

POLICY JUSTIFICATION

Saudi Arabia – Contractor, Technical Services, and Logistics Support

The Government of Saudi Arabia has requested a possible sale for the continuation of support for F-5, F-15, RF-5, E-3, RE-3, KE-3, and C-130, aircraft; F-100-PW-220/229, J-85, T-56, and CFM-56 aircraft engines; and A/TGM-65 AIM-7 and AIM-9 missiles which have already been delivered to and are being operated by Saudi Arabia; contractor services; maintenance; spare and repair parts; support and test equipment; goggles; communication support; precision measuring equipment; personnel training; training equipment; technical support; and contractor engineering; and other related elements of program support. The estimated cost is \$760 million.

This sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country that has been and continues to be an important force for political stability and economic progress in the Middle East.

The missile support on this proposed sale is only for repair or maintenance of missiles already delivered to and being operated by Saudi Arabia. They need this maintenance support in order to ensure the combat and operational readiness of U.S.-origin military equipment. The Royal Saudi Air Force will use these support services for the day-to-day operation and maintenance of all their aircraft.

These contractor maintenance and training technical services will not alter the basic military balance in the region.

Many contractors provide organizational and intermediate level maintenance and training services to Saudi. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Saudi Arabia.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

POLICY JUSTIFICATION**Saudi Arabia - Continued Assistance in the Modernization of the SANG**

The Government of Saudi Arabia has requested a possible sale for the continuation of the United States supported effort to modernize the Saudi Arabian National Guard (SANG) by providing Major Defense Equipment (MDE) and non-MDE items:

Major Defense Equipment (MDE)

144 Armored Personnel Carriers Vehicles	3,600 F-2000 5.56mm Assault Rifles with 40mm Grenade Launchers
12 Water Cannons Vehicles	51,400 F-2000 5.56mm Assault Rifles without 40mm Grenade
52 Command and Control Vehicles	Launchers
17 Ambulance and Evacuation Vehicles	198 AN/VRC-90E SINCGARS
36 Platoon Command Vehicles	Vehicular Single Long-Range
55,500 40mm Ammunition	Radio Systems

SANG has invited General Dynamics Land Systems, Australian Defense Industries, Steyr-Puch Pinzgauer (a subsidiary of General Dynamics Corporation), and BAE (Alvis) to present candidate systems, for the vehicles listed above, to the SANG for testing evaluation in Saudi Arabia. It is expected that the SANG source selection will be based on the results of this test and evaluation process.

Non-MDE Vehicles

104 ¼-ton trucks	6 executive automobiles
6 pick-up trucks	8 26-passenger buses
16 patrol trucks	24 60-passenger buses
48 10-ton trucks	6 tire demounter trucks
12 5-ton trucks w/winch	9 25-ton wreckers
63 5-ton trucks	6 mobile workshop trucks
6 refrigeration trucks	6 mobile lubrication trucks
16 11,000-gallon fuel tankers	4 5-ton dump trucks
8 9,000-gallon water tankers	11 mobile command trucks
8 16,500-gallon water tankers	

Note: All U. S. standard commercial/non-tactical vehicles or other commercial equivalents.

Non-MDE

172 Harris Corporation RF-5000v 125W High Frequency (HF) or Current Production Version Commercial HF Radios	Spare and repair parts
180 M24 7.62 Sniper Weapon System (scope is integrated) or commercial equivalent	Sets, Kits, and Outfits (assemblages of components in a container (pouch, box, chest, van, trailer, or shelter) primarily designed to accomplish a specific mission)
265 Motorola Commercial Very HF Single or Multi-Channel Handheld Radios or other commercial equivalents	Sights and Scopes (the scope is for the M24 Sniper Weapon System which is an integral component of the weapon system)
323 12 Gauge Shotguns or commercial equivalent	Standard simulations and training systems to include: Multiple Integrated Laser Emitting System, Engagement Skills Trainer for marksmanship training, and the Battle Staff Automated Training System
Ballistic Protection	Support Equipment to include Mobile Workshops
Batons	Training devices
Battery Chargers	Training equipment
Contractor engineering and technical support	Other related elements of program support
Generators	
Personnel training	
Protective Clothing and Equipment	
Publications	
Shop Equipment	

The estimated cost is \$918 million.

The proposed sale coupled with the training, assistance, and advice provided by the U.S. Government through the Office of the Program Manager SANG will serve to make a key regional ally and partner in the Global War on Terror more capable of defeating those who would threaten regional stability and less reliant on the deployment of U.S. combat forces to maintain or restore stability in the Middle East.

The SANG needs these defense articles so that it can effectively conduct security and counter-terrorism operations. The continuation of services under the SANG Modernization Program is an evolution of the SANG as an effective defensive force with the advice, assistance, and training of the U.S. Army. The Modernization Program ensures necessary training, logistics, support, doctrine development and force integration for the continuing expansion and use of their weapon systems. These services will remain the cornerstone of an effort to upgrade and enhance the infrastructure of the SANG organization.

The proposed sale will also provide SANG with additional command, control, and communications equipment needed to operate in a secure communications environment that will facilitate the performance of its mission within Saudi Arabia. It is consistent with the National Command Authority's intent for stability in the Central Command Area of Operation. The radios will modernize equipment and provide the critical VHF and HF links necessary for a large fast moving force and integration with the SINCGAR radios SANG already has fielded in its Light Armored Vehicle and Light Infantry Brigades.

The proposed sale of this equipment and support will not affect the basic military balance in the region. Saudi Arabia is capable of absorbing and maintaining this additional MDE equipment in its inventory.

The principle contractors will be:

**Fabrique Nationale Herstal, USA
ITT Aerospace/Communications
Harris Corporation
Motorola Corporation**

**McLean, Virginia
Fort Wayne, Indiana
Rochester, New York
Schaumburg, Illinois**

There are no known offset agreements proposed in connection with this potential sale.

At present, there are approximately 219 U.S. Government personnel and 541 contractor representatives in country supporting the SANG modernization program.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.
