[Docket No. NHTSA-2005-21930; Notice 1]

Cooper Tire & Rubber Company, Receipt of Petition for Decision of Inconsequential Noncompliance

Cooper Tire & Rubber Company (Cooper) has determined that certain tires it produced in 2005 do not comply with S4.3(e) of 49 CFR 571.109, Federal Motor Vehicle Safety Standard (FMVSS) No. 109, "New pneumatic tires." Cooper has filed an appropriate report pursuant to 49 CFR part 573, "Defect and Noncompliance Reports."

Pursuant to 49 U.S.C. 30118(d) and 30120(h), Cooper has petitioned for an exemption from the notification and remedy requirements of 49 U.S.C. chapter 301 on the basis that this noncompliance is inconsequential to motor vehicle safety.

This notice of receipt of Cooper's petition is published under 49 U.S.C. 30118 and 30120 and does not represent any agency decision or other exercise of judgment concerning the merits of the petition.

Cooper produced approximately 3,070 Cooper brand tires during the period from January 30, 2005 through May 21, 2005 that do not comply with FMVSS No. 109, S4.3(e). S4.3(e) of FMVSS No. 109 requires that "each tire shall have permanently molded into or onto both sidewalls * * * (e) Actual number of plies in the sidewall, and the actual number of plies in the tread area if different." The noncompliant tires were marked "tread 1 ply nylon + 2 ply steel + 1 ply polyester; sidewall 2 ply polyester." The correct marking should read "tread 1 ply nylon, 2 ply steel + 2 ply polyester; sidewall 2 ply polyester."

Cooper believes that the noncompliance is inconsequential to motor vehicle safety and that no corrective action is warranted. Cooper states that "the incorrect number of tread plies on each tire does not present a safety-related defect. The subject tires,

in fact, have 2 polyester tread plies." Cooper states that the tires comply with all other requirements of FMVSS No. 119.

Interested persons are invited to submit written data, views, and arguments on the petition described above. Comments must refer to the docket and notice number cited at the beginning of this notice and be submitted by any of the following methods. Cooper Tire & Rubber Company, Receipt of Petition for Decision of Inconsequential Noncompliance

Cooper Tire & Rubber Company (Cooper) has determined that the markings on certain tires that it produced in 2004 and 2005 do not comply with S4.3(a) of 49 CFR 571.109, Federal Motor Vehicle Safety Standard (FMVSS) No. 109, "New pneumatic tires." Cooper has filed an appropriate report pursuant to 49 CFR part 573, "Defect and Noncompliance Reports." Pursuant to 49 U.S.C. 30118(d) and 30120(h), Cooper has petitioned for an exemption from the notification and remedy requirements of 49 U.S.C. chapter 301 on the basis that this noncompliance is inconsequential to motor vehicle safety.

This notice of receipt of Cooper's petition is published under 49 U.S.C. 30118 and 30120 and does not represent any agency decision or other exercise of judgment concerning the merits of the petition.

Affected are a total of approximately 2,606 Cooper Discoverer AST II tires in the 265/70R16 size, produced between October 10, 2004 and April 16, 2005. S4.3, Labeling requirements, requires compliance with 49 CFR part 574.5, "Tire Identification and Record Keeping, Tire Identification Requirements." The size designation required by part 574.5 was incorrectly marked on the subject tires, which were molded with the letters "TY" as the second grouping of symbols in the tire identification number. The correct stamping should have been "C2."

Cooper believes that the noncompliance is inconsequential to motor vehicle safety and that no corrective action is warranted. Cooper states that the purpose of the tire identification number marking requirements is to facilitate the ability of the tire manufacturer to identify the tires in the event of a recall. Cooper asserts that the incorrect size designation in this case does not affect the ability to identify defective or nonconforming tires. Cooper points out that the tire size is correctly stamped on the sidewalls of the subject tires, and states that the tires comply with all other requirements of FMVSS No. 109 and 49 CFR 574.5.

Interested persons are invited to submit written data, views, and arguments on the petition described

above. Comments must refer to the docket and notice number cited at the beginning of this notice and be submitted by any of the following methods. Cooper Tire & Rubber Company, Receipt of Petition for Decision of Inconsequential Noncompliance

Cooper Tire & Rubber Company (Cooper) has determined that certain tires it manufactured during 2004 and 2005 do not comply with S6.5(f) of Federal Motor Vehicle Safety Standard (FMVSS) No. 119, "New pneumatic tires

for vehicles other than passenger cars." Cooper has filed an appropriate report pursuant to 49 CFR part 573, "Defect and Noncompliance Reports."

Pursuant to 49 U.S.C. 30118(d) and 30120(h), Cooper has petitioned for an exemption from the notification and remedy requirements of 49 U.S.C. chapter 301 on the basis that this noncompliance is inconsequential to motor vehicle safety.

This notice of receipt of Cooper's petition is published under 49 U.S.C. 30118 and 30120 and does not represent any agency decision or other exercise of judgment concerning the merits of the petition.

Cooper produced approximately 15,692 Cooper brand tires during the period from October 3, 2004 through April 9, 2005 that do not comply with FMVSS No. 119, S6.5(f). S6.5(f) of FMVSS No. 119 requires that each tire shall be marked with "[t]he actual number of plies * * * in the sidewall and, if different, in the tread area." The noncompliant tires were marked "tread 2 ply steel + 3 ply polyester; sidewall 3 ply polyester." The correct marking should read "tread 1 ply nylon, 2 ply steel + 3 ply polyester; sidewall 3 ply polyester."

Cooper believes that the noncompliance is inconsequential to motor vehicle safety and that no corrective action is warranted. Cooper states that "the incorrect number of tread plies on each tire does not present a safety-related defect. In addition to having the number of tread plies marked on the sidewall, the subject tires have an additional nylon tread ply." Cooper states that the tires comply with all other requirements of FMVSS No. 119.

Interested persons are invited to submit written data, views, and arguments on the petition described above.
