Establishment of Domestic VOR Federal Airway V-19; OH

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action establishes Domestic Very High Frequency Omni-directional Range (VOR) Federal Airway V-19 northeast of the Cincinnati, OH, VOR/Tactical Air Navigation (VORTAC). The FAA is taking this action to reduce congestion on VOR Federal Airway V-5 between Columbus, OH, and Cincinnati, OH, and to enhance the management of aircraft operations over the Cincinnati, OH area.

SUPPLEMENTARY INFORMATION:**Background**

On December 9, 2003, the FAA published in the **Federal Register** a notice of proposed rulemaking to establish V-19 northeast of the Cincinnati, OH, VORTAC to reduce congestion on V-5 between Columbus, OH, and Cincinnati, OH, and to enhance the management of aircraft operations over the Cincinnati, OH, area (68 FR 68576). Interested parties were invited to participate in this rulemaking effort by submitting written comments on this proposal to the FAA. No comments were received in response to the proposal. With the exception of editorial changes, this amendment is the same as that proposed in the notice.

Domestic VOR Federal airways are published in paragraph 6010(a) of FAA Order 7400.9N dated September 1, 2005, and effective September 16, 2005, which is incorporated by reference in 14 CFR 71.1. The Federal airway listed in this document will be published subsequently in the order.

The Rule

This action amends Title 14 Code of Federal Regulations (14 CFR part 71) by establishing V-19 in the Cincinnati, OH, area. Specifically, this action establishes V-19 between Columbus, OH, and Cincinnati, OH, to the south of V-5 and to the north of the Buckeye Military Operations Area. The FAA is taking this action to reduce congestion on V-5 and to enhance the management of aircraft operations over the Cincinnati, OH, area.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation: (1) Is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under Department of Transportation (DOT) Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is

certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Amendment to Using Agency for Restricted Areas R-2510 A & B; El Centro, CA

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action changes the using agency of Restricted Areas R-2510A &

R-2510B, from “CO, Yuma MCAS, AZ,” to “Commanding Officer, U.S. Navy Fleet Area Control and Surveillance Facility, San Diego, CA.” The FAA is taking this action in response to a request from the United States Navy to reflect an administrative change of responsibility for the restricted areas. There are no changes to the boundaries; designated altitudes; time of designation; or activities conducted within the affected restricted areas.

EFFECTIVE DATE: 0901 UTC, December 22, 2005.

FOR FURTHER INFORMATION CONTACT: Ken McElroy, Airspace and Rules, Office of System Operations Airspace and AIM, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, DC 20591; telephone: (202) 267-8783.

SUPPLEMENTARY INFORMATION:

The Rule

This action amends Title 14 Code of Federal Regulations (14 CFR) part 73 by changing the using agency of R-2510 A & B, El Centro, CA. On July 18, 2005, the U.S. Navy requested that the FAA change the using agency from “CO, Yuma MCAS, AZ,” to “Commanding Officer, U.S. Navy Fleet Area Control and Surveillance Facility, San Diego, CA.” This action addresses that request. This is an administrative change and does not affect the boundaries; designated altitudes; or activities conducted within the restricted areas. Therefore, notice and public procedure under 5 U.S.C. 553(b) are unnecessary.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation: (1) Is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under Department of Transportation (DOT) Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

The FAA has determined that this action qualifies for categorical exclusion under the National Environmental Policy Act in accordance with FAA

Order 1050.1E, Policies and Procedures for Considering Environmental Impacts. This airspace action is not expected to cause any potentially significant environmental impacts, and no extraordinary circumstances exist that warrant preparation of an environmental assessment.

Regulatory Information

We did not publish a notice of proposed rulemaking (NPRM) for this regulation. Under 5 U.S.C. 553(b)(B), the Coast Guard finds that good cause exists for not publishing an NPRM. Under 5 U.S.C. 553(d)(3), good cause exists for making this rule effective less than 30 days after publication in the **Federal Register**. Delaying this rule would be contrary to the public interest of ensuring the safety of participants and vessels during this event and immediate action is necessary to prevent possible
