SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-52210; File No. SR-NASD-2004-089]

Self-Regulatory Organizations; National Association of Securities Dealers, Inc.; Order Granting Approval To Proposed Rule Change and Amendment No. 1 Thereto To Require Limit Order Protection and To Expand the Application of Manning Obligations to Exchange-Listed Securities

August 4, 2005.

On June 9, 2004, the National Association of Securities Dealers, Inc. ("NASD") filed with the Securities and Exchange Commission ("Commission"),

pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 ("Act")¹ and Rule 19b-4 thereunder,² a proposed rule change to require members to provide price improvement to customer limit orders under certain circumstances, and to expand the application of NASD IM-2110-2 ("Manning" obligations) to exchange-listed securities. The proposed rule change prohibits a member from trading for its own account in a Nasdaq or exchange-listed security at a price that is better than an unexecuted customer limit order in that security, unless the member immediately thereafter executes the customer limit order at the price at which it traded for its own account or at a better price.

On November 2, 2004, NASD filed Amendment No. 1 to the proposed rule change.³ The proposed rule change, as modified by Amendment No. 1, was published for notice and comment in the **Federal Register** on February 25, 2005.⁴ The Commission received no comments on the proposed rule change. This order approves the proposed rule change, as modified by Amendment No. 1.

The Commission finds that the proposed rule change, as amended, is consistent with the requirements of the Act and the rules and regulations thereunder applicable to a national securities association and, in particular, the requirements of section 15A of the Act⁵ and the rules and regulations thereunder. The Commission finds specifically that the proposed rule change is consistent with section 15A(b)(6),⁶ which requires, among other things, that NASD's rules be designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, and, in general, to protect investors and the public interest. The Commission believes that requiring price improvement for customer limit orders as detailed in the proposed rule change, and the expansion of the application of Manning obligations under NASD IM-2110-2 to include exchange-listed securities, will provide the opportunity for investors to receive better limit order executions, and thus enhance the overall integrity of the market.⁷

² 17 CFR 240.19b-4.

³ Amendment No. 1 replaced NASD's original proposed rule change in its entirety.

It is therefore ordered, pursuant to section 19(b)(2) of the Act⁸ that the proposed rule change (SR-NASD-2004-089) be, and it hereby is, approved, as amended.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.⁹

("Amendment No. 1"). In Amendment No. 1, the PCX revised the rule text to use terms consistent with PCX's current rules and made clarifying changes in the purpose and statutory basis sections.

⁴ See Partial Amendment dated August 1, 2005 ("Amendment No. 3"). In Amendment No. 3, the PCX made clarifying changes to the rule text and the purpose section.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The PCX is proposing to codify the "trade and ship" and "book and ship" concepts pursuant to the Intermarket Option Linkage Plan ("Plan"). The text of the proposed rule change is available on the PCX's Web site (<http://www.pacificex.com>), at the PCX's Office of the Secretary, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the PCX included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in item IV below. The PCX has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The purpose of the proposed rule change is to provide that: (i) A Participant Exchange may trade an order at a price that is one minimum quoting increment inferior to the National Best Bid or Offer ("NBBO") if a Linkage Order⁵ is transmitted to the NBBO market(s) to satisfy all interest at the NBBO price (this is the "trade and ship" concept); and (ii) a Participant Exchange may book an order that would lock another Participant Exchange if a Linkage Order is sent to such other Participant Exchange to satisfy all interest at the lock price (this is the "book and ship" concept). Under the trade and ship proposal, any execution received from the NBBO market must (pursuant to agency obligations) be reassigned to the customer order that is underlying the Linkage Order that was transmitted to "take out" the NBBO market. Below are examples illustrating the applications of these concepts:

Trade and Ship Example. Participant Exchange A is disseminating an offer of \$2.00 for 100 contracts. Participant Exchange B is disseminating the national best offer of \$1.95 for 10 contracts. No other market is at \$1.95. Participant Exchange A receives a 100-contract customer buy order to pay

\$2.00. Under this proposal, Participant Exchange A could execute 90 contracts (or 100 contracts) of the customer order at \$2.00 provided Participant Exchange A simultaneously transmits a 10-contract Principal Acting as Agent ("P/A")⁶ Order to Participant Exchange B to pay \$1.95. Assuming an execution is obtained from Participant Exchange B, the customer would receive the 10-contract fill at \$1.95 and 90 contracts at \$2.00 (if the customer order was originally filled in its entirety at \$2.00, an adjustment would be required to provide the customer with the \$1.95 price for 10 contracts reflecting the P/A Order execution). As proposed, this would not be deemed a Trade-Through.

Book and Ship Example. Participant Exchange A is disseminating a \$1.85-\$2.00 market. Participant Exchange B is disseminating a \$1.80-\$1.95 market. The \$1.95 offer is for 10 contracts. No other market is at \$1.95. Participant Exchange A receives a customer order to buy 100 contracts at \$1.95. Under this proposal, Participant Exchange A could book 90 contracts of the customer buy order at \$1.95 provided Participant Exchange A simultaneously transmitted a 10-contract P/A Order to Participant Exchange B to pay \$1.95. Assuming an execution is obtained from Participant Exchange B, the customer would receive the 10-contract fill and the rest of the customer's order will be displayed as a \$1.95 bid on Participant Exchange A. The national best offer would likely be \$2.00. As proposed, this would not be deemed a "locked" market for purposes of the Plan.

2. Statutory Basis

The PCX believes that the proposed rule change is consistent with section 6(b) of the Act⁷ in general, and furthers the objectives of section 6(b)(5) of the Act⁸ in particular, because the proposed rule change is designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in facilitating transactions in securities, and to remove impediments to and perfect the mechanism of a free and open market and a national market system.

B. Self-Regulatory Organization's Statement on Burden on Competition

The PCX does not believe that the proposed rule change will impose any burden on competition that is not
