If your application is not evaluated or not selected for funding, we notify you.

2. *Administrative and National Policy Requirements:* We identify administrative and national policy requirements in the application package and reference these and other requirements in the *Applicable Regulations* section of this notice.

We reference the regulations outlining the terms and conditions of an award in the *Applicable Regulations* section of this notice and include these and other specific conditions in the GAN. The GAN also incorporated your approved application as part of your binding commitments under the grant.

3. *Reporting:* At the end of your project period, you must submit a final performance report, including financial information, as directed by the Secretary. If you receive a multi-year award, you must submit an annual performance report that provides the most current performance and financial expenditure information as specified by the Secretary in 34 CFR 75.118.

4. *Performance Measures:* The Government Performance and Results Act (GPRA) of 1993 directs Federal departments and agencies to improve the effectiveness of their programs by engaging in strategic planning, setting outcome-related goals for programs, and measuring program results against those goals.

The goal of the RRCEP is to upgrade the skills of personnel currently employed in the public vocational rehabilitation (VR) system, centers for independent living, and private rehabilitation agencies and facilities (CRPs) that cooperate with State vocational rehabilitation units in providing vocational rehabilitation and other rehabilitation services and to develop their mastery of new program developments dealing with significant issues, priorities, and legislative thrusts of the public VR program.

In order to measure the success of RRCEPs in meeting this goal, each RRCEP grantee is required to conduct an evaluation of RRCEP training activities. In annual performance reports, RRCEPs are required to provide specific information on the number of training activities, the topics of each training program, the number of participants served, the target groups represented by participants, and summary data from participant evaluations. This information allows the RRCEP to measure results against the regional needs assessment conducted by the RRCEP and against the goal of upgrading the skills of personnel currently employed in the public VR system, centers of independent living, or CRPs that cooperate with State vocational rehabilitation units in providing vocational rehabilitation and other rehabilitation services and their mastery of new program developments, priorities, and legislative thrusts. The Rehabilitation Services Administration is in the process of developing a uniform data collection instrument for future use to collect these data directly from the grantee.
