SUPPLEMENTARY INFORMATION: Windland, Inc., in partnership with Shell Wind Energy, Inc., a wholly owned subsidiary of the Royal Dutch/Shell Group of Companies, is proposing to construct, operate and maintain a wind-powered electric generation facility on the ridgeline of Cotterel Mountain, near the towns of Albion, Malta, and Burley, Idaho. The DEIS/Amendment analyzes and discloses the effects of four alternatives, including the Proposed

Action and No Action. Alternative A, the No Action Alternative, reflects existing direction in the Cassia RMP. Alternative B is the proponent's proposed action, as submitted in their right-of-way application. Alternative C, the agency preferred alternative, is a modification of the proposed action that includes fewer but larger-output wind turbines, alternative access, alternative transmission line locations, and alternative turbine types. Alternative D is a modified version of Alternative C with a reduced number of wind turbines.

The proposed action is not consistent with the Cassia RMP, which does not allow for the granting of rights-of-ways in the proposed project area. Therefore, the proposed plan amendment would allow for the decision maker to grant a right-of-way should that person decide to do so.

Dated: May 5, 2005.

Wendy Reynolds,

Burley Field Office Manager, Bureau of Land Management.
