[Public Notice 5470]

United States Climate Change Technology Program

The United States Climate Change Technology Program requests expert review of the Working Group III contribution ("Climate Change 2007: Mitigation of Climate Change") to the Intergovernmental Panel on Climate Change Fourth Assessment Report.

The Intergovernmental Panel on Climate Change (IPCC) was established by the United Nations Environment Programme (UNEP) and the World Meteorological Organization (WMO) in 1988. In accordance with its mandate and as reaffirmed in various decisions by the Panel, the major activity of the IPCC is to prepare comprehensive and up-to-date assessments of policy-relevant scientific, technical, and socio-economic information relevant for understanding the scientific basis of climate change, potential impacts, and options for mitigation and adaptation. The First Assessment Report was completed in 1990, the Second Assessment Report in 1995, and the Third Assessment Report in 2001. Three working group volumes and a synthesis report comprise the Fourth Assessment Report, with all to be finalized in 2007. Working Group I assesses the scientific aspects of the climate system and climate change; Working Group II assesses the vulnerability of socio-economic and natural systems to climate change, potential negative and positive consequences, and options for

adapting to it; and Working Group III assesses options for limiting greenhouse gas emissions and otherwise mitigating climate change. These assessments are based upon the peer-reviewed literature and are characterized by an extensive and open review process involving both scientific/technical experts and governments before being accepted by the IPCC.

The IPCC Secretariat has informed the U.S. Department of State that the second-order draft of the Working Group III contribution to the Fourth Assessment Report is available for Expert and Government Review. The Climate Change Technology Program (CCTP) office is coordinating collection of U.S. expert comments and the review of these collations by panels of Federal scientists and program managers to develop a consolidated U.S. Government submission. Instructions on how to format comments are available at <http://www.climatechange.gov/library/ipcc/wg3-4ar-review.htm>, as is the document itself and other supporting materials.

If you choose to submit comments for potential inclusion or consideration as part of the U.S. Government review, please do not send the same set of comments to the IPCC WGIII Technical Support Unit. Properly formatted comments should be sent to wg3-4AR-USGreview@climatechange.gov by close of business, Wednesday, 23 August 2006 to be considered for inclusion in the U.S. Government collation. Include "IPCC WGIII" and reviewer surname in the e-mail subject title to facilitate processing.

For further information, please contact Michael Curtis, U.S. Climate Change Technology Program, U.S. Department of Energy, Office of Policy and International Affairs, 1000 Independence Ave., SW., Washington, DC 20585 (CCTPinfo@climatechange.gov).

Dated: July 17, 2006.

Trigg Talley,

Office Director, Acting, Office of Global Change, Bureau of Oceans and International Environmental and Scientific Affairs, Department of State.

Aviation Proceedings, Agreements Filed the Week Ending July 7, 2006

The following Agreements were filed with the Department of Transportation

under the sections 412 and 414 of the Federal Aviation Act, as amended (49 U.S.C. 1382 and 1384) and procedures governing proceedings to enforce these provisions. Answers may be filed within 21 days after the filing of the application.

Docket Number: OST-2006-25313.

Date Filed: July 3, 2006.

Parties: Members of the International Air Transport Association.

Subject: Mail Vote 496—Resolution 010u, Special Passenger Amending from Thailand to Africa, Middle East (Memo 0304) and (Memo 0294). Intended effective date: July 13, 2006.

Docket Number: OST-2006-25316.

Date Filed: July 5, 2006.

Parties: Members of the International Air Transport Association.

Subject: TC12 North Atlantic Canada-Europe, Expedited Resolution 002cj (Memo 0121). Intended effective Date: September 1, 2006.

Docket Number: OST-2006-25319.

Date Filed: July 5, 2006.

Parties: Members of the International Air Transport Association.

Subject: TC12 North Atlantic USA-Europe and Mail Vote 492 (except Austria, Belgium, Czech Republic, Finland, France, Germany, Iceland, Italy, Netherlands, Scandinavia, Switzerland) (Memo 0194). Intended effective date: September 1, 2006.

Notice of Applications for Certificates of Public Convenience and Necessity and Foreign Air Carrier Permits Filed Under Subpart B (Formerly Subpart Q) During the Week Ending July 7, 2006

The following Applications for Certificates of Public Convenience and Necessity and Foreign Air Carrier Permits were filed under Subpart B (formerly Subpart Q) of the Department of Transportation's Procedural Regulations (See 14 CFR 301.201 *et seq.*). The due date for Answers, Conforming Applications, or Motions to Modify Scope are set forth below for each application. Following the Answer period DOT may process the application by expedited procedures. Such procedures may consist of the adoption of a show-cause order, a tentative order, or in appropriate cases a final order without further proceedings.

Docket Number: OST-2006-25318.

Date Filed: July 5, 2006.

Due Date for Answers, Conforming Applications, or Motion to Modify Scope: July 26, 2006.

Description: Application of ANA & JP Express Co., Ltd., requesting a foreign air carrier permit (a) to engage in scheduled foreign air transportation of property and mail between any point or points in Japan, on the one hand, and Chicago, IL (via a technical stop at Anchorage), on the other hand, and (b) to engage in charter foreign air transportation of property and mail between any point or points in Japan and any point or points in the United States and to provide other charters pursuant to the Department's charter regulations. AJV requests that the Department process this Application under the simplified non-hearing procedures specified in Subpart B of Part 302 of the Department's regulations.

Renee V. Wright,

*Program Manager, Docket Operations,
Federal Register Liaison.*

BILLING CODE 4910-9X-P

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

Approval of Noise Compatibility Program for Harrisburg International Airport, Middletown, PA

AGENCY: Federal Aviation Administration, DOT.

ACTION: Notice.

SUMMARY: The Federal Aviation Administration (FAA) announces its findings on the noise compatibility program submitted by the Susquehanna Area Regional Airport Authority (SARAA) under the provisions of Title I of the Aviation Safety and Noise Abatement Act, as amended, (Public Law 96-193) (hereinafter referred to as "the Act") and 14 CFR Part 150. These findings are made in recognition of the description of Federal and nonfederal responsibilities in Senate Report No. 96-52 (1980). On January 13, 2006, the FAA determined that the noise exposure maps submitted by the SARAA under part 150 were in compliance with applicable requirements.

EFFECTIVE DATES: The effective date of the FAA's approval of the Noise Compatibility Program is July 7, 2006.

FOR FURTHER INFORMATION CONTACT: Edward S. Gabsewics, CEP, Environmental Protection Specialist, Federal Aviation Administration,

Harrisburg Airports District Office, 3905 Hartzdale Drive, Suite 508, Camp Hill, PA 17011, Telephone 717-730-2932. Documents reflecting this FAA action may be reviewed at this same location.

SUPPLEMENTARY INFORMATION: This notice announces that the FAA has given its overall approval to the Noise Compatibility Program for the Harrisburg International Airport, effective July 7, 2006. Under section 104(a) of the Aviation Safety and Noise Abatement Act of 1979, as amended (herein after referred in as the "Act") [recodified as 49 USC Section 47504], an airport operator who has previously submitted a Noise Exposure Map may submit to the FAA a Noise Compatibility Program which sets forth the measures taken or proposed by the airport operator for the reduction of existing non-compatible land uses and prevention of additional non-compatible land uses within the area covered by the Noise Exposure Maps. The Act requires such programs to be developed in consultation with interested and affected parties including local communities, government agencies, airport users, and FAA personnel.

Each airport noise compatibility program developed in accordance with Federal Aviation Regulations (FAR) Part 150 is a local program, not a Federal program. The FAA does not substitute its judgment for that of the airport proprietor with respect to which measures should be recommended for action. The FAA's approval or disapproval of FAR part 150 program recommendations is measured according to the standards expressed in Part 150 and the Act and is limited to the following determinations:

a. The Noise Compatibility Program was developed in accordance with the provisions and procedures of FAR Part 150;

b. Program measures are reasonably consistent with achieving the goals of reducing existing non-compatible land uses around the airport and preventing the introduction of additional non-compatible land uses;

c. Program measures would not create an undue burden on interstate or foreign commerce, unjustly discriminate against types or classes of aeronautical uses, violate the terms of airport grant agreements, or intrude into areas preempted by the Federal Government; and

d. Program measures relating to the use of flight procedures can be implemented within the period covered by the program without derogating safety, adversely affecting the efficient use and management of the navigable

airspace and air traffic control systems, or adversely affecting other powers and responsibilities of the Administrator prescribed by law.

Specific limitations with respect to FAA's approval of an airport noise compatibility program are delineated in FAR part 150, section 150.5. Approval is not a determination concerning the acceptability of land uses under Federal, state, or local law. Approval does not by itself constitute an FAA implementing action. A request for Federal action or approval to implement specific noise compatibility measures may be required, and an FAA decision on the request may require an environmental assessment of the proposed action. Approval does not constitute a commitment by the FAA to financially assist in the implementation of the program nor a determination that all measures covered by the program are eligible for grant-in-aid funding from the FAA under the Airport and Airway Improvement Act of 1982, as amended. Where Federal funding is sought, requests for project grants must be submitted to the FAA Airports District Office in Camp Hill, Pennsylvania.

The SARAA submitted to the FAA on December 16, 2005, the Noise Exposure Maps, descriptions, and other documentation produced during the noise compatibility planning study conducted from mid-2003 to December 2005.

The Harrisburg International Airport's Noise Exposure Maps were determined by FAA to be in compliance with applicable requirements on January 13, 2006. Notice of this determination was published in the **Federal Register** on January 31, 2006.

The Harrisburg International Airport study contains a proposed noise compatibility program comprised of actions designed for phased implementation by airport management and adjacent jurisdictions from 2004 to beyond 2010. It was requested that the FAA evaluate and approve this material as a Noise Compatibility Program as described in 49 U.S.C. Section 47504 (formerly Section 104(b) of the Act). The FAA began its review of the program on January 13, 2006 and was required by a provision of the Act to approve or disapprove the program within 180 days (other than the use of new or modified flight procedures for noise control). Failure to approve or disapprove such program within the 180-day period shall be deemed to be an approval of such program.

The submitted program contained ten proposed actions for noise mitigation (one more abatement measure, six land use measures, and three program
