Announcement of Anticipated Availability of Funds for Family Planning Services Grants

AGENCY: Department of Health and Human Services, Office of the Secretary.

ACTION: Notice; correction.

SUMMARY: The Office of Population Affairs, Office of Public Health and Science, Department of Health and Human Services, published a notice in the **Federal Register** July 7, 2004, announcing the anticipated availability of funds for family planning services grants. This notice contained an error. An eligible Population/area was not listed as available for competition in 2005. A document correcting the omission of the Seattle, Washington Population/area as competitive in 2005 was published in the **Federal Register** August 10, 2004. Later, two additional Populations/areas, Illinois, Chicago area and Arizona, Navajo Nation, became available for competition in 2005. A second correction notice was published in the **Federal Register** November 22, 2004, which included all Populations/areas available for competition in 2005.

Since that time, it has been recognized that the project period start date indicated in Table I for the Seattle, Washington Population/area is incorrect. This notice corrects the project period start date to 09/30/2005 for the FY 2005 competitive year. However, the first year of the project period beginning 09/30/2005 will be abbreviated. The budget period for the 01-year will end on 06/30/2006. In subsequent years, the annualized budget period will begin on 07/01 of each project period year, and will end on 06/30 of each project period year. The purpose of this change is to modify the project period start and end dates for the Seattle, Washington Population/area in order to enhance project oversight.

FOR FURTHER INFORMATION CONTACT: Susan B. Moskosky, 301-594-4008.

Correction

In the **Federal Register** of July 7, 2004, FR Doc. 03-15514, on page 41,115, correct Table I to read:

BILLING CODE 4150–34–P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

Agency for Toxic Substances and Disease Registry (ATSDR); Public Meeting of the Citizens Advisory Committee on Public Health Service (PHS) Activities and Research at Department of Energy (DOE) Sites: Oak Ridge Reservation Health Effects Subcommittee

Name: Public meeting of the Citizens Advisory Committee on PHS Activities and Research at DOE Sites: Oak Ridge Reservation Health Effects Subcommittee (ORRHES).

Time and Date: 12 p.m.–6 p.m., March 22, 2005.

Place: Oak Ridge Mall, Alpine Meeting Room, 333 East Main Street,

Oak Ridge, Tennessee. Telephone: (865) 482–2008.

Status: Open to the public, limited only by the space available. The meeting room accommodates approximately 50 people.

Background: A memorandum of Understanding (MOU) was signed in October 1990 and renewed in September 2000 between ATSDR and DOE. The MOU delineates the responsibilities and procedures for ATSDR's public health activities at DOE sites required under sections 104, 105, 107, and 120 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA or "Superfund"). These activities include health consultations and public health assessments (PHA) at DOE sites listed on, or proposed for, the Superfund National Priorities List and at sites that are the subject of petitions from the public; and other health-related activities such as epidemiologic studies, health surveillance, exposure and disease registries, health education, substance-specific applied research, emergency response, and preparation of toxicological profiles.

In addition, under an MOU signed in December 1990 with DOE and replaced

by an MOU signed in 2000, the Department of Health and Human Services (HHS) has been given the responsibility and resources for conducting analytic epidemiologic investigations of residents of communities in the vicinity of DOE facilities, workers at DOE facilities, and other persons potentially exposed to radiation or to potential hazards from non-nuclear energy production and use. HHS has delegated program responsibility to the Centers for Disease Control and Prevention (CDC). Community involvement is a critical part of ATSDR's and CDC's energy-related research and activities, and input from members of the ORRHES is part of these efforts.

Purpose: The purpose of this meeting is to address issues that are unique to community involvement with the ORRHES, and to provide agency updates.

Matters To Be Discussed: agenda items will include a brief discussion on the ATSDR project management plan and the schedule of PHA's to be released in FY2005–2006; overall health communication plan; Y–12 PHA Video; launch of the new ATSDR/ORRHES website; updates and recommendations
