SUPPLEMENTARY INFORMATION:

Comments Invited

Interested parties are invited to participate in this proposed rulemaking by submitting such written data, views, or arguments as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in developing reasoned regulatory decisions on the proposal. Comments are specifically invited on the overall regulatory, economic, environmental, and energy-related aspects of the proposal. Communications should identify the airspace docket number and be submitted in triplicate to the address listed above. Commenters wishing the FAA to acknowledge receipt of their comments on this notice must submit with those comments a self-addressed, stamped postcard on which the following statement is made: "Comments to Airspace Docket No. FAA-2005-22100/Airspace Docket No. 05-AEA-16". The postcard will be date/time stamped and returned to the commenter.

Availability of NPRMs

An electronic copy of this document may be downloaded through the Internet at <http://dms.dot.gov>. Recently published rulemaking documents can also be accessed through the FAA's Web page at <http://www.faa.gov> or the Superintendent of Documents Web page at <http://www.access.gpo.gov/nara>. Additionally, any person may obtain a copy of this notice by submitting a request to the Office of Air Traffic Airspace Management, ATA-400, 800 Independence Avenue, SW., Washington, DC 20591 or by calling (202) 267-8783. Communications must identify both the docket numbers for this notice. Persons interested in being placed on a mailing list for future NPRMs should contact the FAA Office of Rulemaking, (202) 267-9677 to request a copy of Advisory Circular No. 11-2A, which describes the application procedure.

The Proposal

The FAA is considering an amendment to Part 71 of the Federal Aviation Regulations (14 CFR part 71) to amend the Class E airspace within the Binghamton, NY area. The proposal would consolidate the following airport Class E-5 airspace designations into the Binghamton, NY designation: Cortland, NY, Cortland County-Chase Field

Airport (N03); Ithaca, NY, Tompkins County Airport (ITH); Elmira, NY, Elmira/Corning Regional Airport (ELM); Endicott, NY, Tri-Cities Airport (CZG); and Sayre, PA, Robert Parker Hospital Heliport. This action would result in the rescission of five Class E-5 designations under a separate docket. The affected airspace would subsequently be incorporated into the Binghamton, NY description. The airspace will be defined to accommodate the approaches and contain IFR operations to and from those airports. This change would have no impact on aircraft operations since the type of airspace designation is not changing. Furthermore, the IFR approach procedures for the individual airports within the area would not be affected. Class E airspace designations for airspace areas extending upward from 700 ft. or more above the surface are published in Paragraph 6005 of FAA Order 7400.9M, dated August 30, 2004, and effective September 16, 2004, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document would be published subsequently in the Order.

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this proposed regulation—(1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that would only affect air traffic procedures and air navigation, it is certified that this proposed rule would not have significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

History

On June 29, 2005, the Salt Lake City Air Route Traffic Control Center (ARTCC) requested Federal Airway V-343 be extended to accommodate arriving instrument air traffic at BTM. This action responds to this request.

Proposal

The FAA is proposing an amendment to Title 14 Code of Federal Regulations (14 CFR) part 71 to modify Federal Airway V-343 by extending the airway from the Bozeman, MT, VORTAC to the initial approach fix for the RNAV runway 15 approach to the BTM, MT.

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this proposed regulation: (1) Is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under Department of Transportation (DOT) Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.
