**SUPPLEMENTARY INFORMATION:** Section 455(b) of the Higher Education Act of 1965, as amended (HEA), 20 U.S.C. 1087e(b), provides formulas for determining the interest rates charged to borrowers for loans made under the Direct Loan Program including, Federal Direct Stafford Loans (Direct Subsidized Loans), Federal Direct Unsubsidized Stafford Loans (Direct Unsubsidized

Loans), Federal Direct PLUS Loans (Direct PLUS Loans), and Federal Direct Consolidation Loans (Direct Consolidation Loans).

The Direct Loan Program includes loans with variable interest rates and loans with fixed interest rates. Most loans made under the Direct Loan Program have variable interest rates that change each year. The variable interest rate formula that applies to a particular loan depends on the date of the first disbursement of the loan. The variable rates are determined annually and are effective for each 12-month period beginning July 1 of one year and ending June 30 of the following year. Pursuant to section 455(b) of the HEA, 20 U.S.C. 1087e(b), the interest rate for Direct Subsidized Loans and Direct Unsubsidized Loans that are first disbursed on or after July 1, 2006, have a fixed interest rate of 6.80 percent. In addition, Direct PLUS Loans that are first disbursed on or after July 1, 2006, have a fixed interest rate of 7.90 percent.

In the case of some Direct Consolidation Loans, the interest rate is determined by the date on which the Direct Consolidation Loan application was received. Direct Consolidation Loans for which the application was received on or after February 1, 1999 have a fixed interest rate based on the weighted average of the loans that are consolidated, rounded up to the nearest higher 1/8 of one percent.

Pursuant to section 455(b) of the HEA, 20 U.S.C. 1087e(b), the Direct Loan interest rate formulas use the bond equivalent rates of the 91-day Treasury bills at the final auction held before June 1 of each year plus a statutory add-on percentage to determine the variable interest rate for all Direct Subsidized Loans and Direct Unsubsidized Loans; Direct Consolidation Loans for which the application was received on or after July 1, 1998 and before February 1, 1999; and Direct PLUS Loans disbursed on or after July 1, 1998.

The bond equivalent rate of the 91-day Treasury bills auctioned on May 30, 2006, which is used to calculate the interest rates on these loans, is 4.843 percent, which is rounded to 4.84 percent.

In addition, pursuant to section 455(b) of the HEA, 20 U.S.C. 1087e(b), as amended by Public Law 106-554, the Consolidated Appropriations Act, 2001, the interest rate for Direct PLUS Loans that were disbursed on or after July 1, 1994 and on or before July 1, 1998, is calculated based on the weekly average of a 1-year constant maturity Treasury yield, as published by the Board of Governors of the Federal Reserve System, for the last calendar week

ending on or before June 26 plus a statutory add-on percentage.

The last calendar week ending on or before June 26, 2006 began on June 18, 2006 and ended on June 24, 2006. On June 26, 2006, the Board of Governors of the Federal Reserve System published the 1-year constant maturity Treasury yield average as 5.24 percent.

Below is specific information on the calculation of the interest rates for the Direct Loan Program. This information is listed in order by the date a loan was first disbursed or by the date that the Consolidation Application was received.

In addition, a summary of the interest rates that are effective for the period July 1, 2006 through June 30, 2007, is included on charts at the end of this notice. ACTION: Notice of Application.

**SUMMARY:** The Western Systems Power Pool (WSPP) has applied, on behalf of certain of its members, to renew their authority to transmit electric energy from the United States to Canada pursuant to section 202(e) of the Federal Power Act.

**DATES:** Comments, protests or requests to intervene must be submitted on or before September 22, 2006.

**ADDRESSES:** Comments, protests, or requests to intervene should be addressed as follows: Office Electricity Delivery and Energy Reliability (Mail Code OE-20), U.S. Department of Energy, 1000 Independence Avenue, SW., Washington, DC 20585-0350 (FAX 202-586-5860).

**FOR FURTHER INFORMATION CONTACT:** Ellen Russell (Program Office) 202-586-9624 or Michael Skinker (Program Attorney) 202-586-2793.

**SUPPLEMENTARY INFORMATION:** Exports of electricity from the United States to a foreign country are regulated and require authorization under section 202(e) of the Federal Power Act (FPA) (16 U.S.C. 824a(e)).

On September 5, 1996, in docket EA-98-C, the Office of Fossil Energy (FE) of the Department of Energy (DOE) authorized 42 members of the WSPP to export electric energy to Canada. In several subsequent proceedings in the EA-98 docket, the list members authorized to export was modified to add, delete, or reflect corporate name changes. The most recent order in the docket, EA-98-I, was issued on August 6, 2002, and authorized 26 WSPP member companies individually to transmit electric energy to Canada. The international transmission facilities utilized for these exports are owned by the Bonneville Power Administration, also a WSPP member. The facilities consist of two 500-kV transmission lines and one 230-kV transmission line that interconnect with facilities of BC Hydro, and one 230-kV line that
