Synopsis

On April 25, 2005, pursuant to 47 CFR 64.604(c)(5)(iii)(H), the National Exchange Carrier Association (NECA), the Interstate Telecommunications Relay Services (TRS) Fund Administrator, submitted its annual payment formula and fund size estimate for the Interstate TRS Fund for the period July 1, 2005 through June 30, 2006. See *Telecommunications Services for Individuals with Hearing and Speech Disabilities, and the Americans with Disabilities Act of 1990*, Interstate Telecommunications Relay Services Fund Payment Formula and Fund Size Estimate (filed April 25, 2005) (2005 TRS Rate Filing).

NECA proposes a carrier contribution factor of 0.00528, and a fund size requirement of \$413.3 million. NECA proposes per completed minute compensation rates of: \$1.312 for traditional TRS and for Internet Protocol (IP) Relay (compared to \$1.398 for the 2004-2005 fund year); \$1.579 for Speech-to-Speech (STS) (compared to \$1.596 for the 2004-2005 fund year); and \$5.924 for Video Relay Service (VRS) (compared to \$7.596 for the 2004-2005 fund year). In the 2004 TRS Report and Order and FNPRM, the Commission sought comment on whether the Commission should require the TRS Fund administrator to determine and propose separate compensation rates for IP Relay and traditional TRS. See *Telecommunications Relay Services and Speech-to-Speech Services for Individuals with Hearing and Speech Disabilities*, Report and Order, Order on Reconsideration, and Further Notice of

Proposed Rulemaking, (2004 TRS Report and Order and FNPRM), CC Docket Nos. 90-571 and 98-67, CG Docket No. 03-123, 19 FCC Rcd 12475, pages 12564-12565, paragraph 233, June 30, 2004; published at 69 FR 53346 and 69 FR 53382, September 1, 2004.

NECA indicates that if the Commission did require separate compensation rates, NECA would propose an IP Relay rate of \$1.278, and a traditional TRS rate of \$1.440. We seek further comment on whether the Commission should adopt separate compensation rates for IP Relay and traditional TRS for the 2005-2006 fund year.

Synopsis

1. The Commission has recently received a large number of requests that it consider whether the use of "video news releases" or "VNRs," by broadcast licensees, cable operators, and others complies with the Commission's sponsorship identification rules. (See, e.g., Letter from Josh Silver, Executive Director, Free Press, *et al.*, to Honorable Kevin Martin, Chairman, FCC *et al.* (March 21, 2005) (stating that the authors "are writing you today on behalf of nearly 40,000 Americans who have signed a petition urging the Federal Communications Commission to investigate all broadcasters who distribute government-sponsored news reports without properly identifying their source"); Letter from Honorable John F. Kerry, U.S. Senator, to Honorable Michael Powell, Chairman, FCC (March 15, 2005); Letter from Honorable Daniel Inouye, U.S. Senator, to Honorable Michael K. Powell, Chairman (March 14, 2005). Also, the Commission has received thousands of e-mails about this practice.) VNRs are essentially prepackaged news stories, that may use actors to play reporters and include suggested scripts to introduce the stories. (See, e.g., Joe Mandese, *The Art of Manufactured News*, Broadcasting and Cable, March 28, 2005, at 24; David Barstow and Robin Stein, *The Message Machine: How the Government Makes News; Under Bush, a New Age of Prepackaged News*, New York Times, March 13, 2005, at A1.) These practices allow such externally prepackaged news stories to be aired, without alteration, as broadcast or cable news. Some of the parties contacting the Commission have suggested that broadcast licensees and cable operators may have aired VNRs with news stories containing material paid for, prepared and/or provided to them by or on behalf of commercial, governmental and other entities without
