**SUPPLEMENTARY INFORMATION:****I. Abstract**

The National Marine Fisheries Service (NMFS) Northeast Region manages the Atlantic surf clam and ocean quahog fisheries of the Exclusive Economic Zone (EEZ) of the Northeastern United States through the Atlantic Surf Clam and Ocean Quahog Fishery Management Plan (FMP). The Mid-Atlantic Fishery Management Council prepared the FMP pursuant to the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson Act). The regulations implementing the FMP are specified under 50 CFR part 648.70.

The recordkeeping and reporting requirements at § 648.70 and § 648.74 form the basis for this collection of information. NMFS Northeast Region requests information from Atlantic surf clam and ocean quahog individual transferable quota (ITQ) allocation holders in order to process and track requests from the allocation holders to transfer quota allocation to another entity. NMFS Northeast Region also requests information from Atlantic surf clam and ocean quahog permit holders in order to track and properly account for Atlantic surf clam and ocean quahog harvest that is shucked at sea. Because there is not a standard conversion factor for estimating unshucked product from shucked product, NMFS requires vessels that choose to shuck product at sea to carry on board the vessel a NMFS approved observer to certify the amount of Atlantic surf clam and ocean quahog harvested. This information, upon receipt, results in an increasingly more efficient and accurate database for management and monitoring of fisheries of the Northeastern U.S. EEZ.
