Wireless Division filed with the Commission a petition pursuant to section 214(e)(6) of the Communications Act of 1934, as amended, seeking designation as an ETC in the portions of its licensed service area in North Carolina served by non-rural incumbent local exchange carriers. Sprint contends that: the North Carolina Utilities Commission (North Carolina Commission) has provided an affirmative statement that it does not regulate commercial mobile radio service (CMRS) carriers; Sprint satisfies all the statutory and regulatory prerequisites for ETC designation; and designating Sprint as an ETC will serve the public interest.

We note that Sprint must provide a copy of its petition to the North Carolina Commission. The Commission will also send a copy of this public notice to the North Carolina Commission by overnight express mail to ensure that the North Carolina Commission is notified of the notice and comment period.

Pursuant to §§ 1.415 and 1.419 of the Commission's rules, 47 CFR 1.415, 1.419, interested parties may file comments as follows: comments are due on or before March 11, 2004, and reply comments are due on or before March 25, 2004.
