Administration for Children and Families

Submission for OMB Review; Comment Request

Title: Child Care and Development Fund Annual Aggregate Report.

OMB No.: 0970-0150.

Description: Section 658K of the Child Care and Development Block Grant Act of 1990 (Pub. L. 101-508, 42 U.S.C. 9858) requires that the States and the Territories submit annual aggregate data on the children and families receiving direct services under the Child Care and Development Fund. The implementing regulations for the statutorily required reporting are at 45 CFR 98.70. Annual aggregate reports include data elements represented in the ACF-800. The Administration for Children and Families (ACF) uses aggregate data to determine the scope, type, and methods of child care delivery. This provides ACF with the information necessary to make reports to Congress, address national child care needs, offer technical assistance to grantees, meet performance measures, and conduct research. Consistent with the statute and regulations, ACF requests extension of the ACF-800.

Respondents: States, the District of Columbia, and the Territories, including Puerto Rico, Guam, the U.S. Virgin Islands, American Samoa, and the Northern Mariana Islands.

ANNUAL BURDEN ESTIMATES

Instrument	Number of respondents	Number of responses per respondent	Average burden hours per response	Total burden hours

Title: Early Head Start Research and Evaluation Project: 5th-Grade follow-Up.

OMB No.: 0970-0143.

Description: The Administration for Children and Families (ACF) within the Department of Health and Human Services (HHS) is requesting comments on plans to collect 5th-grade follow-up data on children recruited into the Early Head Start Research and Evaluation study. This study is being conducted to assess children and families when the children in the study will be 5th graders or attending the 6th year of their formal schooling. Because of the way children and families were initially recruited for the study, it will take three years to collect 5th-grade data from the full sample of children. About 30 percent of the sample will be 5th graders in spring 2007, 50 percent in spring 2008, and 20 percent in spring 2009. Data will be

collected on a sample of approximately 1,900 children and families across all 17 of the Early Head Start research sites. Data collection will include a child assessment and a child interview, an interview with the child's primary caregiver (usually the child's mother), videotaping of mother-child interactions and a set of home observations, and a questionnaire to be completed by the child's 5th-grade teacher.

This data collection is necessitated by the mandates of the 1998 reauthorization of Head Start (Head Start Act, as amended, October 27, 1998, Section 649 (d) and (e)).

Respondents: Individuals or households.
