TT is the majority owner (51%) of Autobuses Coahuilenses, S.A. de C.V., a motor carrier that operates primarily in Mexico, but also holds federally issued authority under MC-434199. The carriers involved in the transaction satisfy the jurisdictional threshold of having gross operating revenues in excess of \$2 million during a recent 12-month period.

Under 49 U.S.C. 14303(b), the Board must approve and authorize a transaction found to be consistent with the public interest, taking into consideration at least: (1) The effect of the transaction on the adequacy of transportation to the public; (2) the total fixed charges that result; and (3) the interest of affected carrier employees.

Grupo Senda and TDN have submitted information, as required by 49 CFR 1182.2, including the information to demonstrate that the proposed transaction is consistent with the public interest under 49 U.S.C. 14303(b). Applicants state that the proposed transaction will have no impact on the adequacy of transportation services available to the public, that the proposed transaction will not have an adverse effect on total fixed charges, and that the interests of employees of TDN will not be adversely impacted. Additional information, including a copy of the application, may be obtained from the Applicants' representatives.

On the basis of the application, we find that the proposed acquisition of control is consistent with the public interest and should be authorized. If any opposing comments are timely filed, this finding will be deemed vacated, and unless a final decision can be made on the record as developed, a procedural schedule will be adopted to reconsider the application. See 49 CFR 1182.6(c). If no opposing comments are filed by the expiration of the comment period, this notice will take effect automatically and will be the final Board action.

Board decisions and notices are available on our Web site at <http://www.stb.dot.gov>.
