

toxicologic testing under TSCA or FIFRA. This part of the research will be conducted according to established TSCA/FIFRA procedures and guidelines.

B. Private-Sector Voluntarism

As part of the SSARP, on February 7, 1992, ATSDR announced a set of proposed procedures for conducting voluntary research (57 FR 4758). Revisions based on public comments were published on November 16, 1992 (57 FR 54160). ATSDR strongly encourages private-sector organizations to propose research to address priority data needs at any time until ATSDR announces that research has already been initiated for a specific priority data need. Private-sector organizations may volunteer to conduct research to address specific priority data needs identified in this notice by indicating their interest through submission of a letter of intent.

The letter of intent should be a brief statement (1–2 pages) that identifies the priority data need(s) to be filled and the methods to be used. The Tri-Agency

Superfund Applied Research Committee (TASARC) will review these proposals and make recommendations to ATSDR regarding which specific voluntary research projects should be pursued—and how they should be conducted—with the volunteer organizations. ATSDR will enter into only those voluntary research projects that lead to high quality, peer-reviewed scientific work. Additional details regarding the process for voluntary research are in the **Federal Register** notices cited in this section.

C. CERCLA

Those priority data needs that are not addressed by TSCA/FIFRA or initial voluntarism will be considered for funding by ATSDR through its CERCLA budget. A large part of this research program is envisioned to be unique to CERCLA—for example, research on substances not regulated by other programs or research needs specific to public health assessments. A current example of the direct use of CERCLA funds is a cooperative agreement with

the Minority Health Professions Foundation (MHPF) that supports the MHPF's Environmental Health, Health Services and Toxicology Research Program.

Mechanisms to address these priority data needs may include a second call for voluntarism. Again, scientific peer review of study protocols and results would occur for all research conducted under this auspice.

Substance-Specific Priority Data Needs

The priority data needs are identified in Table 1. Specifically, for acrolein, three priority data needs have been identified, while one priority data need was identified for barium. ATSDR encourages private-sector organizations and other governmental programs to use ATSDR's priority data needs to plan their research activities.

Dated: September 1, 2006.

Kenneth Rose,

Acting Director, Office of Policy, Planning, and Evaluation, National Center for Environmental Health/Agency for Toxic Substances and Disease Registry.

TABLE 1.—SUBSTANCE-SPECIFIC PRIORITY DATA NEEDS (PDN) FOR FOURTH SET OF TWO PRIORITY HAZARDOUS SUBSTANCES

Substance	Priority data needs
Acrolein	Exposure levels in humans living near hazardous waste sites. Exposure levels of children. Dose-response data for chronic-duration ⁽¹⁾ via inhalation exposure.
Barium	Dose-response data for acute-duration ⁽²⁾ via oral exposure.

(1) 365 days or more.

(2) 14 days or less.

Centers for Disease Control and Prevention

Disease, Disability, and Injury Prevention and Control Special Emphasis Panel: Commercial Truck Driver Health and Safety—Preventing Injury and Illness, Request for Applications (RFA) 07–001

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92–463), the Centers for Disease Control and Prevention (CDC) announces the following meeting:

Name: Disease, Disability, and Injury Prevention and Control Special Emphasis Panel (SEP): Commercial Truck Driver Health and Safety—Preventing Injury and Illness, RFA 07–001.

Times and Dates: 7 p.m.–9 p.m., October 11, 2006 (Closed).

8 a.m.–5 p.m., October 12, 2006 (Closed).

Place: Embassy Suites, 1900 Diagonal Road, Alexandria, VA 20036, telephone (703) 684–5900.

Status: The meeting will be closed to the public in accordance with provisions set forth in section 552b(c)(4) and (6), Title 5 U.S.C., and the Determination of the Director, Management Analysis and Services Office, CDC, pursuant to Public Law 92–463.

Matters to be Discussed: The meeting will include the review, discussion, and evaluation of research grant applications in response to RFA 07–001, “Commercial Truck Driver Health and Safety—Preventing Injury and Illness.”

Contact Person for More Information: George Bokosh, Designated Federal Officer, 626 Cochran Mill Road, Pittsburgh, PA 15236, telephone (412) 386–6465.

The Director, Management Analysis and Services Office, has been delegated the authority to sign **Federal Register** notices pertaining to announcements of meetings and other committee management activities, for both CDC and the Agency for Toxic Substances and Disease Registry.

Dated: August 31, 2006.

Alvin Hall,

Director, Management Analysis and Services Office, Centers for Disease Control and Prevention.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

Prospective Grant of Exclusive License: Insecticide-Impregnated Bednet

AGENCY: Technology Transfer Office, Centers for Disease Control and Prevention (CDC), Department of Health and Human Services.

ACTION: Notice.

SUMMARY: This is a notice in accordance with 35 U.S.C. 209(e) and 37 CFR 404.7(a)(1)(i) that the Centers for Disease

Control and Prevention (CDC), Technology Transfer Office, Department of Health and Human Services (DHHS), is contemplating the grant of a limited field of use, exclusive license in India to practice the inventions embodied in the patent referred to below to Molecular Diagnostic Laboratory, having a place of business in Lucknow, India. The patent rights in these inventions have been assigned to the government of the United States of America. The patent(s) to be licensed are:

US 6,896,892 B2 entitled "Insecticide-Impregnated Fabric and Method of Production," issue date 05.24.2005. CDC Technology ID No. I-008-99.

Status: Issued.

Issue Date: 05.24.2005

The prospective exclusive license will be royalty-bearing and will comply with the terms and conditions of 35 U.S.C. 209 and 37 CFR 404.7.

Technology: This technology provides a new insecticide-impregnated fabric and method of production for bednets.

SUPPLEMENTARY INFORMATION: In accordance with 35 U.S.C. 209(e) and 37 CFR 404.7(a)(1)(i), CDC is providing public notice of its intention to grant an exclusive license. CDC will accept written comments concerning this notice for 30 days. Applications for a license filed in response to this notice will be treated as objections to the grant of the contemplated license. Only written comments and/or applications for a license which are received by CDC within thirty days of this notice will be considered. Comments and objections submitted in response to this notice will not be made available for public inspection, and, to the extent permitted by law, will not be released under the Freedom of Information Act, 5 U.S.C. 552.

ADDRESSES: Requests for a copy of this patent, inquiries, comments, and other materials relating to the contemplated license should be directed to Suzanne Seavello Shope, J.D., Technology Licensing and Marketing Specialist, Technology Transfer Office, Centers for Disease Control and Prevention (CDC), 4770 Buford Highway, Mailstop K-79, Atlanta, GA 30341, telephone: (770) 488-8613; facsimile: (770) 488-8615.

Dated: August 31, 2006.

James D. Seligman,
Chief Information Officer, Centers for Disease Control and Prevention.

BILLING CODE 4163-18-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

Prospective Grant of Exclusive License: Diagnostics of Fungal Infections

AGENCY: Technology Transfer Office, Centers for Disease Control and Prevention (CDC), Department of Health and Human Services.

ACTION: Notice.

SUMMARY: This is a notice in accordance with 35 U.S.C. 209(e) and 37 CFR 404.7(a)(1)(i) that the Centers for Disease Control and Prevention (CDC), Technology Transfer Office, Department of Health and Human Services (DHHS), is contemplating the grant of a worldwide, limited field of use, co-exclusive license to practice the inventions embodied in the patent and patent applications referred to below to Myconostica, Inc. (Myconostica) having a place of business in Manchester, United Kingdom. CDC intends to grant no more than three licenses to these inventions. The patent rights in these inventions have been assigned to the government of the United States of America. The patent and patent applications to be licensed are:

Title: Nucleic Acids for Detecting *Aspergillus* Species and Other Filamentous Fungi.

U.S. Patent Application Serial No.: 09/423,233.

Filing Date: 6/27/2000.

Domestic Status: 6,372,430.

Issue Date: 4/16/2002.

Title: Molecular Identification of *Aspergillus* Species.

U.S. Patent Application Serial No.: 60/381,463.

Filing Date: 5/17/2002.

Domestic Status: Pending.

Issue Date: N/A.

Title: Nucleic Acids for the Identification of Fungi and Methods for Using the Same.

U.S. Patent Application Serial No.: 60/325,241.

Filing Date: 9/26/2001.

Domestic Status: Pending.

Issue Date: N/A.

The prospective exclusive license will be royalty-bearing and will comply with the terms and conditions of 35 U.S.C. 209 and 37 CFR 404.7.

Specific DNA (oligonucleotide) probes have been developed for a wide variety of systemic disease causing fungi, including *Aspergillus* species and others. A probe has been developed for identification of all dimorphic fungi.

These probes can be used for the rapid identification of fungal pathogens and for the diagnosis of mycotic diseases.

ADDRESSES: Requests for a copy of these patent applications, inquiries, comments, and other materials relating to the contemplated license should be directed to Andrew Watkins, Director, Technology Transfer Office, Centers for Disease Control and Prevention (CDC), 4770 Buford Highway, Mailstop K-79, Atlanta, GA 30341, telephone: (770) 488-8610; facsimile: (770) 488-8615. Applications for a license filed in response to this notice will be treated as objections to the grant of the contemplated license. Only written comments and/or applications for a license which are received by CDC within sixty days of this notice will be considered. Comments and objections submitted in response to this notice will not be made available for public inspection, and, to the extent permitted by law, will not be released under the Freedom of Information Act, 5 U.S.C. 552. A signed Confidential Disclosure Agreement will be required to receive a copy of any pending patent application.

Dated: August 31, 2006.

James D. Seligman,
Chief Information Officer, Centers for Disease Control and Prevention.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

[Docket No. 2006N-0349]

Risk Communication on Medical Devices: Sharing Perspectives

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice of public meeting.

SUMMARY: The Food and Drug Administration (FDA), in cooperation with the Advanced Medical Technology Association (AdvaMed), is announcing a public meeting entitled "Risk Communication on Medical Devices: Sharing Perspectives." This 1-day workshop is intended to bring together various creators and recipients of medical device risk/benefit information to discuss how this information is developed, disseminated, and perceived; and to explore ways in which the process might be improved.

DATES AND TIMES: The public meeting will be held on September 26, 2006, from 7:30 a.m. to 5 p.m. Online registration is available until 5 p.m. on
