National Institute of Allergy and Infectious Diseases; Notice of Closed Meeting

Pursuant to section 10(d) of the Federal Advisory Committee Act, as amended (5 U.S.C. Appendix 2), notice is hereby given of the following meeting.

The meeting will be closed to the public in accordance with the provisions set forth in sections 552b(c)(4) and 552b(c)(6), Title 5 U.S.C., as amended. The grant applications and the discussions could disclose confidential trade secrets or commercial property such as patentable material, and personal information concerning individuals associated with the grant applications, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Name of Committee: National Institute of Allergy and Infectious Diseases Special Emphasis Panel Review of an Unsolicited

Revised Tyrosine Phosphatase Program Project Application

Date: September 20, 2005.

Time: 10 a.m. to 1 p.m.

Agenda: To review and evaluate grant applications.

Place: National Institutes of Health, Rockledge 6700, 6700B Rockledge Drive, 3118, Bethesda, MD 20817. (Telephone Conference Call.)

Contact Person: Quirijn Vos, PhD, Scientific Review Administrator, Scientific Review Program, Division of Extramural Activities, NIAID/NIH/DHHS, 6700B Rockledge Drive, MSC 7616, Bethesda, MD 20892-7616, (301) 496-2550 qvoss@niaid.nih.gov.

Notice of Listing of Members of the National Institutes of Health's Senior Executive Service Performance Review Board (PRB)

The National Institutes of Health (NIH) announces the persons who will serve on the National Institutes of Health's Senior Executive Service Performance Review Board. This action is being taken in accordance with Title 5, U.S.C., 4314(c)(4), which requires that members of performance review board be appointed in a manner to ensure consistency, stability, and objectivity in performance appraisals, and requires that notice of the appointment of an individual to serve as a member be published in the **Federal Register**.

The following persons will serve on the NIH Performance Review Board, which oversees the evaluation of performance appraisals of NIH Senior Executive Service (SES) members: Ms. Colleen Barros (Chair), Dr. Norka Ruiz Bravo, Dr. Michael Gottesman, Ms. Lynn Hellingner, Dr. Barry Hoffer, Dr. Sharon Hrynkow, Dr. Betsy Humphreys, Dr. Raynard Kington, Dr. Lore Anne McNicol, Dr. Marcelle Morrison-Bogorad, Ms. Martha Pine, and Dr. Brent Stanfield.

For further information about the NIH Performance Review Board, contact the Office of Human Resources, Workforce Relations Division, National Institutes of

Health, Building 31/B3C07, Bethesda, Maryland 20892, telephone (301) 402-9203 (not a toll-free number).

Dated: August 16, 2005.

Elias A. Zerhouni,

Director, National Institutes of Health.

Substance Abuse and Mental Health Services Administration

Agency Information Collection Activities: Submission for OMB Review; Comment Request

Periodically, the Substance Abuse and Mental Health Services Administration (SAMHSA) will publish a summary of information collection requests under OMB review, in compliance with the Paperwork Reduction Act (44 U.S.C. Chapter 35). To request a copy of these documents, call the SAMHSA Reports Clearance Officer on (240) 276-1243.

Drug and Alcohol Services Information System (DASIS) (OMB No. 0930-0106)—Revision

The DASIS consists of three related data systems: The Inventory of Substance Abuse Treatment Services (I-SATS); the National Survey of Substance Abuse Treatment Services (N-SSATS), and the Treatment Episode Data Set (TEDS). The I-SATS includes all substance abuse treatment facilities known to SAMHSA. The N-SSATS is an annual survey of all substance abuse treatment facilities listed in the I-SATS. The TEDS is a compilation of client-level admission data and discharge data submitted by States on clients treated in facilities that receive State funds. Together, the three DASIS components provide information on the location, scope and characteristics of all known drug and alcohol treatment facilities in the United States, the number of persons in treatment, and the characteristics of clients receiving services at publicly-funded facilities. This information is needed to assess the nature and extent of these resources, to identify gaps in services, to provide a database for treatment referrals, and to assess demographic and substance-related trends in treatment. In addition, SAMHSA and the State substance abuse officials participating in SAMHSA's December 2004 meeting on National Outcome Measures (NOMS) agreed that several NOMS data elements to assess the performance of the Substance Abuse

Prevention and Treatment (SAPT) Block Grant will be collected in TEDS.

The request for OMB approval includes a request to conduct the 2006 N-SSATS survey and the 2006 Mini-N-SSATS. The Mini-N-SSATS is a procedure for collecting services data from newly identified facilities between main cycles of the survey and will be used to improve the listing of treatment facilities in the on-line treatment facility Locator. The 2006 N-SSATS questionnaire will include several new items, including the addition of nicotine replacement therapy and psychiatric medications to the pharmacotherapies list and the addition of new services to the list of services provided. The request also includes a request to conduct a

pretest of the 2007 N-SSATS questionnaire in 2006. The 2007 pretest questionnaire will include several changes, including the modification of the treatment categories to better reflect the practices and terminology currently used in the treatment field; modification of the detoxification question, including the addition of a follow-up question on whether the facility uses drugs in detoxification and for which substances; the addition of questions on treatment approaches and behavioral interventions; the addition of a question on quality control procedures used by the facility; and, the addition of a question on whether the facility accepts ATR vouchers and how many annual admissions were funded by ATR

vouchers. Following the pretest of the 2007 N-SSATS, a separate request for OMB approval will be submitted for the 2007 and 2008 N-SSATS, including the Mini-N-SSATS for those years.

The request for OMB approval will also include the addition of several new NOMS data elements to the TEDS client-level record. To the extent that states already collect the elements from their treatment providers, the following elements will be included in the TEDS data collection: Number of arrests at admission and at discharge; substances used/frequency of use at discharge; employment at discharge; and living arrangement at discharge.

Estimated annual burden for the DASIS activities is shown below:

Type of respondent and activity	Number of respondents	Responses per respondent	Hours per response	Total burden hours
States:				
TEDS Admission Data	52	4	6	1,248
TEDS Discharge Data	40	4	8	1,280
TEDS Discharge Crosswalks	5	1	10	50
I-SATS Update	56	67	.08	300
State subtotal	56			2,878
Facilities:				
I-SATS Update	100	1	.08	8
Pretest of N-SSATS revisions	200	1	.17	34
N-SSATS questionnaire	17,000	1	.2	3,400
Augmentation screener	1,000	1	.08	80
Mini-N-SSATS	700	1	.13	91
Facility subtotal	19,000			3,613
Total	19,056			6,491

Written comments and recommendations concerning the proposed information collection should be sent by September 26, 2005 to: SAMHSA Desk Officer, Human Resources and Housing Branch, Office of Management and Budget, New Executive Office Building, Room 10235, Washington, DC 20503; due to potential delays in OMB's receipt and processing of mail sent through the U.S. Postal Service, respondents are encouraged to submit comments by fax to: 202-395-6974.

Dated: August 12, 2005.

Anna Marsh,

Executive Officer, SAMHSA.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Substance Abuse and Mental Health Services Administration (SAMHSA)

Notice: Request for Comments; National Registry of Evidence-Based Programs and Practices (NREPP)

Authority: Sec. 501, Pub. L. 106-310

SUMMARY: The Substance Abuse and Mental Health Services Administration (SAMHSA) is committed to preventing the onset and reducing the progression of mental illness, substance abuse and substance related problems among all individuals, including youth. As part of this effort, SAMHSA is expanding and refining the agency's National Registry of Evidence-based Programs and Practices (NREPP) so that the system serves as a leading national resource for contemporary and reliable information on the scientific basis and practicality of interventions to prevent and/or treat

mental illness and substance use and abuse.

NREPP represents a major agency activity within SAMHSA's Science to Service initiative. The initiative seeks to accelerate the translation of research into practice by promoting the implementation of effective, evidence-based interventions for preventing and/or treating mental disorders and substance use and abuse. Of equal measure, the initiative emphasizes the essential role of the services community in providing input and feedback to influence and better frame the research questions and activities pursued by researchers in these areas.

Through SAMHSA's Science to Service initiative, the agency ultimately seeks to develop a range of tools that will facilitate evidence-based decision-making in substance abuse prevention, mental health promotion, and the treatment of mental and substance use disorders. In addition to NREPP, SAMHSA is developing an informational guide of web-based
