

If questions arise concerning the precise relationship of specific properties to noise exposure contours depicted on a noise exposure map submitted under section 47503 of the Act, it should be noted that the FAA is not involved in any way in determining the relative locations of specific properties with regard to the depicted noise contours, or in interpreting the noise exposure maps to resolve questions concerning, for example, which properties should be covered by the provisions of section 47506 of the Act. These functions are inseparable from the ultimate land use control and planning responsibilities of local government. These local responsibilities are not changed in any way under Part 150 or through FAA's review of noise exposure maps. Therefore, the responsibility for the detailed overlaying of noise exposure contours onto the map depicting properties on the surface rests exclusively with the airport operator that submitted those maps, or with those public agencies and planning agencies with which consultation is required under section 47503 of the Act. The FAA has relied on the certification by the airport operator, under section 150.21 of FAR Part 150, that the statutorily required consultation has been accomplished.

Copies of the revised five-year forecast condition NEM and of the FAA's evaluation of the revised NEM, and copies of the record of approval and other evaluation materials and documents which comprised the submittal to the FAA are available for examination at the following locations:

Federal Aviation Administration
Harrisburg Airports District Office, 3905 Hartzdale Drive, Suite 508, Camp Hill, PA 17011 and Lehigh-Northampton Airport Authority, 3311 Airport Road, Allentown, PA 18109.

Questions on either of these FAA determinations may be directed to the individual named above under the heading **FOR FURTHER INFORMATION CONTACT**.

Dated: Issued in Camp Hill, Pennsylvania, October 31, 2005.

Wayne T. Heibeck,

Manager, Harrisburg Airports District Office.

BILLING CODE 4910-13-M

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

Noise Exposure Map Notice; Receipt of Noise Compatibility Program and Request for Review; Collin County Regional Airport, McKinney, TX

AGENCY: Federal Aviation Administration, DOT.

ACTION: Notice.

SUMMARY: The Federal Aviation Administration (FAA) announces its determination that the noise exposure maps submitted by the city of McKinney, Texas for Collin County Regional Airport under the provisions of 49 U.S.C. 47501 *et seq.* (Aviation Safety and Noise Abatement Act) and 14 CFR Part 150 are in compliance with applicable requirements. The FAA also announces that it is reviewing a proposed noise compatibility program that was submitted for Collin County Regional Airport under Part 150 in conjunction with the noise exposure map, and that this program will be approved or disapproved on or before April 30, 2006.

DATES: The effective date of the FAA's determination on the noise exposure maps and start of its review of the associated noise compatibility program is November 1, 2005. The public comment period ends December 31, 2005.

FOR FURTHER INFORMATION CONTACT: Paul Blackford, Texas Airports Development Office, Federal Aviation Administration, 2601 Meachum Blvd., Fort Worth, Texas 76137-4298, (817) 222-5607. Comments on the proposed noise compatibility program should also be submitted to the above office.

SUPPLEMENTARY INFORMATION: This notice announces that the FAA finds that the noise exposure maps submitted for Collin County Regional Airport are in compliance with applicable requirements of Part 150, effective November 1, 2005. Further, FAA is reviewing a proposed noise compatibility program for that airport which will be approved or disapproved on or before April 30, 2006. This notice also announces the availability of this program for public review and comment.

Under 49 U.S.C. 47503 (the Aviation Safety and Noise Abatement Act, hereinafter referred to as "the Act"), an airport operator may submit to the FAA noise exposure maps which meet applicable regulations and which depict non-compatible land uses as of the date of submission of such maps, a description of projected aircraft

operations, and the ways in which such operations will affect such maps. The Act requires such maps to be developed in consultation with interested and affected parties in the local community, government agencies, and persons using the airport.

An airport operator who has submitted noise exposure maps that are found by FAA to be in compliance with the requirements of Federal Aviation Regulations (FAR) Part 150, promulgated pursuant to the Act, may submit a noise compatibility program for FAA approval which sets forth the measures the operator has taken or proposes to take to reduce existing non-compatible uses and prevent the introduction of additional non-compatible uses.

City of McKinney, Texas submitted to the FAA on October 3, 2005, noise exposure maps, descriptions and other documentation that were produced during the Collin County Regional Airport, 14 CFR Part 150 Study, April, 2003 to October, 2005. It was requested that the FAA review this material as the noise exposure maps, as described in section 47503 of the Act, and that the noise mitigation measures, to be implemented jointly by the airport and surrounding communities, be approved as a noise compatibility program under section 47504 of the Act.

The FAA has completed its review of the noise exposure maps and related descriptions submitted by the city of McKinney, Texas. The specific documentation determined to constitute the noise exposure maps includes: Map A-2005 Noise Exposure Map, Map B-2011 Noise Exposure Map, Map C-2005 and 2011 North Flow Centerline of Flight Corridors, Map D-2005 and 2011 South Flow Centerline of Flight Corridors, Section 5-Airport Operational Data, and Section 6-Noise Exposure. The FAA has determined that these maps for Collin County Regional Airport are in compliance with applicable requirements. This determination is effective on November 1, 2005. FAA's determination on an airport operator's noise exposure maps is limited to a finding that the maps were developed in accordance with the procedures contained in appendix A of FAR Part 150. Such determination does not constitute approval of the applicant's data, information or plans, or constitute a commitment to approve a noise compatibility program or to fund the implementation of that program.

If questions arise concerning the precise relationship of specific properties to noise exposure contours depicted on a noise exposure map submitted under section 47503 of the

Act, it should be noted that the FAA is not involved in any way in determining the relative locations of specific properties with regard to the depicted noise contours, or in interpreting the noise exposure maps to resolve questions concerning, for example, which properties should be covered by the provisions of section 47506 of the Act. These functions are inseparable from the ultimate land use control and planning responsibilities of local government. These local responsibilities are not changed in any way under Part 150 or through FAA's review of noise exposure maps. Therefore, the responsibility for the detailed overlaying of noise exposure contours onto the map depicting properties on the surface rests exclusively with the airport operator that submitted those maps, or with those public agencies and planning agencies with which consultation is required under section 47503 of the Act. The FAA has relied on the certification by the airport operator, under section 150.21 of FAR Part 150, that the statutorily required consultation has been accomplished.

The FAA has formally received the noise compatibility program for Collin County Regional Airport, also effective on November 1, 2005. Preliminary review of the submitted material indicates that it conforms to the requirements for the submittal of noise compatibility programs, but that further review will be necessary prior to approval or disapproval of the program. The formal review period, limited by law to a maximum of 180 days, will be completed on or before April 30, 2006.

The FAA's detailed evaluation will be conducted under the provisions of 14 CFR Part 150, section 150.33. The primary considerations in the evaluation process are whether the proposed measures may reduce the level of aviation safety, create an undue burden on interstate or foreign commerce, or be reasonably consistent with obtaining the goal of reducing existing non-compatible land uses and preventing the introduction of additional non-compatible land uses.

Interested persons are invited to comment on the proposed program with specific reference to these factors. All comments, other than those properly addressed to local land use authorities, will be considered by the FAA to the extent practicable. Copies of the noise exposure maps, the FAA's evaluation of the maps, and the proposed noise compatibility program are available for examination at the following locations:

Federal Aviation Administration,
Texas Airports Development Office,
2601 Meacham Blvd., Fort Worth, Texas

76137. Collin County Regional Airport, 1500 E. Industrial Blvd., Suite 118, McKinney, Texas 75069.

Questions may be directed to the individual named above under the heading **FOR FURTHER INFORMATION CONTACT**.

Issued in Fort Worth, Texas, November 1, 2005.

Kelvin L. Solco,

Manager, Airports Division.

BILLING CODE 4910-13-M

DEPARTMENT OF TRANSPORTATION

Federal Highway Administration

Environmental Impact Statement: San Diego County, CA

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice of Intent.

SUMMARY: The FHWA is issuing this notice to advise the public that an Environmental Impact Statement (EIS) will be prepared for a proposed highway project in San Diego County, California.

FOR FURTHER INFORMATION CONTACT: Steve Healow, Project Development Engineer, Federal Highway Administration, 650 Capitol Mall, Suite 4-100, Sacramento, California 95814-4708, Telephone: (916) 498-5849, or Jason A. Reynolds, Environmental Analysis-Branch A, at the California Department of Transportation, District 11, 2829 Juan Street, MS 46, San Diego, California 92110, Telephone: (858) 616-6609.

SUPPLEMENTARY INFORMATION: The FHWA, in cooperation with the California Department of Transportation will prepare an environmental Impact Statement (EIS) on a proposed project to upgrade and improve operations on State Route 76, from the vicinity of Melrose Drive to the vicinity of south Mission Road, in San Diego County, California. The proposed improvements would address traffic flow and safety issues by building additional traffic lanes, upgrade the roadway to current design standards, and improve intersections. These improvements are considered necessary to provide for the increase in existing and projected traffic demand. Preliminary alternatives under consideration include: (1) Taking no action; (2) construct improvements along the existing roadway; (3) construct a new alignment to the south; (4) construct a split facility utilizing the existing roadway and the proposed Southern route.

Letters describing the proposed action and soliciting comments will be sent to appropriate Federal, State, and local agencies, and to private organizations and citizens who have previously expressed or are known to have interest in this proposal.

During future project development, prior to draft EIS circulation, a public scoping meeting may be held if significant new circumstances or information arise which bear on the proposed project or its impacts. A public hearing will be held after publication of the draft EIS. Public notice will be given regarding the time and place of the hearing. The draft EIS will be available for public and agency review and comment prior to the public hearing.

To ensure that the full range of issues related to this proposed action are addressed and all significant issues identified, comments, and suggestions are invited from all interested parties. Comments or questions concerning this proposed action and the Draft EIS/EIR should be directed to the FHWA at the provided above.

Issued on: October 19, 2005.

Steve Healow,

*FHWA Project Development Engineer,
Sacramento, California.*

Federal Transit Administration

Elderly Individuals and Individuals With Disabilities Pilot Program

AGENCY: Federal Transit Administration (FTA), DOT.

ACTION: Notice; Solicitation of Proposals to Participate in the Elderly Individuals and Individuals with Disabilities Pilot Program.

SUMMARY: This solicitation is for proposals from states that would like to use a portion of their Section 5310 Elderly Individuals and Individuals with Disabilities Program funds for operating expenses.

DATES: Complete proposals must be submitted to FTA by the close of business December 14, 2005.

ADDRESSES: Proposals must be submitted electronically to cheryl.oliver@fta.dot.gov and marymartha.churchman@fta.dot.gov. The subject line of the e-mail should read: Proposal for Section 5310 Pilot Program.

FOR FURTHER INFORMATION: Contact Cheryl Oliver, Office of Program
