BILLING CODE 3810-FF-P

DEPARTMENT OF DEFENSE

Department of the Navy

Notice of Intent To Grant Exclusive Patent License; SSC Development, LLC

AGENCY: Department of the Navy, DoD.

ACTION: Notice.

SUMMARY: The Department of the Navy hereby gives notice of its intent to grant to SSC Development, LLC, a revocable, nonassignable, exclusive license in the United States to practice the Government-owned invention(s) described in U.S. Patent No. 6,466,515 entitled, "Power-Efficient Sonar System Employing a Waveform and Processing Method for Improved Range Resolution at High Doppler Sensitivity," issue date October 15, 2002.

DATES: Anyone wishing to object to the grant of this license must file written objections along with supporting evidence, if any, not later than July 5, 2006.

ADDRESSES: Written objections are to be filed with the Office of Research and Technology Applications, Space and Naval Warfare Systems Center, Code 2112, 83570 Silvergate Ave., Room 2306, San Diego, CA 92152-5048.

FOR FURTHER INFORMATION CONTACT: Dr. Stephen H. Lieberman, Office of Research and Technology Applications, Space and Naval Warfare Systems Center, Code 2112, 83570 Silvergate Ave., Room 2306, San Diego, CA 92152-5048, telephone 619-553-2778, or e-Mail stephen.lieberman@navy.mil.

(Authority: 35 U.S.C. 207, 37 CFR part 404.)

Dated: June 7, 2006.

M.A. Harvison,

Lieutenant Commander, Judge Advocate General's Corps, U.S. Navy, Federal Register Liaison Officer.

BILLING CODE 3810-FF-P

DEPARTMENT OF ENERGY

[OE Docket No. EA-316]

Application To Export Electric Energy; Cinergy Marketing & Trading, LP

AGENCY: Office of Electricity Delivery and Energy Reliability, DOE.

ACTION: Notice of application.

SUMMARY: Cinergy Marketing & Trading, LP (CMT) has applied for authority to transmit electric energy from the United States to Canada pursuant to section 202(e) of the Federal Power Act.

DATES: Comments, protests, or requests to intervene must be submitted on or before July 20, 2006.

ADDRESSES: Comments, protests, or requests to intervene should be addressed as follows: Office of Electricity Delivery and Energy Reliability, Mail Code: OE-20, U.S. Department of Energy, 1000 Independence Avenue, SW., Washington, DC 20585-0350 (FAX 202-586-5860).

FOR FURTHER INFORMATION CONTACT: Ellen Russell (Program Office), 202-586-9624 or Michael Skinker (Program Attorney), 202-586-2793.

SUPPLEMENTARY INFORMATION: Exports of electricity from the United States to a foreign country are regulated and require authorization under section 202(e) of the Federal Power Act (FPA) (16 U.S.C. 824a(e)).

On June 6, 2006, the Department of Energy (DOE) received an application from CMT for authority to transmit electric energy from the United States to Canada as a power marketer. CMT is a Delaware limited partnership with its principal place of business in Houston, TX. CMT has requested an electricity export authorization with a 5-year term. CMT does not own or control any generation, transmission, or distribution assets, nor does it have a franchised service area. The electric energy which CMT proposes to export to Canada would be surplus energy purchased from electric utilities, Federal power marketing agencies, and other entities within the U.S.

CMT will arrange for the delivery of exports to Canada over the international transmission facilities owned by Basin Electric Power Cooperative, Bonneville Power Administration, Eastern Maine Electric Cooperative, International Transmission Co., Joint Owners of the Highgate Project, Long Sault, Inc., Maine Electric Power Company, Maine Public Service Company, Minnesota Power, Inc., Minnkota Power Cooperative, Inc., New York Power Authority, Niagara Mohawk Power

Corp., Northern States Power Company, Vermont Electric Power Company, and Vermont Electric Transmission Co.

The construction, operation, maintenance, and connection of each of the international transmission facilities to be utilized by CMT has previously been authorized by a Presidential permit issued pursuant to Executive Order 10485, as amended.

Procedural Matters: Any person desiring to become a party to these proceedings or to be heard by filing comments or protests to this application should file a petition to intervene, comment or protest at the address provided above in accordance with §§ 385.211 or 385.214 of the Federal Energy Regulatory Commission's Rules of Practice and Procedures (18 CFR 385.211, 385.214). Fifteen copies of each petition and protest should be filed with DOE on or before the dates listed above.

Comments on the CMT application to export electric energy to Canada should be clearly marked with Docket No. EA-316. Additional copies are to be filed directly with Jason S. Austin, Senior Counsel, Cinergy Marketing & Trading, LP, 1100 Louisiana Street, Suite 4900, Houston, TX 77002.

A final decision will be made on this application after the environmental impacts have been evaluated pursuant to the National Environmental Policy Act of 1969, and a determination is made by DOE that the proposed action will not adversely impact on the reliability of the U.S. electric power supply system.

Copies of this application will be made available, upon request, for public inspection and copying at the address provided above or by e-mailing Odessa Hopkins at Odessa.hopkins@hq.doe.gov.

Issued in Washington, DC, on June 14, 2006.

Ellen Russell,

Acting Director, Permitting and Siting, Office of Electricity Delivery and Energy Reliability.

[FR Doc. E6-9633 Filed 6-19-06; 8:45 am]

BILLING CODE 6450-01-P

DEPARTMENT OF ENERGY

[OE Docket No. PP-317]

Application for Presidential Permit; AEP Texas Central Company; Request To Rescind Presidential Permit; Comission Federal de Electricidad

AGENCY: Office of Electricity Delivery and Energy Reliability, DOE.

ACTION: Notice of application; request for rescission.

SUMMARY: AEP Texas Central Company (TCC) has applied for a Presidential

permit to construct, operate, maintain, and connect an electric transmission line across the U.S. border with Mexico. In the same application, Comisión Federal de Electricidad (CFE), the national electric utility of Mexico, has requested a rescission of Presidential Permit No. PP-57.

DATES: Comments, protests, or requests to intervene must be submitted on or before July 20, 2006.

ADDRESSES: Comments, protests, or requests to intervene should be addressed as follows: Office of Electricity Delivery and Energy Reliability (OE-20), U.S. Department of Energy, 1000 Independence Avenue, SW., Washington, DC 20585-0350.

FOR FURTHER INFORMATION CONTACT: Ellen Russell (Program Office), 202-586-9624 or Michael T. Skinker (Program Attorney), 202-586-2793.

SUPPLEMENTARY INFORMATION: The construction, operation, maintenance, and connection of facilities at the international border of the United States for the transmission of electric energy between the United States and a foreign country is prohibited in the absence of a Presidential permit issued pursuant to Executive Order (EO) 10485, as amended by EO 12038.

On January 24, 1975, the Federal Power Commission, predecessor agency of the Department of Energy, in Docket No. E-8057, now Presidential Permit No. PP-57, authorized CFE to construct, operate, maintain, and connect a 138,000-volt (138-kV) electric transmission line across the U.S.-Mexico international border in the vicinity of Laredo, Texas.

On June 12, 2006, American Electric Power Service Corporation (AEPSC), acting as the agent for TCC, formerly doing business as Central Power and Light Company (CPL), filed an application with the Office of Electricity Delivery and Energy Reliability (OE) of the Department of Energy (DOE) for a Presidential permit. TCC proposes to construct a double circuit 230,000-volt (230-kV) electric transmission line across the U.S.-Mexico international border. In the same application CFE requests DOE rescind Presidential Permit No. PP-57 if the TCC-requested permit is issued.

The existing international transmission facilities authorized in Presidential Permit No. PP-57 consist of a single-circuit 138-kV transmission line that originates at TCC's existing Laredo Power Plant Station, in Laredo, Texas. The facilities continue west approximately 0.3 miles to the Rio Grande River, the U.S.-Mexico international border, and continue to

CFE's Ciudad Industrial Station in Laredo Nuevo, Mexico. In its application TCC proposes construct a new 230-kV circuit between the Laredo Power Plant and the CFE system and to rebuild and convert the existing 138-kV facilities to a 230-kV transmission circuit to be operated initially at 138-kV. The proposed double circuit facilities are to be operated as an asynchronous tie using a Variable Frequency Transformer (VFT). The VFT equipment would convert the interconnection with CFE from a block-over synchronous radial feed configuration to a continuous asynchronous connection. The proposed facilities would be constructed on steel monopole structures and would be sited along the center-line of the existing right-of-way. The existing wood transmission structures would be replaced with approximately four steel monopole structures. All facilities and equipment to be constructed, including the VFT, would be placed within the existing fence of the Laredo Power Plant.

TCC has indicated its intention to operate the proposed facilities as an open access transmission facility. If DOE were to grant the Presidential permit requested in OE Docket No. PP-317, it would simultaneously rescind Presidential Permit No. PP-57 issued to CFE.

Procedural Matters

Any person desiring to become a party to this proceeding or to be heard by filing comments or protests to this application should file a petition to intervene, comment or protest at the address provided above in accordance with §§ 385.211 or 385.214 of the FERC's Rules of Practice and Procedures (18 CFR 385.211, 385.214). Fifteen copies of each petition and protest should be filed with the DOE on or before the date listed above.

Additional copies of such petitions to intervene or protests also should be filed directly with: Terri Gallup, Regulatory Case Manager, American Electric Power Service Corporation, 212 East Sixth Street, Tulsa, OK 74119-1295 and Carolyn Y. Thompson, Esq., Jones Day, 51 Louisiana Avenue, NW., Washington, DC 20001-2113A.

A final decision will be made on this application after the environmental impacts have been evaluated pursuant to the National Environmental Policy Act of 1969, and a determination is made by DOE that the proposed action will not adversely impact on the reliability of the U.S. electric power supply system. In addition, DOE must obtain the concurrence of the Secretary of State and the Secretary of Defense

before taking final action on a Presidential permit application.

Copies of this application will be made available, upon request, for public inspection and copying at the address provided above. In addition, copies of the application can be obtained from Ms. Odessa Hopkins at 202-586-7751, or by e-mail at Odessa.Hopkins@hq.doe.gov.

Issued in Washington, DC, on June 14, 2006.

Ellen Russell,

Acting Director, Siting and Permitting, Office of Electricity Delivery and Energy Reliability.

BILLING CODE 6450-01-P

DEPARTMENT OF ENERGY

Office of Energy Efficiency and Renewable Energy

[Docket No. EE-RM-PET-100]

Energy Efficiency Program for Consumer Products: California Energy Commission Petition for Exemption From Federal Preemption of California's Water Conservation Standards for Residential Clothes Washers

AGENCY: Office of Energy Efficiency and Renewable Energy, Department of Energy.

ACTION: Notice.

SUMMARY: The Department of Energy (hereafter "the Department") announces the extension of the time period for evaluation and decision on the disposition of the California Energy Commission's Petition for Exemption from Federal Preemption of California's Water Conservation Standards for Residential Clothes Washers (hereafter "California Petition"). In accordance with section 327(d)(2) of the Energy Policy and Conservation Act (hereafter "EPCA"), the Department is extending the time period for issuing a decision on the California Petition from June 23, 2006, to December 23, 2006. The Department is extending this time period in order to allow it adequate time to evaluate the California Petition in light of public comments received on the California Petition and the California Energy Commission's (hereafter "CEC") rebuttal comments received by the Department on May 15, 2006.

DATES: The Department is extending the time period of evaluation of the California Petition from June 23, 2006 to December 23, 2006.

ADDRESSES: For access to the docket to read background documents relevant to
