Abstract: On May 24, 2006, the Office of Management and Budget (OMB) published a Notice in the **Federal Register** [71 FR 29991] seeking comments on the renewal without change of three standard forms, the SF-270, Request for Advance or Reimbursement; the SF-271, Outlay

Report and Request for Reimbursement for Construction Programs; and the SF-LLL, Disclosure of Lobbying Activities. These forms are required by OMB Circular A-102, "Grants and Cooperative Agreements with State and Local Governments," and by OMB guidance at 2 CFR part 215, "Uniform Administrative Requirements for Grants and Agreements with Institutions of Higher Education, Hospitals, and Other Non Profit Organizations." One comment was received, requesting a change to the instructions for completion of the SF-LLL, clarifying the reporting requirement. OMB has not received information from the procurement or the grants communities regarding confusion over the requirement to report on non-Federal funds used to engage lobbyists to influence a Federal award, therefore we have not changed the instructions.

Copies of these standard forms can be downloaded from the OMB Grants Management home page (<http://www.whitehouse.gov/omb/grants>).

Comments and questions should be directed to the OMB Desk Officer by September 8, 2006. Comments received after this date will be considered if it is practical to do so, but assurance of consideration cannot be given to comments received after this date.

country allocations of the FY 2007 in-quota quantity of the tariff-rate quota for imported raw cane sugar, refined sugar, specialty sugar and sugar-containing products. In addition, USTR is providing notice of Agreement between the United States and Mexico on Market Access for Sweeteners.

SUPPLEMENTARY INFORMATION: Pursuant to Additional U.S. Note 5 to chapter 17 of the Harmonized Tariff Schedule of the United States (HTS), the United States maintains a tariff-rate quota for imports of raw cane sugar and refined sugar.

Section 404(d)(3) of the Uruguay Round Agreements Act (19 U.S.C. 3601(d)(3)) authorizes the President to allocate the in-quota quantity of a tariff-rate quota for any agricultural product among supplying countries or customs areas. The President delegated this authority to the United States Trade Representative under Presidential Proclamation 6763 (60 FR 1007).

FY 2006

On July 27, 2006, the Secretary of Agriculture increased the in-quota quantity of the tariff-rate quota for refined sugar for FY 2006 by 90,719 metric tons raw value, none of which is for specialty sugars. USTR is allocating a total of 26,681 metric tons raw value to Mexico. The remaining 64,038 metric tons raw value of the in-quota quantity may be supplied by any country on a first-come, first-served basis, subject to any other provision of law. The certificate of quota eligibility is required for sugar entering under the tariff-rate quota for refined sugar that is the product of a country that has been allocated a share of the tariff-rate quota for refined sugar.

Also on July 27, 2006, the Secretary of Agriculture increased the in-quota quantity of the tariff-rate quota for specialty sugar for FY 2006 by 9,000 metric tons raw value. This quantity may be supplied by any country on a first-come, first-served basis, subject to any other provision of law.

FY 2007

On July 27, 2006, the Secretary of Agriculture announced the sugar

program provisions for fiscal year (FY) 2007 (Oct. 1, 2006, through Sept. 30, 2007). The in-quota quantity of the tariff-rate quota for raw cane sugar for FY 2007 is 1,343,992 metric tons* raw value, which is 226,797 metric tons above the minimal amount to which the United States is committed under the World Trade Organization (WTO) Uruguay Round Agreements. The FY 2007 raw sugar tariff-rate quota will be allowed early entry beginning August 7, 2006 and no shipping patterns will be established. USTR is allocating this quantity. The total quantity of the raw cane sugar allocations of 1,343,992 metric tons raw value is being allocated to the following countries:

Country	FY 2007 raw cane sugar allocations (metric tons raw value)
Argentina	55,112
Australia	106,378

Belize	14,098

These allocations are based on the countries' historical shipments to the United States. The allocations of the raw cane sugar tariff-rate quota to countries that are net importers of sugar are conditioned on receipt of the appropriate verifications of origin.

On July 27, 2006, the Secretary of Agriculture established the FY 2007 refined sugar tariff-rate quota 57,000 metric tons raw value for which the sucrose content, by weight in the dry state, must have a polarimeter reading of 99.5 degrees or more. This amount includes the minimum level to which the United States is committed under the WTO Uruguay Round Agreement (22,000 metric tons raw value of which 1,656 metric tons raw value is specialty sugar) and an additional 35,000 metric tons raw value for specialty sugars. USTR is allocating a total of 10,300 metric tons raw value to Canada, 2,954 metric tons raw value to Mexico, and 7,090 metric tons raw value to be administered on a first-come, first-served basis. This additional amount combined with a specialty sugar allocation of 1,656. The 36,656 metric tons raw value allocation of specialty sugar, which includes the additional 35,000 metric tons raw value of specialty sugar and the specialty sugar allocation of 1,656 metric tons raw value included in the 22,000 metric tons raw value WTO minimum, will be administered on a first-come, first-served basis.

With respect to the tariff-rate quota of 64,709 metric tons for certain sugar-containing products maintained under Additional U.S. Note to Chapter 17 to the Harmonized Tariff Schedule of the United States, 59,250 metric tons is being allocated to Canada. The remainder of the sugar-containing products tariff-rate quota is available for other countries on a first-come, first-served basis.

Mexico

As USDA noted in its press release of July 27, the United States and Mexico have determined jointly, in accordance with Annex 703.2 of North American Free Trade Agreement (NAFTA), that Mexico is projected to be a net surplus producer of sugar for FY 2007, and accordingly that Mexico will be permitted to enter up to 250,000 metric tons raw or refined sugar duty free in FY 2007. Quantities allocated to Mexico under WTO raw cane sugar tariff-rate quota, but not the WTO refined sugar tariff-rate quota, will be counted against this amount. Certificates for quota eligibility are required for entry of tariff-rate quota sugar from Mexico.

As also noted in the USDA press release, the United States and Mexico have reached an agreement on market access for sweeteners. That agreement, set forth in an exchange of letters dated July 27, 2006, provides Mexico duty-free access to the United States for 250,000 metric tons raw value of raw or refined

sugar in FY 2007 and at least 175,000 metric tons raw value of raw or refined sugar for the first three months of FY 2008 (Oct. 1 through Dec. 31, 2007). Under the agreement, Mexico will provide reciprocal access for U.S. high fructose corn syrup (HFCS), including 250,000 metric tons in FY 2007 and at least 175,000 metric tons for the first three months of FY 2008 (Oct. 1 through Dec. 31, 2007). Mexico also commits that effective January 1, 2008 it will not impose duties on U.S. HFCS. The United States and Mexico confirm that on July 3, 2006 they submitted a joint letter to the WTO Dispute Settlement Body regarding the elimination of Mexico's soft drink and distribution taxes. Mexico will establish a duty-free quota for U.S. sugar of not less than 7,258 metric tons raw value for each of marketing years 2006, 2007, and 2008. The over-quota tariff on U.S. sugar will be eliminated effective January 1, 2008 as provided for in the NAFTA.

For its part, Mexico announced on July 27 its actions to implement the July 27 agreement with respect to FY 2007 amounts. Mexico and the United States will consult before July 1, 2007 in order to set allocations for the first three months of FY 2008, which per the agreement may range from 175,000 metric tons raw value to 250,000 metric tons raw value.

*Conversion factor: 1 metric ton = 1.10231125 short tons.

United States Trade Representative.
