#### Appalachian Power Company; Notice of Availability of Environmental Assessment

July 13, 2005.

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission) regulations, 18 CFR part 380 (Order No. 486, 52 FR 47897), the Office of Energy Projects' staff has prepared an Environmental Assessment (EA) for Appalachian Power Company's application requesting Commission approval of a shoreline management

plan for the Smith Mountain Pumped Storage Project, FERC No. 2210. This project is located on the Roanoke River, in Bedford, Pittsylvania, Franklin, and Campbell Counties, Virginia.

The EA contains the staff's analysis of the potential environmental impacts of the proposal and concludes that approval of the proposal would not constitute a major Federal action significantly affecting the quality of the human environment.

A copy of the EA is attached to a Commission Order entitled "Order Modifying and Approving Shoreline Management Plan" issued on July 5, 2005 (See 112 FERC ¶ 61,026) which is available for review at the Commission in the Public Reference Room, or it may be viewed on the Commission's Web site at <http://www.ferc.gov> using the eLibrary link. In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission) regulations, 18 CFR part 380 (Order No. 486, 52 FR 47897), the Office of Energy Projects' staff has reviewed the application for new license for the Eel Weir Project, located at the outlet of Sebago Lake, and has prepared a draft Environmental Assessment (EA) for the project. In the draft EA, Commission staff analyzed the potential environmental effects of relicensing the project and concludes that issuing a new license for the project, with appropriate environmental measures, would not constitute a major Federal action that would significantly affect the quality of the human environment.
