

This proposed rule is a result of the DFARS Transformation initiative. The proposed DFARS changes—

- Update requirements for DoD processing of requests for extraordinary contract adjustments; and
- Delete procedures for preparation of records and submittal of requests to a contract adjustment board. Text on this subject will be relocated to the new DFARS companion resource, Procedures, Guidance, and Information (PGI), available at <http://www.acq.osd.mil/dpap/dars/pgi>.

This rule was not subject to Office of Management and Budget review under Executive Order 12866, dated September 30, 1993.

B. Regulatory Flexibility Act

DoD does not expect this rule to have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.*, because the rule addresses internal administrative DoD procedures for processing requests for extraordinary contract adjustments. Therefore, DoD has not performed an initial regulatory flexibility analysis. DoD invites comments from small businesses and other interested parties. DoD also will consider comments from small entities concerning the affected DFARS subparts in accordance with 5 U.S.C. 610. Such comments should be submitted separately and should cite DFARS Case 2003–D048.

C. Paperwork Reduction Act

The Paperwork Reduction Act does not apply because the rule does not impose any information collection requirements that require the approval of the Office of Management and Budget under 44 U.S.C. 3501, *et seq.*

Endangered and Threatened Species; Extension of Public Comment Period on Proposed Critical Habitat Designations for West Coast Salmonids

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Proposed rule; extension of public comment period.

SUMMARY: We, the National Marine Fisheries Service (NMFS), are extending the comment period on proposed critical habitat designations for 20 Evolutionarily Significant Units (ESUs) of Pacific salmon and *O. mykiss* (inclusive of anadromous steelhead and resident rainbow trout) listed under the Endangered Species Act of 1973, as amended (ESA). The proposed designations include habitat areas in California, Oregon, Washington, and Idaho. A recent court-approved Amendment to the Consent Decree, that established the schedule for completing these designations, extends the comment period until March 14, 2005, and the date to submit final rules until August 15, 2005. These extensions will allow the public additional time to provide information related to the proposed designations and will provide NMFS with the time needed to review, consider, and respond to comments. We are soliciting information and comments from the public on all aspects of the proposals, including information on the economic, national security, and other relevant impacts of the proposed designations.

DATES: Written comments are due by 5 p.m. Pacific Standard Time on March 14, 2005.

SUPPLEMENTARY INFORMATION:

Background

On December 10 and 14, 2004, NMFS published separate critical habitat proposed rules addressing 20 ESUs of Pacific salmon and *O. mykiss* (inclusive of anadromous steelhead and resident rainbow trout) listed under the ESA. The first proposed rule (69 FR 71880, December 10, 2004) addressed 7 ESUs in California and announced a public comment period extending through February 8, 2005. The second proposed rule (69 FR 74572, December 14, 2004) addressed 13 ESUs in Washington,

Oregon, and Idaho, and announced a public comment period extending through February 14, 2005. The timeline for completion of these proposed rules was established pursuant to litigation between NMFS and the Pacific Coast Federation of Fishermen's Associations, Institute for Fisheries Resources, the Center for Biological Diversity, the Oregon Natural Resources Council, the Pacific Rivers Council, and the Environmental Protection Information Center (PCFFA *et al.*) and are subject to a Consent Decree and Stipulated Order of Dismissal (Consent Decree) approved by the D.C. District Court.

We received several requests, including a request from PCFFA *et al.*, to extend the public comment period. We recently submitted to the D.C. District Court a joint request with PCFFA *et al.* to extend the comment period and to modify the schedule for submission of final rules designating critical habitat for the 20 ESUs to the **Federal Register** established in the Consent Decree. The court approved the joint request on January 26, 2005. Pursuant to that approval we are extending the deadline for accepting public comments on both proposed rules until March 14, 2005. Also, on or before August 15, 2005, we will complete both rulemakings by submitting to the **Federal Register** for publication the final rules designating critical habitat for those of the 20 ESUs that are included on the lists of threatened and endangered species as of August 15, 2005. These extensions will allow the public additional time to provide information related to the proposed designations and will provide us with the time needed to review, consider, and respond to comments.

Authority: 16 U.S.C. 1531 *et seq.*

Dated: January 1, 2005.

Assistant Administrator, National Marine Fisheries Service.

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Proposed rule.

SUMMARY: NMFS proposes to approve and implement changes to the International Pacific Halibut Commission's (IPHC) regulatory Area 2A off Washington, Oregon, and California (Area 2A) Pacific Halibut Catch Sharing Plan (Plan) to: allow remaining quota from Washington's south coast subarea to be used to accommodate incidental catch in the south coast nearshore fishery; allow quota projected to be unused to be transferred from Oregon's central coast subarea to another subarea south of Leadbetter Point, WA; revise the season structure for Oregon's all-depth spring and summer sport fisheries; provide more flexibility for Oregon's inseason sport fishery management (triggers for additional fishery openings and bag limits in the all-depth summer fishery); revise the public announcement process for Oregon's all-depth summer sport fishery; revise the Columbia River subarea quota contributions from Oregon/California; remove the minimum length requirement in all subareas south of Leadbetter Point, WA; prohibit retention of all groundfish, except sablefish, in Oregon's and possibly Washington's Columbia River fishery on all days and in the Central Coast fisheries on "all-depth" days; implement a closed area off Oregon's coast; and revise all coordinates from degrees minutes seconds to degrees decimal minutes. NMFS also proposes to revise the coordinates for the closed area to Oregon's central coast recreational fishery and to non-treaty commercial halibut fishing in Area 2A. NMFS is also proposing to implement the portions of the Plan and management measures that are not implemented through the IPHC, which includes the sport fishery management measures for Area 2A, the flexible inseason management provisions in Area 2A, fishery election in Area 2A,
