# Marine Mammals; Permit No. 699–1720–01

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice; receipt of application for amendment.

**SUMMARY:** Notice is hereby given that Dr. Kathryn A. Ono, Associate Professor, Department of Biological Sciences, University of New England, 11 Hills Beach Road, Biddeford, ME, 04005, has

requested an amendment to scientific research Permit No. 699–1720–01.

**DATES:** Written, telefaxed, or e-mail comments must be received on or before August 25, 2005.

**ADDRESSES:** The amendment request and related documents are available for review upon written request or by appointment in the following office(s):

Permits, Conservation and Education Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Room 13705, Silver Spring, MD 20910; phone (301)713–2289; fax (301)427–2521; and

Assistant Regional Administrator for Protected Resources, Northeast Region, NMFS, One Blackburn Drive, Gloucester, MA 01930–2298; phone (978)281–9328; fax (987)281–9394.

Written comments or requests for a public hearing on this request should be submitted to the Chief, Permits, Conservation and Education Division, F/PR1, Office of Protected Resources, NMFS, 1315 East-West Highway, Room 13705, Silver Spring, MD 20910. Those individuals requesting a hearing should set forth the specific reasons why a hearing on this particular amendment request would be appropriate.

Comments may also be submitted by facsimile at (301)427–2521, provided the facsimile is confirmed by hard copy

submitted by mail and postmarked no later than the closing date of the comment period.

Comments may also be submitted by e-mail. The mailbox address for providing email comments is *NMFS.Pr1Comments@noaa.gov*. Include in the subject line of the e-mail comment the following document identifier: File No. 699–1720–01.

# **FOR FURTHER INFORMATION CONTACT:** Ruth Johnson or Tammy Adams, (301)713–2289.

**SUPPLEMENTARY INFORMATION:** The subject amendment to Permit No. 699–1720–01, issued on July 23, 2003 (68 FR 59163) is requested under the authority of the Marine Mammal Protection Act of 1972, as amended (16 U.S.C. 1361 *et seq.*), and the Regulations Governing the Taking and Importing of Marine Mammals (50 CFR part 216).

Permit No. 699–1720–01 authorizes the permit holder to take harbor seals (*Phoca vitulina concolor*) annually by capture, physical restraint, morphometric measurements, placement of flipper tags, blood sampling, fecal sampling, skin biopsy, attachment of satellite tags, incidental harassment, and accidental mortality. Incidental harassment and accidental capture of small numbers of gray seals

(Halichoerus grypus), harp seals (Phoca groenlandica), and hooded seals (Cystophora cristata) are also authorized.

The permit holder now requests authorization to extend the sampling location authorized under Permit No. 699–1720–01 from the coast of Maine through to the Massachusetts/Rhode Island border.

In compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.), an initial determination has been made that the activity proposed is categorically excluded from the requirement to prepare an environmental assessment or environmental impact statement.

Concurrent with the publication of this notice in the **Federal Register**, NMFS is forwarding copies of this application to the Marine Mammal Commission and its Committee of Scientific Advisors.

Dated: July 20, 2005.

SUPPLEMENTARY INFORMATION: File No. 782-1768: On June 4, 2003, notice was published in the Federal Register (68 FR 33477) that a request for a scientific research permit to take Steller sea lions and other pinnipeds California and Oregon had been submitted by NMML (File No. 782–1702). The requested permit was issued on October 10, 2003 (68 FR 58663) under the authority of the Marine Mammal Protection Act of 1972, as amended (16 U.S.C. 1361 et seq.), the Regulations Governing the Taking and Importing of Marine Mammals (50 CFR part 216), the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531

et seq.), and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR parts 222–226). However, this permit did not include the requested capture, sampling, and marking of Steller sea lions in California and Oregon. A decision on these activities was deferred pending completion of the appropriate analyses under the ESA and the National Environmental Policy Act of 1969 (NEPA: 42 U.S.C. 4321 et seq.).

In compliance with NEPA, an environmental assessment was prepared analyzing the effects of the proposed permitted activities. After a Finding of No Significant Impact, the determination was made that it was not necessary to prepare an environmental impact statement. Subsequent to that analysis, a decision was made by the applicant and the NMFS to include the activities on Steller sea lions in California and Oregon proposed for File No. 782–1702 in a permit recently issued to NMML for range-wide studies of Steller sea lions, Permit No. 782-1768-00. Permit No. 782-1768-00 was issued on May 31, 2005 (70 FR 35065). The amendment to Permit No. 782-1768-00 now incorporates capture, blood and tissue sampling, hotbranding, flipper tagging, and attachment of scientific instruments to up to 12 Steller sea lions per year in California and Oregon to determine predation rates of individual sea lions on endangered salmonids, to perform disease screening and genetic analyses, and to document movements and migration rates of individuals.

Issuance of this amendment to Permit No. 782–1768–00, as required by the ESA, was based on a finding that such permit: (1) was applied for in good faith; (2) will not operate to the disadvantage of such endangered species; and (3) is consistent with the purposes and policies set forth in section 2 of the ESA.

File No. 486–1790: The subject permit is requested under the authority of the Marine Mammal Protection Act of 1972, as amended (MMPA; 16 U.S.C. 1361 *et seq.*) and the Regulations Governing the Taking and Importing of Marine Mammals (50 CFR part 216).

The applicant, Dr. Stewart, proposes to capture individuals of any age of the above mentioned pinniped species for continuation of studies begun in 1978 on the demography, physiological ecology, foraging ecology, and behavior of pinnipeds in California. Marine mammals would be captured by a variety of techniques; physically or chemically immobilized; have blood, skin, blubber, muscle, urine, feces, and
