

for inclusion in the FEIS. Where warranted, portions of the FEIS reflect edits to the Draft EIS text in response to salient recommendations from some commentors or to provide clarification in view of concerns brought up by the public. And as noted above, new studies and technical information not available prior to release of the Draft EIS are discussed. All comments received are included in the administrative record.

In conformance with Section 7 of the Endangered Species Act, on March 26, 2003, PRNS initiated the consultation process with the U.S. Fish and Wildlife Service (USFWS) and the National Marine Fisheries Service (NMFS). On March 10, 2005, the park requested concurrence from USFWS with its finding that the proposed plan would be not likely to adversely affect nine plant and wildlife species or the proposed critical habitat for the California red-legged frog or adversely affect nine plant and animal species during implementation of the preferred alternative. On April 7, 2005, the USFWS concurred with the park's findings that measures in the proposed plan are sufficient to reduce any direct, indirect, and cumulative effects to the nine listed species and proposed critical habitat to an insignificant or discountable level. With the issuance of this memo, the USFWS concluded its consultation process for the NNDMP.

On March 28, 2005, PRNS transmitted a letter to the NMFS with regard to potential effects on listed anadromous fish species and fish habitat within the planning area. PRNS clarified that no proposed actions would take place in creeks, waterways, or riparian areas and therefore the proposed project is not likely to adversely affect central California coast environmentally significant unit (ESU) coho salmon, central California coast ESU steelhead, California coastal ESU Chinook salmon, Designated Critical Habitat for central California coast ESU coho salmon, or Essential Fish Habitat for coho salmon and Chinook salmon. NMFS concurred with the park's findings in a letter to the NPS on May 3, 2005, ending the information consultation process.

ADDRESSES: New requests for copies of the FEIS may be sent to the Superintendent, Attn: NNDMP, Point Reyes National Seashore, Point Reyes, CA 94956 (or by e-mail request to: Ann_Nelson@nps.gov—in the subject line, type: NNDMP). The document will be sent directly to those who received the DEIS or previously have requested it, and it is also available in electronic format at the NPS's Planning, Environment, and Public Comment Web

site <http://parkplanning.nps.gov/pore>. Both the printed document and digital version on compact disk will be available at the park headquarters and local libraries. Any correspondence regarding the NNDMP should be addressed to the Superintendent either by mail or e-mail (see addresses above). Please note that names and addresses of all respondents will become part of the public record. It is the practice of the NPS to make comments, including names, home addresses, home phone numbers, and e-mail addresses of respondents, available for public review. Individual respondents may request that we withhold their names and/or home addresses, etc., but if you wish us to consider withholding this information, you must state this prominently at the beginning of your comments. In addition, you must present a rationale for withholding this information. This rationale must demonstrate that disclosure would constitute a clearly unwarranted invasion of privacy. Unsupported assertions will not meet this burden. In the absence of exceptional, documentable circumstances, this information will be released. We will always make submissions from organizations or businesses, and from individuals identifying themselves as representatives of or officials or organizations or businesses, available for public inspection in their entirety.

Decision

As a delegated EIS, the official responsible for the final decision is the Regional Director, Pacific West Region. A Record of Decision, documenting the environmental decision-making process on the NNDMP will be prepared not sooner than 30 days following the publication in the **Federal Register** of the EPA's notice of filing and availability of the Final EIS. Subsequently and prior to implementation, notice of approval of the Record of Decision will be posted in the **Federal Register** and announced via local and regional news media. Following approval of the Non-Native Deer Management Plan, the official responsible for implementation will be the Superintendent, Point Reyes National Seashore.

Dated: April 7, 2006.

Jonathan B. Jarvis,

Regional Director, Pacific West Region.

National Park Service

Notice of Inventory Completion: Thomas Burke Memorial Washington State Museum, University of Washington, Seattle, WA

AGENCY: National Park Service, Interior.

ACTION: Notice.

Notice is here given in accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), 25 U.S.C. 3003, of the completion of an inventory of human remains in the control of the Thomas Burke Memorial Washington State Museum (Burke Museum), University of Washington, Seattle, WA. The human remains were removed from along the Columbia River in Chelan County, WA.

This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA, 25 U.S.C. 3003 (d)(3). The determinations in this notice are the sole responsibility of the museum, institution, or Federal agency that has control of the Native American human remains. The National Park Service is not responsible for the determinations in this notice.

A detailed assessment of the human remains was made by Burke Museum professional staff in consultation with representatives of the Confederated Tribes of the Colville Reservation, Washington.

In 1966, human remains representing a minimum of three individuals were removed from 45-CH-201 along the Columbia River in Chelan County, WA. The human remains were collected under the direction of Brain Holmes as part of a field party of the University of Washington led by R.S. Kidd for the State of Washington Highway Survey Project. The human remains were accessioned by the Burke Museum in 1966 (Burke Accn. 1966-76). No known individuals were identified. No associated funerary objects are present. Stone debitage was noted on the site inventory form, but its whereabouts are unknown.

Based on archeological evidence, the human remains have been determined to be Native American. The skeletal morphology was indeterminate. Geographic affiliation is consistent with the historically documented territory of the Confederated Tribes of the Colville Reservation, Washington. The southern area of Lake Chelan was part of the aboriginal territory of the Chelan people. The Chelan spoke a Wenatchee dialect of the Interior Salish language. This area was incorporated into part of

the Moses-Columbia Reservation in 1879. Descendants of the Chelan and Moses Columbia are members of the Confederated Tribes of the Colville Reservation, Washington.

Officials of the Burke Museum have determined that, pursuant to 25 U.S.C. 3001 (9-10), the human remains described above represent the physical remains of three individuals of Native American ancestry. Officials of the Burke Museum also have determined that, pursuant to 25 U.S.C. 3001 (2), there is a relationship of shared group identity that can be reasonably traced between the Native American human remains and the Confederated Tribes of the Colville Reservation, Washington.

Representatives of any other Indian tribe that believes itself to be culturally affiliated with the human remains should contact Dr. Peter Lape, Burke Museum, University of Washington, Box 353010, Seattle, WA 98195-3010, telephone (206) 685-2282, before September 18, 2006. Repatriation of the human remains to the Confederated Tribes of the Colville Reservation, Washington may proceed after that date if no additional claimants come forward.

The Burke Museum is responsible for notifying the Confederated Tribes of the Colville Reservation, Washington that this notice has been published.

Dated: July 24, 2006

Manager, National NAGPRA Program.
