BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

Agency Information Collection Activities: Submission for the Office of Management and Budget (OMB) Review; Comment Request

AGENCY: U.S. Nuclear Regulatory Commission (NRC).

ACTION: Notice of the OMB review of information collection and solicitation of public comment.

SUMMARY: The NRC has recently submitted to OMB for review the following proposal for the collection of information under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35). The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

1. *Type of submission, new, revision, or extension:* Extension.

2. *The title of the information collection:* NRC Form 536, "Operator Licensing Examination Data."

3. *The form number if applicable:* NRC Form 536.

4. *How often the collection is required:* Annually.

5. *Who will be required or asked to report:* All holders of operator licenses or construction permits for nuclear power reactors.

6. *An estimate of the number of annual responses:* 80.

7. *The estimated number of annual respondents:* 80.

8. *An estimate of the total number of hours needed annually to complete the requirement or request:* 80.

9. *An indication of whether Section 3507(d), Pub. L. 104-13 applies:* Not applicable.

10. *Abstract:* NRC is requesting renewal of its clearance to annually request all commercial power reactor licensees and applicants for an operating license to voluntarily send to the NRC: (1) Their projected number of candidates for operator licensing initial examinations; (2) the estimated dates of the examinations; (3) if the examination will be facility developed or NRC developed, and (4) the estimated number of individuals that will participate in the Generic Fundamentals Examination (GFE) for that calendar year. Except for the GFE, this information is used to plan budgets and resources in regard to operator examination scheduling in order to meet the needs of the nuclear industry.

A copy of the final supporting statement may be viewed free of charge at the NRC Public Document Room, One White Flint North, 11555 Rockville Pike, Room O-1 F21, Rockville, MD 20852. OMB clearance requests are available at the NRC worldwide Web site: <http://www.nrc.gov/public-involve/doc-comment/omb/index.html>. The document will be available on the NRC home page site for 60 days after the signature date of this notice.

Comments and questions should be directed to the OMB reviewer listed below by May 27, 2005. Comments received after this date will be considered if it is practical to do so, but assurance of consideration cannot be given to comments received after this date. John A. Asalone, Office of Information and Regulatory Affairs (3150-0131), NEOB-10202, Office of Management and Budget, Washington, DC 20503.

Comments can also be e-mailed to John_A._Asalone@omb.eop.gov or submitted by telephone at (202) 395-4650.

The NRC Clearance Officer is Brenda Jo. Shelton, (301) 415-7233.

Dated at Rockville, Maryland, this 21st day of April, 2005.

For the Nuclear Regulatory Commission.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

Sunshine Act; Meetings

DATES: Weeks of April 25, May 2, 9, 16, 23, 30, 2005.

PLACE: Commissioner's Conference Room, 11555 Rockville Pike, Rockville, Maryland.

STATUS: Public and Closed.

MATTERS TO BE CONSIDERED:

Week of April 25, 2005

Tuesday, April 26, 2005

9:30 a.m.

Briefing on Grid Stability and Offsite Power Issues (Public Meeting). (Contact: John Lamb, (301) 415-1446).

This meeting will be Web cast live at the Web address—<http://www.nrc.gov>.

Week of May 2, 2005—Tentative

There are no meetings scheduled for the Week of May 2, 2005.

Week of May 9, 2005—Tentative

Wednesday, May 11, 2005

10:30 a.m.

All Employees Meeting (Public Meeting).

1:30 p.m.

All Employees Meeting (Public Meeting).

Week of May 16, 2005—Tentative

There are no meetings scheduled for the Week of May 16, 2005.

Week of May 23, 2005—Tentative

Monday, May 23, 2005

1:30 p.m.

Discussion of Security Issues (Closed—Ex. 1).

Wednesday, May 25, 2005

9:30 a.m.

Briefing on Results of the Agency Action Review Meeting (Public Meeting). (Contact: Lois James, (301) 415-1112).

This meeting will be Web cast live at the Web address—<http://www.nrc.gov>.

1:30 p.m.

Briefing on Threat Environment Assessment (Closed—Ex.1).

Week of May 30, 2005—Tentative*Wednesday, June 1, 2005*

9:30 a.m.

Discussion of Security Issues
(Closed—Ex. 1).

Thursday, June 2, 2005

9:30 a.m.

Briefing on Office of International Programs (OIP) Programs, Performance, and Plans (Public Meeting). (Contact: Margie Doane, (301) 415-2344).

BILLING CODE 7590-01-M

POSTAL SERVICE**Customized Postage**

AGENCY: Postal Service.

ACTION: Notice of authorization of market test for Customized Postage.

SUMMARY: The Postal Service™ provides notice of its intention to resume testing of the concept of Customized Postage for a period of one year commencing 20 calendar days from the date of publication of this notice in the **Federal Register**. PC Postage® is a method of providing evidence of prepayment of United States postage using a personal computer and printer and Internet access to an authorized PC Postage provider infrastructure approved by the Postal Service under 39 CFR part 501. Like postage meters, PC Postage services facilitate customer access to postage payment and use of the mail. PC Postage and postage meter products that print digitally generated barcode indicia contain human readable and machine readable elements that facilitate mail processing and counterfeit detection due to identification enabling characteristics. The typical indicia design consists of two elements: a postage block and a distinctly separate block typically called an “ad plate.” The historical use of ad plates consists of printed advertising messages authorized, enabled, and controlled by a Postal Service approved postage meter or PC Postage provider. Customized Postage differs from conventional PC Postage in two respects: First, it utilizes the “ad plate” area to print a digital, graphic image. The image may be one selected from a “library” of images provided by the authorized PC Postage provider or a customer supplied image that meets acceptance criteria established by the PC Postage provider; and, second, instead of the customer printing the selected image on a personal computer the images are printed by the Customized Postage provider under controlled conditions and the finished product is mailed to the customer. With respect to postage meter ad plates the Postal Service will require evaluation and approval of any process established by an authorized provider which results in the printing of a graphic “ad plate.”

DATES: This notice is effective April 27, 2005.

FOR FURTHER INFORMATION CONTACT:

Manager of Postage Technology Management, at 703-292-3691 or by fax at 703-292-4073.

SUPPLEMENTARY INFORMATION: In July 2004, the Postal Service authorized a limited market test of the first exemplar

of Customized Postage. The test was concluded on September 30, 2004.

The Postal Service is interested in obtaining additional knowledge regarding the market for Customized Postage, and, therefore, is authorizing an additional market test of Customized Postage concepts. By this notice, the Postal Service invites interested parties to submit proposed concepts for consideration.

While each concept will be evaluated on its own merits, particular conditions may be required and agreed to by the Postal Service and the Customized Postage provider regarding the testing of that concept. The following conditions will be applied in common to all concepts:

1. The provider must be an authorized PC Postage provider, authorized postage meter manufacturer or distributor, or a company affiliated with an authorized postage provider under conditions respecting postage revenue security approved by the Postal Service in accordance with 39 CFR part 501.1 and subject to all procedures and regulations set forth throughout 39 CFR Chapter 501.

2. The Customized Postage indicia and other printed matter must meet all Postal Service requirements respecting placement on a mail piece, readability, avoidance of interference with and facilitation of mail processing, and identification of fraudulent indicia, as well as all Postal Service regulations pertaining to PC Postage products and services.

3. The provider must maintain an image control process which prevents the distribution of images that could harm the public image of the Postal Service in accordance with 39 CFR 501.6(g) and 501.23(d) and any subsequent incorporation of requirements specific to the evolving concept of Customized Postage.

4. Images which consist of notices or advertisements may not be included in Customized Postage produced during the test.

5. The test will be limited to full rate First-Class Mail®, Priority Mail® and Express Mail® services only.

6. The provider must agree that it has obtained all intellectual property licenses necessary to provide the approved service and that it will reimburse the Postal Service for any costs and damages the Postal Service may incur as a result of the provider's failure to honor this representation.

7. The provider must agree that the Postal Service has not exercised 28 U.S.C. 1498 with respect to the approved Customized Postage product.
