SUPPLEMENTARY INFORMATION:

PHMSA published the Final Rule titled "Pipeline Safety: Pipeline Integrity Management in High Consequence Areas (Hazardous Liquid Operators with less than 500 miles of Pipelines)" on January 16, 2002, in response to a host of safety recommendations, statutory mandates (49 U.S.C. Chapter 601 and 49 CFR Part 195), and the results of accident analyses. This rule requires continual assessment and evaluation of pipeline integrity through inspection or testing, data integration and analysis, and follow-up remedial, preventive, and mitigative actions. The current OMB approval for information collection requirements for an estimated 132

hazardous liquid pipeline operators is scheduled to expire on April 30, 2005.

The existing estimate of the information collection burden is based on the assumption that (1) all operators have developed initial integrity management plan, however, based on the audits conducted by PHMSA, approximately 50 percent or about 66 operators would need to substantially revise the initial plan, and would require approximately 1,400 hours to revise their initial integrity management program; (2) an additional 330 hours are required to update these programs annually; and (3) an additional 500 hours per operator are required annually to integrate data into the operator's existing management information system. PHMSA would like to continue to collect vital information on integrity management programs in the high consequence areas to measure its program effectiveness and to fulfill its statutory mandates.

As used in this notice, 'information collection' and 'paperwork collection' are synonymous, and include all work related to preparing and disseminating information related to this recordkeeping requirement including completing paperwork, gathering information and conducting telephone calls.

Type of Information Collection Request: Renewal of Existing Collection.

Title of Information Collection: Pipeline Integrity Management in High Consequence Areas for Operators with less than 500 Miles of Pipelines.

OMB Approval Number: 2137-0605.

Frequency: Annually, and as needed.

Use: This collection is used by PHMSA to measure the program effectiveness and ensure its statutory mandates for hazardous liquid pipeline safety in the high consequence areas

Pipeline and Hazardous Materials Safety Administration

[Docket: RSPA-98-4957]

Request for Public Comments and Office of Management and Budget (OMB) Approval of an Existing Information Collection

AGENCY: Pipeline and Hazardous Materials Safety Administration (PHMSA), Department of Transportation.

ACTION: Notice

SUMMARY: This notice seeks public comment on the need for PHMSA to collect paperwork information from state agencies that maintain programs to regulate pipelines. The purpose of the paperwork is to ensure that these states are properly monitoring the operations of pipeline operators in their states, and to determine Federal grant amounts for these states. This notice is published (pursuant to the Paperwork Reduction Act of 1995) to measure the need for the paperwork collection from these state agencies, to find ways to minimize the burden on states that must respond, to find ways to enhance the quality of information collected, and to verify the accuracy of the PHMSA's estimate of the burden (measured in work hours) on the states. This notice also seeks approval from the Office of Management and Budget to renew the existing approval of this paperwork collection.

DATES: Comments on this notice must be received by May 16, 2005 to assure consideration.

ADDRESSES: You may submit written comments to the docket by any of the following methods:

- Mail: Dockets Facility, U.S. Department of Transportation, Room PL-401, 400 Seventh Street, SW., 20590-0001. Anyone wanting confirmation of mailed comments must include a self-addressed stamped postcard.

SUPPLEMENTARY INFORMATION: Chapter 601, Title 49, United States Code (49 U.S.C. 60101 *et. seq.*) authorizes DOT to regulate pipeline transportation. While DOT is primarily responsible for developing, issuing, and enforcing minimum pipeline safety regulations, 49 U.S.C. 60101 *et. seq.*, provides for state assumption of all or part of the regulatory and enforcement responsibility for intrastate pipelines.

Section 60105 of 49 U.S.C. sets forth specific requirements a state must meet to qualify for certification status to assume regulatory and enforcement responsibility for intrastate pipelines, (*i.e.*, state adoption of minimum federal safety standards, state inspection of pipeline operators to determine compliance with the standards, and state provision for enforcement sanctions substantially the same as those authorized by 49 U.S.C. 60101 *et. seq.*) A participating state must annually submit a section 60105(a) Gas Pipeline Safety Program Certification and/or a Hazardous Liquid Pipeline Safety Program Certification to the Office of

Pipeline Safety signifying compliance with the terms of the certification.

As used in this notice, "information collection" and "paperwork collection" are synonymous, and include all work related to preparing and disseminating information related to this recordkeeping requirement including completing paperwork, gathering information and conducting telephone calls.
