### III. Current Actions

Provisions under part 7 provide that manufacturers submit applications to demonstrate compliance with the test and specification requirements. In part 75, they establish mandatory safety standards for diesel-powered equipment for use in underground coal mines, minimum ventilating air quantities, the incorporation of the air quantities into the mine ventilation plan, requirements for routine sampling of toxic exhaust gases, and the use of low sulfur diesel fuel. It also provides that diesel equipment maintenance be performed by adequately trained persons. In addition, the regulation includes standards for storage, transportation and dispensing of diesel fuel, and the installation and maintenance of fire suppression systems on diesel equipment and in permanent underground fuel storage facilities.
