In the EA, Commission staff analyze the

potential environmental effects of relicensing the project and conclude that issuing a subsequent license for the project, with appropriate environmental measures, would not constitute a major Federal action significantly affecting the quality of the human environment.

A copy of the EA is on file with the Commission and is available for public inspection. The EA may also be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link. The proposed projects would be located on the Spring Valley and Mill Coulee Canals, near the Town of Fairfield, in Teton and Cascade counties, Montana.
