

DEPARTMENT OF DEFENSE**Office of the Secretary****Defense Science Board**

AGENCY: Department of Defense.

ACTION: Notice of Advisory Committee Meetings.

SUMMARY: The Defense Science Board Task Force on Nuclear Capabilities will meet in closed session on November 14, 2005; at the Institute for Defense Analysis (IDA), 4850 Mark Center Drive, Alexandria, VA. This meeting will be an Executive Session for draft report writing and discussion.

The mission of the Defense Science Board is to advise the Secretary of Defense and the Under Secretary of Defense for Acquisition, Technology & Logistics on scientific and technical matters as they affect the perceived needs of the Department of Defense. At these meetings, the Defense Science Board Task Force will: Assess the current plan for sustaining the nuclear weapons stockpile and make recommendations for ensuring the future reliability, safety, security, and relevance of the nuclear weapons stockpile for the 21st century; examine the DoD role in defining needs in the nuclear weapons stockpile and recommend changes in institutional arrangements to ensure an appropriate DoD role; assess progress towards the goal of an integrated new triad of strike capabilities (nuclear, advanced conventional, and non-kinetic) within the new triad of strike, defense and infrastructure; examine a wide range of alternative institutional arrangements that could provide for more efficient management of the nuclear enterprise; examine approaches to evolving the stockpile with weapons that are simpler to manufacture and that can be sustained with a smaller, less complex, less expensive design, development, certification and production enterprise; and examine plans to transform the nuclear weapons production complex to provide a capability to respond promptly to changes in the threat environment with new designs or designs evolved with previously tested nuclear components.

In accordance with section 10(d) of the Federal Advisory Committee Act, Public Law 92-463, as amended (5 U.S.C. App. II), it has been determined that these Defense Science Board Task Force meetings concerning matters listed in 5 U.S.C. 552b(c)(1) and that, accordingly, the meetings will be closed to the public.

Bureau of Reclamation

Upper Columbia Alternative Flood Control and Fish Operations, Libby and Hungry Horse Dams, MT

AGENCIES: Corps of Engineers, DoD, and Bureau of Reclamation, Interior.

ACTION: Notice of Availability Of Draft Environmental Impact Statement and Notice of Public Hearings.

SUMMARY: In accordance with the requirements of the National Environmental Policy Act, the U.S. Army Corps of Engineers (USACE), Seattle District, and the Bureau of Reclamation (Reclamation), Pacific Northwest Region, have prepared a Draft Environmental Impact Statement (DEIS) to evaluate the effects of alternative flood control at Libby Dam on the Kootenai River and at Hungry Horse Dam on the South Fork Flathead River in western Montana. USACE and Reclamation are making the document available to the public for review and comment through a Notice of Availability published in the **Federal Register**. The overall goal of the DEIS is to evaluate effects of alternative dam operations that are intended to provide reservoir and flow conditions at and below Libby and Hungry Horse Dams for anadromous and resident fish listed as threatened or endangered under the Endangered Species Act (ESA), consistent with authorized project purposes, including maintaining the current level of flood control benefits.

DATES: To ensure consideration in final EIS development, we must receive comments on or before December 27,
