

industry sources), is \$205.00 (\$0.38 × 540).

AFV Manufacturers

Here, too, staff believes that there are no current start-up costs associated with the Rule, for the same reasons as stated immediately above regarding the non-liquid alternative fuel industry. However, based on the labeling of an estimated 680,000 new and used AFVs each year at thirty-eight cents for each label (per industry sources), the annual AFV labeling cost is estimated to be \$258,400 (\$0.38 × 680,000).

Thus, estimated total annual non-labor cost burden associated with the Rule is \$259,000 (\$205 + \$258,400), rounded to the nearest thousand.

William Blumenthal,
General Counsel.

Centers for Disease Control and Prevention

[30Day-06-0214]

Agency Forms Undergoing Paperwork Reduction Act Review

The Centers for Disease Control and Prevention (CDC) publishes a list of information collection requests under

review by the Office of Management and Budget (OMB) in compliance with the Paperwork Reduction Act (44 U.S.C. Chapter 35). To request a copy of these requests, call the CDC Reports Clearance Officer at (404) 639-4794 or send an e-mail to omb@cdc.gov. Send written comments to CDC Desk Officer, Office of Management and Budget, Washington, DC or by fax to (202) 395-6974. Written comments should be received within 30 days of this notice.

Proposed Project

National Health Interview Survey (NHIS) 2007-2009, (OMB No. 0920-0214)—Revision—National Center for Health Statistics (NCHS), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

The annual National Health Interview Survey (NHIS) is a major source of general statistics on the health of the U.S. population and has been in the field continuously since 1957. This household-based survey collects demographic and health-related information on a nationally representative sample of persons and households throughout the country. Information is collected using computer assisted personal interviews (CAPI). A core set of data is collected annually and supplements are collected periodically. For 2007, supplementary information will be collected on complementary and alternative medicine and hearing problems. These supplements are sponsored by the National Center on Complementary and Alternative Medicine and the National Institute on Deafness and Other Communication Disorders, both parts of the National Institutes of Health.

In accordance with the 1995 initiative to increase the integration of surveys within the Department of Health and Human Services, respondents to the NHIS serve as the sampling frame for the Medical Expenditure Panel Survey conducted by the Agency for Healthcare Research and Quality. The NHIS has long been used by government, university, and private researchers to evaluate both general health and specific issues, such as cancer, diabetes, and access to health care. It is a leading source of data for the Congressionally-mandated "Health US" and related publications, as well as the single most important source of statistics to track progress toward the National Health Promotion and Disease Prevention Objectives, "Healthy People 2010." There is no cost to the respondents other than their time. The total estimated annualized burden hours are 38,271.

ESTIMATED ANNUALIZED BURDEN HOURS

Questionnaire (respondent)	Number of respondents	Number of responses per respondent	Average burden per respondent in hours
Screener Questionnaire	15,000	1	5/60
Family Core (adult family member)	39,000	1	22/60
Adult Core (sample adult)	32,000	1	18/60
Adult Topical Module (sample adult)	32,000	1	18/60
Child Core (adult family member)	13,000	1	9/60
Child Topical Module (adult family member)	13,000	1	6/60
Reinterview Survey	3,250	1	5/60

Dated: September 18, 2006.

Joan F. Karr,

Acting Reports Clearance Officer, Centers for Disease Control and Prevention.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

Final Effect of Designation of a Class of Employees for Addition to the Special Exposure Cohort

AGENCY: Centers for Diseases Control and Prevention (CDC), Department of Health and Human Services (HHS).

ACTION: Notice.

SUMMARY: The Department of Health and Human Services (HHS) gives notice concerning the final effect of the HHS decision to designate a class of employees at the Y-12 Plant, in Oak Ridge, Tennessee, as an addition to the Special Exposure Cohort (SEC) under the Energy Employees Occupational Illness Compensation Program Act of 2000. On August 8, 2006, as provided for under 42 U.S.C. 7384q(b), the Secretary of HHS designated the following class of employees as an additional to the SEC:

Department of Energy (DOE) employees or DOE contractor or subcontractor employees who were monitored or should have been monitored for:

(1) Thorium exposures while working in Building 9201-3, 9202, 9204-1, 9204-3, 9206, or 9212 at Y-12 for a number of work days aggregating at least 250 work days from January 1948 through December 1957 or in combination with work days within the parameters (excluding aggregate work day requirements) established for one or more classes of employee in the SEC; or

(2) Radiocluide exposures associated with cyclotron operations in Building 9201-2 at Y-12 for a number of work days aggregating at least 250 work days from January 1947 through December 1957 or in combination with work days within the parameters (excluding aggregate work day requirements)

established for one or more classes of employees in the SEC.

This designation became effective on September 7, 2006, as provided for under 42 U.S.C. 7484(14)(C). Hence, beginning on September 7, 2006, members of this class of employees, defined as reported in this notice, became members of the Special Exposure Cohort.

FOR FURTHER INFORMATION CONTACT:

Larry Elliott, Director, Office of Compensation Analysis and Support, National Institute for Occupational Safety and Health, 4676 Columbia Parkway, MS C-46, Cincinnati, OH 45226, Telephone 513-533-6800 (this is not a toll-free number). Information requests can also be submitted by e-mail to OCAS@CDC.GOV.

Dated: September 18, 2006.

John Howard,

National Institute for Occupational Safety and Health, Centers for Disease Control and Prevention.
