Abstract: We collect information from individuals or organizations that apply for a special use permit required to conduct economic or other privileged or specialized uses on National Wildlife Refuge System lands in Alaska. We use the information to:

(2) Evaluate the impacts of the proposed activity on refuge resources and other users.

Comments: On May 26, 2006, we published in the **Federal Register** (71 FR 30439) a notice of our intent to request that OMB renew approval for this information collection. In that notice, we solicited comments for 60 days, ending on July 25, 2006. We received two comments from the same individual. The comments did not address issues surrounding the proposed collection of information or the cost and hour burden estimates, but instead objected to our issuing permits for guided hunting. The commenter also questioned who verified the information submitted in the application, and suggested requesting additional information for two of the application items. If we include the suggested additional information on our application, we would collect information in excess of the minimum necessary to fulfill our statutory and regulatory requirements and responsibilities. Therefore, we have not

made any changes to FWS Form 3-2001 as a result of these comments.

We again invite comments concerning this information collection on:

(1) Whether or not the collection of information is necessary, including whether or not the information will have practical utility;

(2) the accuracy of our estimate of the burden for this collection of information;

(3) ways to enhance the quality, utility, and clarity of the information to be collected; and

(4) ways to minimize the burden of the collection of information on respondents. Comments submitted in response to this notice are a matter of public record.

Dated: August 10, 2006.

Hope Grey,

*Information Collection Clearance Officer,
Fish and Wildlife Service.*
