BILLING CODE 4210–29–P

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[MT–050–1610–DQ–018E]

Notice of Availability of the Proposed Resource Management Plan and Final Environmental Impact Statement (PRMP/FEIS) for the Dillon Field Office, Montana

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of availability.

SUMMARY: Under the authority of the Federal Land Policy and Management Act (FLPMA) of 1976 and in accordance with the National Environmental Policy Act (NEPA) of 1969, the Bureau of Land Management (BLM) has prepared a Proposed Resource Management Plan and Final Environmental Impact Statement (PRMP/FEIS) for public lands and resources administered by the BLM's Dillon Field Office. The PRMP/FEIS provides direction and guidance for the management of approximately

900,000 acres of public land and 1.3 million acres of Federal mineral estate located in Beaverhead and Madison Counties in southwestern Montana and replaces the Dillon Management Framework Plan approved in September 1979.

DATES: BLM Planning Regulations (43 CFR 1610.5-2) state that any person who participated in the planning process, and has an interest that may be adversely affected, may protest. The protest must be filed within 30 days of the date that the Environmental Protection Agency publishes this notice in the **Federal Register**. Instructions for filing a protest are described in the "Dear Reader" letter in the PRMP/FEIS and are also included in the

SUPPLEMENTARY INFORMATION section of this notice. The date ending the protest period will be announced through public notices, media news releases, newsletter mailings, and on the Dillon RMP Web site at <http://www.mt.blm.gov/dfo/rmp> after publication of the Notice of Availability by the Environmental Protection Agency. No extensions will be granted.

ADDRESSES: Documents pertinent to the PRMP/FEIS will be available for public inspection at the Dillon Field Office, 1005 Selway Drive, Dillon, Montana during regular business hours, 7:45 a.m. to 4:30 p.m., Monday through Friday, except holidays. Interested persons may also review the PRMP/FEIS on the Internet at <http://www.mt.blm.gov/dfo/rmp> and at locations in and near the planning area as detailed in the **SUPPLEMENTARY INFORMATION** section.

Protests must be submitted in writing and sent by regular mail to: Director (210), Bureau of Land Management, Attention: Brenda Williams, P.O. Box 66538, Washington, DC 20035, or by overnight mail (*i.e.*, Federal Express) to: Director (210), Bureau of Land Management, Attention: Brenda Williams, 1620 L Street, NW., Suite 1075, Washington, DC 20036. See the **SUPPLEMENTARY INFORMATION** section for additional information on filing protests.

FOR FURTHER INFORMATION CONTACT: Renee Johnson, RMP Project Manager, 1005 Selway Drive, Dillon, Montana, 59725, telephone (406-683-8016), fax (406-683-2970), or e-mail (MT_Dillon_RMP@blm.gov). Do not send protests to these addresses—see the **SUPPLEMENTARY INFORMATION** section for instructions on submitting a protest.

SUPPLEMENTARY INFORMATION: The Dillon Field Office planning area is located in the southwestern portion of Montana in Beaverhead and Madison Counties. The area addressed in the plan contains

901,226 acres of public surface estate and 1,354,710 acres of Federal mineral estate administered by the BLM Dillon Field Office. The PRMP/FEIS focuses on the principles of multiple use and sustained yield as prescribed by Section 202 of the FLPMA. Beaverhead and Madison Counties participated in development of the plan as cooperating agencies with special expertise.

The Draft Resource Management Plan and Environmental Impact Statement (DRMP/EIS) made available for review on April 9, 2004, addressed four alternatives: Alternative A (No Action/Continuation of Current Management), Alternative B (Agency Preferred), and two other alternatives (Alternatives C and D) that provide for variable levels of resource protection, commodity production, and land and resource allocations and uses. These alternatives were developed based on extensive public input and internal BLM discussions. The public involvement and collaboration process implemented for this planning effort began with a situation assessment conducted prior to scoping to identify public involvement strategies, and continued with five open houses in September and October 2001, an Information Fair in April 2002 to discuss and gather data to be used in the plan, release of reports on Wild and Scenic River and Area of Critical Environmental Concern (ACEC) findings in 2002 and 2003, respectively, release of an RMP Digest document in January 2003 describing the current situation followed by nine alternative development workshops in February 2003, incorporation of recommendations from three Western Montana RAC subgroups, five open houses in May 2004 after release of the DRMP/EIS, two oral comment meetings, and additional RAC review.

The major issues addressed in the alternatives include upland and riparian management, forest and woodland management, noxious weeds, sage grouse and westslope cutthroat trout conservation, commercial uses (including livestock grazing, mineral development, oil and gas leasing, right-of-ways and communication use areas), Areas of Critical Environmental Concern (ACECs), Wild and Scenic Rivers, and travel management.

Adjustments and clarifications have been made to Alternative B, the Preferred Alternative in the DRMP/EIS, after careful consideration of both public and internal comments received on the draft. As modified, Alternative B is now the Proposed Plan as presented in the PRMP/FEIS, providing a balance of resource uses and protections. These adjustments did not result in any

significant change to the plan outside the range of alternatives detailed in the draft. The Proposed Plan will help BLM meet its mandate of multiple use and sustained yield, and recommends the designation of eight new ACECs. Restrictions on uses or activities in ACECs will only occur to the degree necessary to prevent degradation of relevant and important values for which an area is designated.

Documents pertinent to the PRMP/FEIS are available for public inspection at the Dillon Field Office, 1005 Selway Drive, Dillon, Montana during regular business hours, 7:45 a.m. to 4:30 p.m., Monday through Friday, except holidays. Copies of the PRMP/FEIS have been sent to individuals, agencies, and groups as requested or as required by regulation or policy. Interested persons may also view the PRMP/FEIS on the Internet at <http://www.mt.blm.gov/dfo/rmp> or at one of the following locations in and near the planning area:

Beaverhead County Courthouse,
Commissioner's Office, Dillon

BLM Butte Field Office
BLM Dillon Field Office
BLM Ennis Field Station
BLM Missoula Field Office
Bozeman Public Library
Dillon Public Library
Ennis Public Library
Lima Town Hall

Madison County Courthouse,
Commissioner's Office, Virginia City
Red Rocks Refuge, Lakeview
Sheridan Forest Service Office
Twin Bridges Public Library
Whitehall Public Library
Wisdom Forest Service Office
Wise River Forest Service Office

The resource management planning process provides an opportunity for public, administrative review of proposed land use plan decisions contained in the PRMP/FEIS during a 30-day protest period. Any person who participated in the planning process for this PRMP/FEIS that has an interest which is or may be adversely affected may protest approval of the land use plan decisions contained within the PRMP/FEIS during this 30-day period. Instructions for filing a protest with the Director of the BLM regarding the PRMP/FEIS may be found at 43 CFR 1610.5. A protest may only raise those issues that were submitted for the record during the planning process. E-mail and faxed protests will not be accepted as valid protests unless the protesting party also provides the original letter by either regular or overnight mail postmarked by the close of the protest period. Under these conditions, BLM will consider the e-

mail or faxed protest as an advance copy and it will receive full consideration. If you wish to provide BLM with such advance notification, please direct faxed protests to the attention of the BLM protest coordinator at 202-452-5112 and e-mails to Brenda_Hudgens-Williams@blm.gov. Please direct the follow-up letter to the appropriate address provided below. To be considered complete, your protest must contain (at a minimum) the following information:

(1) Name, mailing address, telephone number and the affected interest of the person filing the protest(s);

(2) A statement of the issue or issues being protested;

(3) A statement of the part or parts of the proposed plan being protested. To the extent possible, reference specific pages, paragraphs, and sections of the document;

(4) A copy of all documents addressing the issue or issues that were submitted during the planning process or an indication of the date the issue or issues were discussed with the BLM for the record;

(5) A concise statement explaining why the proposed decision is believed to be incorrect. This is a critical part of your protest. Document all relevant facts, as much as possible. A protest merely expressing disagreement with the State Director's proposed decision without providing any supporting data will not be considered a valid protest. All protests must be in writing and mailed to the following address: Regular Mail: Director (210), Bureau of Land Management, Attn: Brenda Williams, P.O. Box 66538, Washington DC, 20035. Overnight Mail: Director (210), Bureau of Land Management, Attn: Brenda Williams, 1620 L Street, NW., Suite 1075, Washington, DC 20036. To be considered timely, your protest must be postmarked no later than the last day of the protest period. The date ending the protest period will be announced through public notices, media news releases, newsletter mailings, and on the Dillon RMP Web site at <http://www.mt.blm.gov/dfo/rmp> after publication of the Notice of Availability by the Environmental Protection Agency. No extensions will be granted. Though not a requirement, we suggest you send your protest by certified mail, return receipt requested.

The Director will promptly render a decision on the protest. This decision will be in writing and will be sent to the protesting party by certified mail, return receipt requested. The decision of the Director shall be the final decision of the Department of the Interior. An Approved Plan/Record of Decision will

be made available to the public following the resolution of any protests. Approval will be withheld on any portion of the PRMP/FEIS under protest until final action has been completed on such protest.

Please note that protests and comments, including names and street addresses, are available for public review and/or release under the Freedom of Information Act (FOIA). Individual respondents may request confidentiality. Respondents who wish to withhold name and/or street address from public review or from disclosure under FOIA must state this prominently at the beginning of the written comment. Such requests will be honored to the extent allowed by law. All submissions from organizations or businesses, and from individuals identifying themselves as representatives or official organizations or business, will be made available for public inspection in their entirety.

Dated: January 21, 2005.

Martin C. Ott,

State Director.

BILLING CODE 4310--SS-P

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[AK-910-02-1410-PG]

Notice of Availability of the Draft East Alaska Resource Management Plan and Environmental Impact Statement

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of availability.

SUMMARY: In accordance with the National Environmental Policy Act (NEPA), the Federal Land Policy and Management Act (FLPMA), and Bureau of Land Management (BLM) management policies, a Draft East Alaska Resource Management Plan and Environmental Impact Statement (Draft EARMPP/EIS) has been prepared for public lands and resources administered by the Bureau of Land Management's Glennallen Field Office. The public is invited to review and comment on the range and adequacy of the draft alternatives and associated environmental effects. For comments to be most helpful, they should relate to specific concerns or conflicts that are within the legal responsibilities of the BLM and can be resolved in this planning process. The Draft EARMPP/EIS will provide the management guidance for resource decisions on 7.1 million

acres of BLM-administered lands in East Alaska. The EARMPP/EIS will replace the Southcentral Management Framework Plan approved in 1980.

ADDRESSES: Written comments should be addressed or hand delivered to the BLM Glennallen Field Office, EARMPP, P.O. Box 147, Mile 186.5 Glenn Highway, Glennallen, AK 99588. Comments can also be sent via e-mail to ak_earmpp@ak.blm.gov or can be submitted at the project Web site: <http://www.glennallen.ak.blm.gov/landplan/index.html>. The Draft EARMPP/EIS is also available for download on the project Web site. To request a CD or hard copy of the document or to be included on the mailing list, contact Tammy Larzelere, tammy_larzelere@ak.blm.gov, or via mail/phone at the above address. Comments, including names and street addresses of respondents, will be available to the Glennallen Field Office during regular business hours 7:30 a.m. to 4:30 p.m., Monday through Friday, except holidays, and may be published as part of the Proposed Resource Management Plan/Final Environmental Impact Statement. Individual respondents may request confidentiality. If you wish to withhold your name or street address from public review or from disclosure under the Freedom of Information Act, you must state this prominently at the beginning of your written comments. Such requests will be honored to the extent allowed by the law. All submissions from organizations and business, and from individuals identifying themselves as representatives or officials or organizations or businesses, will be available for public inspection in their entirety. Section 810 of the Alaska National Lands Conservation Act requires the BLM to evaluate the effects of the alternative plans presented in this RMP/EIS on subsistence activities in the planning area, and to hold public hearings if it finds that any alternative might significantly restrict subsistence activities. Appendix V of the document indicates that Alternative B may significantly restrict subsistence; therefore, the BLM is holding a public hearing in conjunction with the public meetings discussed below.

DATES: Comments on the Draft EARMPP/EIS will be accepted for 90 days following the date the Environmental Protection Agency publishes this Notice of Availability in the **Federal Register**. Comments on the Draft EARMPP/EIS must be received on or before the end of the comment period at one of the addresses listed above. Public meetings will be held at Fairbanks, Glennallen,
