SUPPLEMENTARY INFORMATION:

I. Abstract

The Bureau of Economic Analysis (BEA) is responsible for the compilation of the U.S. international transactions accounts (ITA's), which it publishes quarterly in news releases, on its Web site, and in its monthly journal, the *Survey of Current Business*. These accounts provide a statistical summary of all U.S. international transactions and, as such, are one of the major statistical products of BEA. They are used extensively by both government and private organizations for national

and international economic policy formulation and for analytical purposes. The information collected in this survey is used to develop the "private remittances" portion of the ITA's. Without this information, an integral component of the ITA's would be omitted. No other Government agency collects comprehensive data on private unilateral transfers of funds to foreign countries.

The survey requests information from U.S. religious, charitable, educational, scientific, and similar organizations on transfers to foreign residents and their expenditures in foreign countries. The information is collected on a quarterly basis from organizations remitting \$1 million or more each year and annually for organizations remitting at least \$25,000 but less than \$1 million each year. Organizations with remittances of less than \$25,000 each year are exempt from reporting. The survey is voluntary.

BEA is proposing a minor revision to Form BE-40 to change "Other International Nations" on the "area/country" list to "Other International Organizations."

II. Method of Collection

Survey forms are mailed to potential respondents in January of each year; respondents expected to file on a quarterly basis are sent multiple copies. Quarterly reports are due 30 days after the close of each calendar or fiscal quarter and annual reports are due 90 days after the close of the calendar or fiscal year. Potential respondents are U.S. religious, charitable, educational, scientific, and similar organizations that voluntarily agree to provide data regarding transfers of cash grants to foreign countries and their expenditures in foreign countries.

Form Number: BE-40.

Type of Review: Regular submission.

Affected Public: Not-for-profit institutions.

Estimated Number of Respondents: 790.

Respondent's Obligation: Voluntary.

Legal Authority: Bretton Woods Agreement Act, Section 8, and E.O. 10033, as amended.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

I. Abstract

The Bureau of Economic Analysis (BEA) is requesting OMB approval to conduct a variety of small-scale questionnaire pretesting activities under this generic clearance. OMB will be informed in writing of the purpose and scope of each of these activities, as well as the time frame and the number of burden hours used. The number of hours used will not exceed the number set aside for this purpose.

This research program will be used by BEA to improve questionnaires and procedures, reduce respondent burden, improve sample frames, and ultimately increase the quality of data collected in the bureau's surveys. The clearance will be used to conduct pretesting of surveys conducted by BEA prior to mailing the final survey packages to potential respondents. Pretesting activities will involve methods for identifying problems with the questionnaire or survey procedure such as the following: cognitive interviews, focus groups, respondent debriefing, behavior coding of respondent/ interviewer interaction, split panel tests, voluntary sample surveys (including automated surveys).
