

Rather, the Commission finds that the proposed interpretation of Article Fifth(b) is consistent with the Exchange Act, including section 6(b)(5).

The Petitioner's legal memorandum states that the proposal is not consistent with section 6(c)(3)(A) of the Exchange Act "because the proposed rule does not address the qualifications of CBOT members to become CBOE members in accordance with the voting rights and procedures established by Article Fifth(b)." ⁶² Section 6(c)(3)(A) of the Exchange Act provides that an exchange "may deny membership to, or condition the membership of, a registered broker-dealer" if, among other things, such broker-dealer does not meet financial responsibility or operational capability standards set forth in the exchange's rules. ⁶³ This provision is further qualified by section 6(c)(4) of the Exchange Act, which permits an exchange to limit the number of members of the exchange, provided that the exchange does not decrease the number of memberships below such number in effect on May 1, 1975. ⁶⁴ Article Fifth(b) states that a member of the CBOT is entitled to be a member of the CBOE, notwithstanding any limitation on the number of CBOE members, if such CBOT member applies for membership and otherwise qualifies for membership. The CBOE is proposing to interpret the meaning of the term "member of the [CBOT]" as used in Article Fifth(b). This interpretation does not implicate Section 6(c)(3)(A) and is consistent with Section 6(c)(4) because the CBOE is not proposing to reduce the number of members of the exchange.

VI. Conclusion

It is therefore ordered, that the earlier action taken by delegated authority ⁶⁵ is set aside and the proposed rule change (SR-CBOE-2004-16), as amended, is approved pursuant to section 19(b)(2) of the Exchange Act. ⁶⁶

Self-Regulatory Organizations; Notice of Filing and Order Granting Accelerated Approval of a Proposed Rule Change and Amendment No. 1 Thereto by the International Securities Exchange, Inc., Relating to Listing Standards for Options on Narrow-Based Securities Indexes

February 25, 2005.

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 (the "Act"), ¹ and Rule 19b-4 thereunder, ² notice is hereby given that on February 14, 2005, the International Securities Exchange, Inc. ("ISE" or "Exchange") filed with the Securities and Exchange Commission ("Commission") the

proposed rule change as described in items I, II, and III below, which items have been prepared by the ISE. On February 23, 2005, the Exchange amended its proposal. ³ The Commission is publishing this notice to solicit comments on the proposed rule change, as amended, from interested persons, and is approving the proposal on an accelerated basis.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The ISE is proposing to amend its rules relating to listing standards for options on narrow-based security indexes. The text of the proposed rule change is as follows (*italics* indicate additions; [brackets] indicate deletions):

* * * * *

Rule 2002. Designation of an Index

- (a) No Change.
- (b) The Exchange may trade options on a narrow-based index pursuant to Rule 19b-4(e) of the Securities Exchange Act of 1934, if each of the following conditions is satisfied:
 - (1) No Change.
 - (2) The index is capitalization-weighted, price-weighted, [or] equal dollar-weighted, *or modified capitalization-weighted*, and consists of 10 or more component securities;
 - (3)-(4) No Change.
 - (5) In a capitalization-weighted index *or a modified capitalization-weighted index*, the lesser of the five highest weighted component securities in the index or the highest weighted component securities in the index that in the aggregate represent at least 30 percent of the total number of component securities in the index each have had an average monthly trading volume of at least 2,000,000 shares over the past six months;
 - (6)-(12) No Change.
 - (c) The following maintenance listing standards shall apply to each class of index options originally listed pursuant to paragraph (b) above:
 - (1)-(3) No Change.
 - (4) In a capitalization-weighted index *or a modified capitalization-weighted index*, the lesser of the five highest weighted component securities in the index or the highest weighted component securities in the index that in the aggregate represent at least 30 percent of the total number of stocks in the index each have had an average

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of, and basis for, the proposed rule change, as amended, and discussed any comments it received on the proposed rule change, as amended. The text of these statements may be examined at the places specified in item III below. The self-regulatory organization has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The ISE is proposing to amend ISE Rule 2002(b). ISE Rule 2002(b) contains generic listing standards for narrow-based index options pursuant to Rule 19b-4(e) of the Act.⁴ Rule 19b-4(e) provides that the listing and trading of a new derivative securities product by a self-regulatory organization shall not be deemed a proposed rule change, pursuant to paragraph (c)(1) of Rule 19b-4,⁵ if the Commission has approved, pursuant to section 19(b) of the Act,⁶ the self-regulatory organization's trading rules, procedures and listing standards for the product class that would include the new derivatives securities product, and the self-regulatory organization has a surveillance program for the product class.⁷ Thus, ISE Rule 2002(b) allows

the Exchange to list options on a narrow-based securities index pursuant to Rule 19b-4(e) under the Act without having to submit a formal rule change under section 19(b) of the Act as long as the requisite criteria provided for under ISE Rule 2002(b) are met.⁸ One of these criteria, provided under ISE Rule 2002(b)(2), requires that the subject index be capitalization-weighted, price-weighted, or equal-dollar weighted and consist of ten or more component securities.

The Exchange hereby proposes to amend ISE Rule 2002(b)(2) to include a "modified capitalization-weighted" methodology as an acceptable generic listing standard for options on a narrow-based index.⁹ The modified capitalization-weighted methodology is already an approved criterion for securities indexes¹⁰ and is an established method of weighting securities indexes.¹¹ Accordingly, the ISE proposes to adopt the modified capitalization-weighted methodology as a standard for listing options on narrow-based indexes that satisfy the Exchange's generic listing criteria for options on narrow-based securities indexes under ISE Rule 2002(b).

2. Basis

The Exchange believes the proposed rule change, as amended, is consistent with the Act and the rules and regulations thereunder and, in particular, the requirements of section 6(b) of the Act. Specifically, the Exchange believes the proposed rule change, as amended, is consistent with

section 6(b)(5) requirements that the rules of an exchange be designed to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism for a free and open market and a national market system, and, in general, to protect investors and the public interest. The adoption of the proposed rule change, as amended, would enable the ISE to begin listing and trading options on new narrow-based indexes.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange believes that the proposed rule change, as amended, does not impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

The Exchange has not solicited, and does not intend to solicit, comments on this proposed rule change, as amended. The Exchange has not received any unsolicited written comments from members or other interested parties.

III. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change, as amended, is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's Internet comment form (<http://www.sec.gov/rules/sro.shtml>); or
- Send an e-mail to rule-comments@sec.gov. Please include File Number SR-ISE-2005-10 on the subject line.

Paper Comments

- Send paper comments in triplicate to Jonathan G. Katz, Secretary, Securities and Exchange Commission, 450 Fifth Street, NW., Washington, DC 20549-0609. All submissions should refer to File Number SR-ISE-2005-10. This file number should be included on the subject line if e-mail is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commissions Internet Web site (<http://www.sec.gov/rules/sro.shtml>). ⁹ A modified capitalization-weighted index is similar to a capitalization-weighted index where the components are weighted according to the total market value of the outstanding shares, except that an adjustment to the weighting of one or more of the component occurs. This type of methodology is expected to: (1) Retain the economic attributes of capitalization weighting; (2) promote portfolio weight diversification; (3) reduce performance distortion by preserving the capitalization ranking of companies; and (4) reduce market impact on the smallest component securities from necessary weight rebalancing.

¹⁰ The Chicago Board Options Exchange's ("CBOE") generic listing standards for micro narrow-based securities indexes, CBOE Rule 24.2(d)(2), includes modified capitalization-weighted methodology as an approved criteria. See Securities Exchange Act Release No. 49932 (June 28, 2004); 69 FR 40994 (July 7, 2004) (Order approving CBOE's micro narrow-based securities index generic listing standards).

¹¹ For example, the Nasdaq-100 Index is calculated using the modified capitalization-weighted methodology.

Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Room. Copies of such filing also will be available for inspection and copying at the principal office of the ISE. All comments received will be posted without change; the Commission does not edit personal identifying information from submissions. You should submit only information that you wish to make available publicly. All submissions should refer to File Number SR-ISE-2005-10 and should be submitted by March 24, 2005.

IV. Commission's Findings and Order Granting Accelerated Approval of Proposed Rule Change

The Commission finds that the proposed rule change, as amended, is consistent with the requirements of the Act and the rules and regulations thereunder applicable to a national securities exchange, and, in particular, the requirements of section 6(b)(5) thereunder.¹² The proposed rule change would facilitate the listing and trading of options on certain types of narrow-based securities indexes on the Exchange for the benefit of its members and their customers, specifically those that are calculated using the modified capitalization-weighted methodology and otherwise meet all applicable generic listing standards under ISE Rule 2002(b). Accordingly, the Commission believes that approving this proposed rule change, as amended, would promote a fair, orderly, and competitive options market.

The Exchange has requested that this proposed rule change be given accelerated effectiveness pursuant to section 19(b)(2) of the Act.¹³ The Commission finds good cause for approving this proposed rule change, as amended, prior to the thirtieth day after the date of publication of notice thereof in the **Federal Register**. The Commission believes that accelerating the effectiveness of the proposed rule change, as amended, would facilitate the availability of additional investment choices to investors. In addition, the Commission notes that it has previously approved the modified market capitalization methodology in generic listing standards for other derivative products. Accordingly, the Commission

believes that there is good cause, consistent with sections 6(b)(5) and 19(b)(2) of the Act,¹⁴ to approve the proposal, as amended, on an accelerated basis.

V. Conclusion

It is therefore ordered, pursuant to section 19(b)(2) of the Act,¹⁵ that the proposed rule change (SR-ISE-2005-10), as amended, is hereby approved on an accelerated basis.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.¹⁶

BILLING CODE 8010-01-P

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-51264; File No. SR-NYSE-2005-07]

Self-Regulatory Organizations; Order Granting Approval of Proposed Rule Change by the New York Stock Exchange, Inc. Relating to Proposed Changes to Exchange Rules 440F ("Public Short Sale Transactions Effected on the Exchange") and 440G ("Transactions in Stocks and Warrants for the Accounts of Members, Allied Members and Member Organizations")

February 25, 2005.

On January 11, 2005, the New York Stock Exchange, Inc. (the "NYSE" or the "Exchange") filed with the Securities and Exchange Commission (the "SEC" or the "Commission") the proposed rule change pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 (the "Exchange Act")² and Rule 19b-4 thereunder,³ a proposed rule change relating to the inclusion of certain short-exempt sales on Reports of Short Interest (*i.e.*, NYSE Forms SS20 and 121). This order approves the proposed rule change.

The proposed rule change was published for notice and comment in the **Federal Register** on January 26, 2005.⁴ The Commission did not receive comments on the foregoing proposed rule change.

The Commission has carefully reviewed the proposed rule change and

finds that the proposed rule change is consistent with the requirements of the Exchange Act and the rules and regulations thereunder applicable to a national securities exchange⁵ and, in particular, the requirements of section 6 of the Exchange Act.⁶ In particular, the Commission finds that the proposed rule change is consistent with section 6(b)(5) in that it is designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in regulating, clearing, settling, processing information with respect to, and facilitating transactions in securities, to remove impediments to perfect the mechanism of a free and open market and national market system, and in general to protect investors and the public interest; and the prompt and accurate clearance and settlement of securities transactions.⁷

The Commission notes that the NYSE proposal amends Exchange Rule 440F, which requires members and member organizations to report round-lot short sale transactions for public customers on Form SS20, and Exchange Rule 440G, which requires members and member organizations to report round-lot short sale transactions for members, allied members or member organizations on Form 121, to include certain short-exempt sale transactions. Currently, short-exempt sales are excluded when computing the total short interest on the forms, under Rules 440F and 440G, respectively. However, the Commission's Pilot Order issued pursuant to Rule 202T of Regulation SHO⁸ greatly increased the number of short-exempt sales transactions. Under the terms of the Commission's Pilot Order, sales in certain "designated securities" should be marked "short-exempt."⁹ The Commission finds that
