

DEPARTMENT OF LABOR**Employment and Training
Administration**

[TA-W-57,512]

**US Airways, Inc. Myrtle Beach, SC;
Dismissal of Application for
Reconsideration**

Pursuant to 29 CFR 90.18(C) an application for administrative reconsideration was filed with the Director of the Division of Trade Adjustment Assistance for workers at U.S. Airways, Inc., Myrtle Beach, South Carolina. The application contained no new substantial information which would bear importantly on the Department's determination. Therefore, dismissal of the application was issued. TA-W-57,512; U.S. Airways, Inc., Myrtle Beach, South Carolina (October 20, 2005).

Signed at Washington, DC, this 20th day of October 2005.

Douglas F. Small,

Acting Director, Division of Trade Adjustment Assistance.

**MILLENNIUM CHALLENGE
CORPORATION**

[MCC FR 05-18]

**Notice of the November 8, 2005
Millennium Challenge Corporation
Board of Directors Meeting; Sunshine
Act Meeting**

AGENCY: Millennium Challenge Corporation.

TIME AND DATE: 10 a.m. to 12 p.m., Tuesday, November 8, 2005

PLACE: Department of State, 2201 C Street, NW., Washington, DC 20520.

FOR FURTHER INFORMATION CONTACT: Information on the meeting may be obtained from Joyce B. Lanham via e-mail at Board@mcc.gov or by telephone at (202) 521-3600.

STATUS: Meeting will be closed to the public.

MATTERS TO BE CONSIDERED: The Board of Directors (the "Board") of the Millennium Challenge Corporation ("MCC") will hold a meeting to consider the selection of countries that will be eligible for FY 2006 Millennium Challenge Account ("MCA") assistance under section 607 of the Millennium Challenge Act of 2003 (the "Act"), codified at 22 U.S.C. 7706, or Threshold Program assistance under Section 616 of the Act; discuss progress on proposed

Compacts with certain MCA-eligible countries; discuss MCC's proposed policy on suspension and termination of assistance and eligibility; and certain administrative matters. The agenda items are expected to involve the consideration of classified information and the meeting will be closed to the public.

Dated: October 27, 2005.

Jon A. Dyck,

*Vice President and General Counsel,
Millennium Challenge Corporation.*

NATIONAL SCIENCE FOUNDATION**Advisory Committee for Biological
Sciences; Notice of Meeting**

In accordance with the Federal Advisory Committee Act (Pub. L. 92-463, as amended), the National Science Foundation announces the following meeting:

Name: Advisory Committee for Biological Sciences (BIO) (1110).

Date and Time: November 17, 2005, 8:30 a.m.-5 p.m.; November 18, 2005, 8:30 a.m.-3 p.m.

Place: National Science Foundation, 4201 Wilson Blvd., Arlington, VA 22230, Room 375.

Type of Meeting: Open.

Contact Person: Dr. James P. Collins, Assistant Director, Biological Sciences, Room 605, National Science Foundation, 4201 Wilson Blvd., Arlington, VA 22230 Tel No.: (703) 292-8400.

Minutes: May be obtained from the contact person listed above.

Purpose of Meeting: The Advisory Committee for BIO provides advice, recommendations, and oversight concerning major program emphases, directions, and goals for the research-related activities of the divisions that make up BIO.

Agenda: Planning and Issues Discussion:

- Committee of Visitors Reports
- Cyberinfrastructure
- NEON Update

Dated: October 26, 2005.

Susanne Bolton,

Committee Management Officer.

**NUCLEAR REGULATORY
COMMISSION**

[Docket No. 50-199]

**Manhattan College; (Manhattan
College Zero Power Reactor); Notice of
Approval of Decommissioning Plan
and Notice of License Termination**

The U.S. Nuclear Regulatory Commission (NRC) is noticing the termination of Facility Operating License No. R-97 for the Manhattan College (MC) Zero Power Reactor (MCZPR).

The NRC has terminated the license of the decommissioned MCZPR, which was in the Leo Engineering Building of Manhattan College, Riverdale, New York, and has released the site for unrestricted use. The licensee requested termination of the license in a letter to NRC dated February 3, 2005. The MCZPR, a 0.1 watt swimming pool reactor, was constructed in 1964 and operated under License No. R-94. The reactor was permanently shut down in 1995. On March 23, 1999, NRC approved the decommissioning plan (DP) dated July 21, 1998, by License Amendment No. 12.

A Notice and Solicitation of Comments Pursuant to 10 CFR 20.1405 and 10 CFR 50.82(b)(5) Concerning Proposed Action to Decommission Manhattan College Zero Power Research Reactor appeared in the **Federal Register** on February 12, 1999 (64 FR 7214). The staff considered all comments received during the review of the MCZPR decommissioning plan.

The NRC completed its review of the December 2004 final status survey report (FSSR) for the Reactor Facility at Manhattan College School of Engineering. The licensee submitted the report to NRC by letter dated February 3, 2005. The report documented the level of residual radioactivity remaining at the facility and stated that compliance with the criteria as approved in the NRC-approved DP had been demonstrated.

Pursuant to 10 CFR 50.82(b)(6), the NRC staff concluded that the decommissioning has been performed in accordance with the approved DP and that the final terminal radiation survey and associated documentation demonstrate that the facility and site are suitable for release in accordance with the criteria in the NRC-approved DP. Furthermore, on the basis of the decommissioning activities carried out by MC, the NRC's review of the licensee's FSSR, the results of NRC's inspections conducted at MC, and the results of NRC's confirmatory surveys, the NRC has concluded that the

decommissioning process is complete and the facility and site are suitable to be released for unrestricted use. Based on the NRC staff's conclusions, Facility Operating License No. R-94 is terminated.

For further details, see the licensee's application for decommissioning dated December 18, 1997, July 21, October 29, and November 10, 1998, and January 6, 1999; License Amendment No. 12 to Facility Operating License No. R-94; the licensee's February 3, 2005, request for license termination; the December 2004 FSSR for the Reactor Facility at the Manhattan College School of Engineering, submitted to NRC by letter dated February 3, 2005 and NRC Inspection Report 50-199/2005-201, dated July 15, 2005. Documents may be examined, and/or copied for a fee, at the NRC's Public Document Room (PDR), at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland. Publicly available records for MC dated after January 30, 2000, will be accessible electronically from the Agencywide Documents Access and Management System (ADAMS) Public Electronic Reading Room on the Internet at the NRC Web site <http://www.nrc.gov/reading-rm/adams.html>. Persons who do not have access to ADAMS or who have problems in accessing the documents in ADAMS should contact the NRC PDR reference staff at 1-800-397-4209 or 301-415-4737 or at pdr@nrc.gov.

Dated at Rockville, Maryland, this 21st day of October 2005.

For the Nuclear Regulatory Commission.

Brian E. Thomas,

Section Chief, Research and Test Reactors Section, New, Research and Test Reactors Program, Division of Regulatory Improvement Programs, Office of Nuclear Reactor Regulation.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[DOCKET NO. 030-34681]

Notice of Availability of Environmental Assessment and Finding of No Significant Impact for License Amendment for Morphochem, Inc.'s Facility in Monmouth Junction, NJ

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of availability.

FOR FURTHER INFORMATION CONTACT:

Betsy Ullrich, Commercial and R&D Branch, Division of Nuclear Materials

Safety, Region I, 475 Allendale Road, King of Prussia, Pennsylvania, 19406, telephone (610) 337-5040, fax (610) 337-5269; or by e-mail: exu@nrc.gov.

SUPPLEMENTARY INFORMATION:

I. Introduction

The Nuclear Regulatory Commission (NRC) is considering the issuance of a license amendment to Morphochem, Inc. for Materials License No. 29-30442-01, to authorize release of its facility in Monmouth Junction, New Jersey for unrestricted use. NRC has prepared an Environmental Assessment (EA) in support of this action in accordance with the requirements of 10 CFR part 51. Based on the EA, the NRC has concluded that a Finding of No Significant Impact (FONSI) is appropriate.

II. EA Summary

The purpose of the action is to authorize the release of the licensee's Monmouth Junction, New Jersey facility for unrestricted use. Morphochem, Inc. was authorized by NRC from 1998 to use radioactive materials for research and development purposes at the site. On August 8, 2005, Morphochem, Inc. requested that NRC release the facility for unrestricted use. Morphochem, Inc. has conducted surveys of the facility and provided information to the NRC to demonstrate that the site meets the license termination criteria in Subpart E of 10 CFR part 20 for unrestricted use.

The NRC staff has prepared an EA in support of the license amendment. The facility was remediated and surveyed prior to the licensee requesting the license amendment. The NRC staff has reviewed the information and final status survey submitted by Morphochem, Inc. Based on its review, the staff has determined that there are no additional remediation activities necessary to complete the proposed action. Therefore, the staff considered the impact of the residual radioactivity at the facility and concluded that since the residual radioactivity meets the requirements in Subpart E of 10 CFR part 20, a Finding of No Significant Impact is appropriate.

III. Finding of No Significant Impact

The staff has prepared the EA (summarized above) in support of the license amendment to terminate the license and release the facility for unrestricted use. The NRC staff has evaluated Morphochem, Inc.'s request and the results of the surveys and has concluded that the completed action complies with the criteria in Subpart E of 10 CFR part 20. The staff has found that the radiological environmental

impacts from the action are bounded by the impacts evaluated by NUREG-1496, Volumes 1-3, "Generic Environmental Impact Statement in Support of Rulemaking on Radiological Criteria for License Termination of NRC-Licensed Facilities" [ML042310492, ML042320379 and ML042330385]. Additionally, no non-radiological or cumulative impacts were identified. On the basis of the EA, the NRC has concluded that there are no significant environmental impacts from the proposed action and has determined not to prepare an environmental impact statement for the action.

IV. Further Information

Documents related to this action, including the application for the license amendment and supporting documentation, are available electronically at the NRC's Electronic Reading Room at <http://www.nrc.gov/reading-rm/adams.html>. From this site, you can access the NRC's Agencywide Document Access and Management System (ADAMS), which provides text and image files of NRC's public documents. The ADAMS accession numbers for the documents related to this Notice are: "Environmental Assessment Related to an Amendment of U.S. Nuclear Regulatory Commission Materials License No. 29-30442-01, Issued to Morphochem, Inc." [ML052940097]; and "Termination of NRC License Number 29-30442-01" dated August 8, 2005 [ML052270172]. Persons who do not have access to ADAMS or who encounter problems in accessing the documents located in ADAMS, should contact the NRC PDR Reference staff by telephone at (800) 397-4209 or (301) 415-4737, or by e-mail to pdr@nrc.gov.

Documents related to operations conducted under this license not specifically referenced in this Notice may not be electronically available and/or may not be publicly available. Persons who have an interest in reviewing these documents should submit a request to NRC under the Freedom of Information Act (FOIA). Instructions for submitting a FOIA request can be found on the NRC's Web site at <http://www.nrc.gov/reading-rm/foia/foia-privacy.html>.

Dated at King of Prussia, Pennsylvania, this 21st day of October, 2005.

For the Nuclear Regulatory Commission.

James P. Dwyer,

Chief, Commercial and R&D Branch, Division of Nuclear Materials Safety, Region I.
