

nature of these trailing-gear interactions may result in serious injuries long after the whale is initially sighted. It is unclear at this point whether to classify these as serious injuries or not, but by including them in Table 1, the injuries are effectively tallied as a "take", which is more conservative than excluding them for lack of classification. The 1997 incident of a humpback whale swimming away with a salmon hook and many feet of monofilament falls in this category and is retained in Table 1.

Comment 29: The Commission suggested adding a figure showing population trend data of blue whales (Eastern North Pacific stock) to allow the reader to evaluate the apparent decline suggested under Current Population Trend.

Response: A figure showing line-transect abundance estimates from 1991–2001 in California waters has been added to this SAR to indicate trend.

Dated: June 14, 2005.

James H. Lecky,

*Director, Office of Protected Resources,
National Marine Fisheries Service.*

BILLING CODE 3510–22–S

DEPARTMENT OF DEFENSE

Office of the Secretary

Submission for OMB Review; Comment Request

ACTION: Notice.

The Department of Defense has submitted to OMB for clearance, the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

DATES: Consideration will be given to all comments received by July 20, 2005.

Title and OMB Number: Survey to Determine Economic Costs and Impact to Employers of Mobilized Reserve Component Members; OMB Control Number 0704–TBE.

Type of Request: New.

Number of Respondents: 2,745.

Responses per Respondent: 1.

Annual Responses: 1,699.

Average Burden per Response: .72.

Annual Burden Hours: 1,223.

Needs and Uses: As the duration and frequency of reliance on Reserve members increases, the number of employers operating with reduced work forces for longer periods is also increasing. Understanding how employer operations are impacted, the adjustments they make to sustain operations, and the cost to make these adjustments is the focus of this research. The self-administered survey will be mailed to a nationally representative sample of United States employers of Guard and Reserve members mobilized since 2002. Collected information will be used to identify unmet needs, to evaluate the economic effects of DoD policy on the civilian economy, and to guide development of or revisions to policy and program initiatives.

Affected Public: Business or other for-profit; not-for-profit institutions; State, local or tribal government.

Frequency: One Time.

Respondent's Obligation: Voluntary.

OMB Desk Officer: Mr. Lewis Oleinick.

Written comments and recommendations on the proposed information collection should be sent to Mr. Oleinick at the Office of Management and Budget, Desk Officer for DoD, Room 10236, New Executive Office Building, Washington, DC 20503.

DoD Clearance Officer: Ms. Patricia Toppings.

Written requests for copies of the information collection proposal should be sent to Ms. Toppings, WHS/ESD Information Management Division, 1225 South Clark Street, Suite 504, Arlington, VA 22202–4326.

Dated: June 7, 2005.

Patricia L. Toppings,

*Alternate OSD Federal Register Liaison
Officer, Department of Defense.*

as defined in Section 47(6) of the Arms Export Control Act.

POLICY JUSTIFICATION

Japan - SM-2 Block IIIB Standard Missiles

The Government of Japan has requested a possible sale for 40 SM-2 Block IIIB Tactical Standard missiles with MK 13 MOD 0 canisters; 24 SM-2 Block IIIB Telemetry Standard missiles with MK 13 MOD 0 canisters, AN/DKT-71A telemeters, and conversion kits; containers; spare and repair parts; supply support; U.S. Government and contractor technical assistance and other related elements of logistics support. The estimated cost is \$104 million.

Japan is one of the major political and economic powers in East Asia and the Western Pacific and a key ally of the United States in ensuring the peace and stability of this region. The U.S. Government shares bases and facilities in Japan. It is vital to the U.S. national interest to assist Japan to develop and maintain a strong and ready self-defense capability, which will contribute to an acceptable military balance in the area. This proposed sale is consistent with these U.S. objectives and with the 1960 Treaty of Mutual Cooperation and Security.

The SM-2 missiles will be used on ships of the Japan Maritime Self Defense Force fleet and will provide enhanced capabilities in providing defense of critical sea-lanes of communication. Japan has already integrated the SM-2 Block IIIB in to ship combat systems. It maintains two Intermediate-Level Maintenance Depots capable of maintaining and supporting the SM-2 and is upgrading these facilities to maintain and support the newest SM variants. Japan will have no difficulty absorbing these additional missiles.

The proposed sale of this equipment and support will not affect the basic military balance in the region.

The principle contractors will be: Raytheon Missile Systems Company in Tucson, Arizona; Raytheon Company of Camden, Arkansas; United Defense, Limited Partnership (UDLP) of Minneapolis, Minnesota; and UDLP of Aberdeen, South Dakota. There are no offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Japan.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 05-27**Notice of Proposed Issuance of Letter of Offer
Pursuant to Section 36(b)(1)
of the Arms Export Control Act****Annex
Item No. vii****(vii) Sensitivity of Technology:**

1. The possible sale of SM-2 Block IIIB Standard missiles will result in the transfer of sensitive technology and information as well as classified and unclassified defense equipment and technical data. The Standard missile hardware guidance section and target detection device are classified Secret. The warhead, rocket motor, steering control section, safe and arming device, auto-pilot battery unit, and telemeter are classified Confidential. Certain operating frequencies and performance characteristics are classified Secret. Confidential documentation to be provided includes: parametric documents, general performance data, firing guidance, kinematics information, Intermediate Maintenance Activity (IMA)-level maintenance, and flight analysis procedures.

2. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures which might reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.
