## DEPARTMENT OF THE INTERIOR

### **Bureau of Reclamation**

[INT-DES-05-40]

## **Carlsbad Project, New Mexico**

**AGENCY:** Bureau of Reclamation, Interior.

**ACTION:** Notice of Availability and Notice of Public Meetings for the Draft Environmental Impact Statement for Carlsbad Project Water Operations and Water Supply Conservation.

**SUMMARY:** Pursuant to the National Environmental Policy Act (NEPA) of 1969 (as amended), the Bureau of Reclamation (Reclamation) and the New Mexico Interstate Stream Commission, as joint lead agencies, have prepared a draft environmental impact statement (DEIS) to assess the consequences of proposed changes in the operation of Sumner Dam and the implementation of a water acquisition program in the Pecos River Basin. The Carlsbad Project Water Operations and Water Supply Conservation DEIS includes a description of alternative means of implementing the proposed federal action and presents an evaluation of the environmental, economic, and social consequences that could result from implementing these alternatives.

These proposed changes in water operations are designed to conserve the Pecos bluntnose shiner (*Notropis simus* pecosensis) (shiner) and its designated critical habitat. The water acquisition program is proposed to conserve the Carlsbad Project water supply. In 1987, the U.S. Fish and Wildlife Service listed the shiner, a small minnow, as a threatened species and designated two noncontiguous river reaches, totaling approximately 101 miles of the Pecos River, as critical habitat. The shiner has undergone significant population declines and range contraction in the last 65 years and is now restricted to about 194 miles from Fort Sumner State Park to Brantley Reservoir. Lower base flows, lower peak flows, and extended duration of peak flows along with river channel degradation, drought, and intermittency have contributed to loss of habitat and increased mortality (U.S. Fish and Wildlife Service, 2003). DATES: A 60-day public review period commences with the publication of this notice. Written comments on the DEIS should be submitted no later than

October 31, 2005, to Ms. Marsha Carra, Bureau of Reclamation, Albuquerque Area Office, 555 Broadway NE., Suite 100, Albuquerque, New Mexico 87102.

Reclamation will conduct four public meetings to obtain public input on the DEIS. All meetings will take place from 7 p.m. to 9 p.m. The public meetings schedule is as follows:

• September 19, 2005—Bureau of Land Management Conference Room, 2909 West 2nd Street, Roswell, New Mexico

• September 20, 2005—Pecos River Village Conference Center, Room 3, 711 Muscatel, Carlsbad, New Mexico

• September 21, 2005—Village Community House, 204 North 4th Street, Ft. Sumner, New Mexico

• September 22, 2005—City Hall Meeting Room, 141 5th Street, Santa Rosa, New Mexico

**ADDRESSES:** Copies of the DEIS are available for public inspection and review at the following locations:

• Albuquerque Main Library, 501 Copper NW., Albuquerque, New Mexico 87102

• Bureau of Reclamation, Albuquerque Area Office, 555 Broadway NE., Suite 100, Albuquerque, New Mexico 87102

• Carlsbad Irrigation District, 201 South Canal Street, Carlsbad, New Mexico 88220
