### Natural Resources Conservation Service

#### Environmental Assessment; Rehabilitation of Floodwater Retarding Structure 35A, Upper Salt Creek Watershed, Lancaster County Nebraska

**AGENCY:** Natural Resources Conservation Service, USDA.

**ACTION:** Notice of Availability, Finding of No Significant Impact.

**SUMMARY:** The Natural Resources Conservation Service (NRCS) has prepared an Environmental Assessment in compliance with the National Environmental Policy Act (NEPA), as amended. Pursuant to the implementing regulations for NEPA (40 CFR parts 1500-1508); the USDA Departmental Policy for the NEPA (7 CFR part 1b); the Natural Resources Conservation Service Regulations (7 CFR part 650); and the Natural Resources Conservation Service policy (General Manual Title 190, Part 410); the Natural Resources Conservation Service gives notice that an environmental impact statement is not being prepared for the rehabilitation of floodwater retarding Structure 35A in Upper Salt Creek Watershed, Lancaster County Nebraska. The Environmental Assessment was developed in coordination with the sponsoring local organization (Lower Platte South Natural Resources District) for a Federally assisted action to address flood control prevention in the Upper Salt Creek Watershed and the status of

floodwater retarding dam Structure 35A. Upon consideration of the affected environment, alternatives, environmental consequences, and comments and coordination with concerned public and agencies, the State Conservationist for NRCS, Nebraska found that based on the significance and context and intensity that the proposed action is not a major Federal action significantly affecting the quality of the human environment. Thus, a Finding of No Significant Impact (FONSI) was made.

**FOR FURTHER INFORMATION, CONTACT:**

Stephen K. Chick, State Conservationist, U.S. Department of Agriculture, Natural Resources Conservation Service, Federal Building, Room 152, 100 Centennial Mall North, Lincoln, Nebraska 68508-3866; telephone (402) 437-5300.

**SUPPLEMENTARY INFORMATION:** The sponsoring local organization concurs with this determination and agrees with carrying forward the proposed project. Structure 35A no longer meets the NRCS safety and performance standards for a High Hazard Class structure. The proposed action is to rehabilitate Structure 35A to current NRCS High Hazard Class requirements and extend its life for 100 years. The following actions are proposed: the existing principal spillway would be removed and replaced, the auxiliary spillway would be widened, the top of dam would be raised, and foundation drains re-established.

Information regarding this finding may be obtained at the contact information listed above. No administrative action on implementation of the proposed funding action will be taken until 30 days after the date of this publication in the **Federal Register**.

### Foreign-Trade Zones Board

(Docket 33-2006)

#### Foreign-Trade Zone 52 - Suffolk County, New York, Request for Manufacturing Authority, (Cosmetic Kits)

An application has been submitted to the Foreign-Trade Zones Board (the Board) by the Town of Islip (New York), operator of Foreign-Trade Zone (FTZ) 52, requesting authority on behalf of TKD Industries, Inc. (TKD) for the manufacture of cosmetic kits under FTZ procedures within FTZ 52 in Ronkonkoma, New York. The application was submitted pursuant to the provisions of the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a-81u), and the regulations of the Board (15 CFR part 400). It was formally filed on August 10, 2006.

TKD operates a manufacturing facility (85 employees) within proposed FTZ 52 for the production of cosmetic kits. The finished products (classifiable as perfumes and toilet waters, lip makeup, eye makeup, manicure, powder, make-up treatments, shampoo, and hair-care products) would enter the United States duty free. Imported inputs are projected to comprise 34 percent of the value of finished products produced under FTZ procedures.

The company indicates that the foreign inputs that may be admitted under FTZ procedures are the following: pre-shave/after-shave; deodorants/antiperspirants; bath products; plastic boxes; plastic bottles; plastic caps; plastic displays; dust covers; glass containers; applicators; and re-usable boxes. Duty rates on the proposed imported components currently range from 2.5 to 7.0 percent *ad valorem*.

This application requests authority for TKD to conduct the activity under FTZ procedures, which would allow the company to choose the duty rate that applies to finished products for the foreign components noted above. TKD also anticipates realizing certain logistical savings. The application

indicates that FTZ-related savings would help improve the facility's international competitiveness.

In accordance with the Board's regulations, a member of the FTZ Staff has been designated examiner to investigate the application and report to the Board.

Public comment is invited from interested parties. Submissions (original and 3 copies) shall be addressed to the Board's Executive Secretary at the address listed below. The closing period for their receipt is October 23, 2006. Rebuttal comments in response to material submitted during the forgoing period may be submitted during the subsequent 15-day period (to November 6, 2006).

A copy of the application and accompanying exhibits will be available for public inspection at each of the following locations: the New York U.S. Export Assistance Center, 20 Exchange Place, 40th Floor, New York, NY 10005; and, Office of the Executive Secretary, Foreign-Trade Zones Board, Room 1115, U.S. Department of Commerce, 1401 Constitution Avenue, NW, Washington, DC 20230.
