DEPARTMENT OF HOMELAND SECURITY

Federal Emergency Management Agency

44 CFR Part 67

Final Flood Elevation Determinations

AGENCY: Federal Emergency Management Agency, Emergency Preparedness and Response Directorate, Department of Homeland Security.

ACTION: Final rule.

SUMMARY: Base (1% annual-chance) Flood Elevations and modified Base Flood Elevations (BFEs) are made final for the communities listed below. The BFEs and modified BFEs are the basis for the floodplain management measures that each community is required either to adopt or to show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

DATES: *Effective Date:* The date of issuance of the Flood Insurance Rate Map (FIRM) showing BFEs and modified BFEs for each community. This date may be obtained by contacting the office where the FIRM is available for inspection as indicated in the table below.

ADDRESSES: The final base flood elevations for each community are available for inspection at the office of

the Chief Executive Officer of each community. The respective addresses are listed in the table below.

FOR FURTHER INFORMATION CONTACT:

Doug Bellomo, P.E., Hazard Identification Section, Emergency Preparedness and Response Directorate, Federal Emergency Management Agency, 500 C Street, SW., Washington, DC 20472, (202) 646-2903.

SUPPLEMENTARY INFORMATION: The Federal Emergency Management Agency makes the final determinations listed below for the BFEs and modified BFEs for each community listed. These modified elevations have been published in newspapers of local circulation and ninety (90) days have elapsed since that publication. The Mitigation Division Director of the Emergency Preparedness and Response Directorate has resolved any appeals resulting from this notification.

This final rule is issued in accordance with Section 110 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4105, and 44 CFR Part 67.

The Federal Emergency Management Agency has developed criteria for floodplain management in floodprone areas in accordance with 44 CFR Part 60.

Interested lessees and owners of real property are encouraged to review the proof Flood Insurance Study and FIRM available at the address cited below for each community.

The BFEs and modified BFEs are made final in the communities listed below. Elevations at selected locations in each community are shown.

National Environmental Policy Act. This rule is categorically excluded from the requirements of 44 CFR Part 10, Environmental Consideration. No environmental impact assessment has been prepared.

Regulatory Flexibility Act. The Mitigation Division Director of the

Emergency Preparedness and Response Directorate certifies that this rule is exempt from the requirements of the Regulatory Flexibility Act because modified base flood elevations are required by the Flood Disaster Protection Act of 1973, 42 U.S.C. 4105, and are required to establish and maintain community eligibility in the NFIP. No regulatory flexibility analysis has been prepared.

Regulatory Classification. This final rule is not a significant regulatory action under the criteria of Section 3(f) of Executive Order 12866 of September 30, 1993, Regulatory Planning and Review, 58 FR 51735.

Executive Order 12612, Federalism. This rule involves no policies that have federalism implications under Executive Order 12612, Federalism, dated October 26, 1987.

Executive Order 12778, Civil Justice Reform. This rule meets the applicable standards of Section 2(b)(2) of Executive Order 12778.

50 CFR Part 648

[Docket No. 041221358-5065-02; I.D. 062205A]

Fisheries of the Northeastern United States; Atlantic Mackerel, Squid, and Butterfish Fisheries; Adjustment of the Quarter III Quota Allocation for Loligo Squid

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and

Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; quota adjustment.

SUMMARY: NMFS announces that it has adjusted the commercial quota allocation for the Quarter III fishery for *Loligo* squid in the Exclusive Economic Zone (EEZ). The regulations for the Atlantic mackerel, squid and butterfish fisheries require this adjustment to be made if landings in the Quarter I fishery exceed the commercial quota allocated to that period. This action is necessary to prevent the fishery from exceeding the annual commercial quota and to allow for effective management of this stock.

DATES: Effective 0001 hours, July 1, 2005, through 2400 hours, September 30, 2005.

FOR FURTHER INFORMATION CONTACT: Eric Dolin, Fishery Policy Analyst, 978-281-9259, Fax 978-281-9135.

SUPPLEMENTARY INFORMATION: Regulations governing the *Loligo* squid

fishery are found at 50 CFR part 648. The regulations require annual specifications for maximum sustainable yield, initial optimum yield, allowable biological catch, domestic annual harvest (DAH), domestic annual processing, joint venture processing and total allowable levels of foreign fishing for the species managed under the Atlantic Mackerel, Squid, and Butterfish Fishery Management Plan. The procedures for setting the annual initial specifications are described in § 648.21.

The final rule for the 2005 annual specifications was published on March 21, 2005 (70 FR 13406). After allocating 255.1 mt (562,399 lb) for research set-aside, the remaining 2005 annual quota for *Loligo* squid of 16,744.9 mt (36,916,191 lb) was allocated to quarters, as shown below.

TABLE. 1. INITIAL *Loligo* SQUID QUARTERLY ALLOCATIONS*

Quarter	Percent	Metric Tons	Pounds
I (Jan-Mar)	33.23	5,564.3	12,267,184
II(Apr-Jun)	17.61	2,948.8	6,500,992
III(Jul-Sep)	17.3	2,896.9	6,386,572
IV(Oct-Dec)	31.86	5,334.9	11,761,443
Total	100	16,744.9	36,916,191

*Quarterly allocations after 255.1 mt research set-aside deduction.

Section 648.21 requires NMFS to determine if landings in Quarter I result in a quota overage, and to deduct any overage from the quota allocation for Quarter III. The Quarter I quota allocation was 5,564.3 mt (12,267,184 lb). Based on dealer reports and other available information, NMFS has determined that landings in Quarter I were 7,659.8 mt (16,887,113 lb). The Quarter III allocation has been reduced by 2,095.5 mt (4,619,929 lb), resulting in an adjusted allocation of 801.3 mt (1,766,643 lb).

Classification

This action is required by 50 CFR part 648 and is exempt from review under Executive Order 12866.

Authority: 16 U.S.C. 1801 *et seq.*

Fisheries of the Northeastern United States; Tilefish Fishery; Quota Harvested for Full-time Tier 2 Category

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; closure.

SUMMARY: NMFS announces that the percentage of the tilefish annual total allowable landings (TAL) available to the Full-time Tier 2 permit category for the 2005 fishing year has been harvested. In response, commercial vessels fishing under the Full-time Tier 2 tilefish category may not harvest tilefish from within the Golden Tilefish Management Unit for the remainder of

the 2005 fishing year (through October 31, 2005). Regulations governing the tilefish fishery require publication of this notification to advise the public of this closure.

DATES: Effective 0001 hrs local time, June 28, 2005, through 2400 hrs local time, October 31, 2005.

FOR FURTHER INFORMATION CONTACT: Brian R. Hooker, Fishery Policy Analyst, at (978) 281-9220.

SUPPLEMENTARY INFORMATION:

Regulations governing the tilefish fishery are found at 50 CFR part 648. The regulations require annual specification of a TAL for federally permitted tilefish vessels harvesting tilefish from within the Golden Tilefish Management Unit. The Golden Tilefish Management Unit is defined as an area of the Atlantic Ocean from the latitude of the VA/NC border (36°33.36' N. lat.), extending eastward from the shore to the outer boundary of the exclusive economic zone, and northward to the U.S./Canada border. After 5 percent of the TAL is deducted to reflect landings by vessels issued an open-access
