CONSUMER PRODUCT SAFETY COMMISSION

Submission for OMB Review; Comment Request—Safety Standard for Omnidirectional Citizens Band Base Station Antennas

AGENCY: Consumer Product Safety Commission.

ACTION: Notice.

SUMMARY: In the **Federal Register** of April 26, 2006, (71 FR 24651), the Consumer Product Safety Commission published a notice in accordance with provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35) to announce the agency's intention to seek extension of approval of the collection of information required in the Safety Standard for Omnidirectional Citizens Band Base Station (16 CFR part 1204). No comments were received in response to that notice. By publication of this notice, the Commission announces that it has submitted to the Office of Management and Budget a request for extension of approval of that collection of information, without change, for three years from the date of approval.

The Safety Standard for Omnidirectional Citizens Band Base Station Antennas establishes performance requirements for omnidirectional citizens band base station antennas to reduce unreasonable risks of death and injury which may result if an antenna contacts overhead power lines while being erected or removed from its site. Certification regulations implementing the standard require manufacturers, importers, and private labelers of antennas subject to the standard to test antennas for compliance with the standard, and to maintain records of that testing.

The records of testing and other information required by the certification regulations allow the Commission to determine that antennas subject to the standard comply with its requirements. This information would also enable the Commission to obtain corrective actions if omnidirectional citizens band base station antennas failed to comply with

the standard in a manner which creates a substantial risk of injury to the public.

Additional Information About the Request for Extension of Approval of a Collection of Information

Agency address: Consumer Product Safety Commission, 4330 East West Highway, Bethesda, MD 20814.

Title of information collection: Safety Standard for Omnidirectional Citizens Band Base Station Antennas, 16 CFR Part 1204.

CONSUMER PRODUCT SAFETY COMMISSION

Submission for OMB Review; Comment Request—Safety Standard for Cigarette Lighters

AGENCY: Consumer Product Safety Commission.

ACTION: Notice.

SUMMARY: In the **Federal Register** of April 26, 2006 (71 FR 24651), the Consumer Product Safety Commission published a notice in accordance with provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. chapter 35) to announce the agency's intention to seek extension of approval of the collection of information in the Safety Standard for Cigarette Lighters (16 CFR part 1210). One comment from the American Academy of Pediatrics was received in support of the continued testing and data collection. By publication of this notice, the Commission announces that it has submitted to the Office of Management and Budget (OMB) a request for extension of approval of that collection of information without change for three years from the date of approval.

The Safety Standard for Cigarette Lighters requires disposable and novelty lighters to be manufactured with a mechanism to resist operation by children younger than five years of age. Certification regulations implementing the standard require manufacturers and importers to submit to the Commission a description of each model of lighter, results of prototype qualification tests for compliance with the standard, and a physical specimen of the lighter before the introduction of each model of lighter in commerce.

The Commission uses the records of testing and other information required by the certification regulations to determine that disposable and novelty lighters have been tested and certified for compliance with the standard by the manufacturer or importer. The Commission also uses this information to obtain corrective actions if disposable or novelty lighters fail to comply with the standard in a manner that creates a substantial risk of injury to the public.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[OMB Control No. 9000-0096]

Federal Acquisition Regulation; Information Collection; Patents

AGENCIES: Department of Defense (DOD), General Services Administration (GSA), and National Aeronautics and Space Administration (NASA).

ACTION: Notice of request for comments regarding an extension to an existing OMB clearance (9000-0096).

SUMMARY: Under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the Federal Acquisition Regulation (FAR) Secretariat will be submitting to the Office of Management and Budget (OMB) a request to review and approve an extension of a currently approved information collection requirement

concerning patents. This OMB clearance currently expires on October 31, 2006.

Public comments are particularly invited on: Whether this collection of information is necessary for the proper performance of functions of the FAR, and whether it will have practical utility; whether our estimate of the public burden of this collection of information is accurate, and based on valid assumptions and methodology; ways to enhance the quality, utility, and clarity of the information to be collected; and ways in which we can minimize the burden of the collection of information on those who are to respond, through the use of appropriate technological collection techniques or other forms of information technology.

DATES: Comments may be submitted on or before September 18, 2006.

ADDRESSES: Submit comments including suggestions for reducing this burden to the General Services Administration, FAR Secretariat (VIR), Room 4035 1800 F Street, NW, Washington, DC 20405.

FOR FURTHER INFORMATION CONTACT: Ernest Woodson, Contract Policy Division, GSA (202) 501-3775.

SUPPLEMENTARY INFORMATION:

A. Purpose

The patent coverage in FAR subpart 27.2 requires the contractor to report each notice of a claim of patent or copyright infringement that came to the contractor's attention in connection with performing a Government contract (FAR 27.202-1 and 52.227-2). The contractor is also required to report all royalties anticipated or paid in excess of \$250 for the use of patented inventions by furnishing the name and address of licensor, date of license agreement, patent number, brief description of item or component, percentage or dollar rate of royalty per unit, unit price of contract item, and number of units (FAR 27.204-1, 52.227-6, and 52.227-9). The information collected is to protect the rights of the patent holder and the interest of the Government.

B. Annual Reporting Burden

Number of Respondents: 30.
