#### Part I—Introduction and Procedural Background

Section 7(i) of the Northwest Power Act, 16 U.S.C. 839e(i), requires that BPA's rates be established according to certain procedures. These procedures include, among other things, publication of notice of the proposed rates in the **Federal Register**; one or more hearings conducted as expeditiously as practicable by a Hearing Officer; opportunity for both oral presentation and written submission of views, data, questions, and arguments related to the proposed rates; and a decision by the Administrator based on the record. BPA's rate proceedings are governed by BPA's Procedures Governing Bonneville Power Administration Rate Hearings, 51 FR 7611 (1986) ("Procedures"). These Procedures implement the statutory Section 7(i) requirements. This rate proceeding will be governed by Section 1010.9 of the Procedures providing for a general rate proceeding, as modified by the Hearing Officer at the pre-hearing conference. However, BPA will not hold any field hearings to provide for non-party participant oral comments. Section 1010.7 of the Procedures prohibits ex parte communications. BPA imposed ex parte limitations beginning January 17, 2005.

The Bonneville Project Act, 16 U.S.C. 832; the Flood Control Act of 1944, 16 U.S.C. 825s; the Federal Columbia River Transmission System Act, 16 U.S.C. 838; the Northwest Power Act, 16 U.S.C. 839; and the Federal Power Act, 16 U.S.C. 824k(i)(1)(B)(ii) provide guidance regarding BPA's ratemaking. With regard to transmission rates, the Northwest Power Act requires BPA to set rates that are sufficient to recover, in accordance with sound business principles, the cost of transmitting electric power, including amortization of the Federal investment over a reasonable period of years, and the other costs and expenses incurred by the Administrator. The Federal Columbia Transmission System Act requires that the costs of the Federal Columbia River Transmission System be equitably allocated between Federal and non-Federal power utilizing the system. In addition, rates for Federal Energy Regulatory Commission ("FERC" or "Commission")-ordered transmission service shall be at rates and charges that permit the recovery of all costs incurred in connection with the transmission service and necessary associated services.

A proposed schedule for the formal hearing is stated below. A final schedule
