

Methodologies were established following section 302 of the Department of Energy (DOE) Organization Act (42 U.S.C. 7152). This Act transferred to and vested in the Secretary of Energy the power marketing functions of the Secretary of the Department of the Interior and the Bureau of Reclamation under the Reclamation Act of 1902 (ch. 1093, 32 Stat. 388), as amended and supplemented by subsequent laws, particularly section 9(c) of the Reclamation Project Act of 1939 (43 U.S.C. 485h(c)), and other Acts that specifically apply to the project system involved.

By Delegation Order No. 00-037.00, effective December 6, 2001, the Secretary of Energy delegated: (1) The authority to develop power and transmission rates to the Administrator of the Western Area Power Administration (Western); (2) the authority to confirm, approve, and place such rates into effect on an interim basis to the Deputy Secretary of Energy; and (3) the authority to confirm, approve, and place into effect on a final basis, to remand, or to disapprove such rates to the Federal Energy Regulatory Commission.

Background

This action is to further extend the existing Parker-Davis Project Rate Order No. WAPA-75 that was originally approved for 5 years, beginning November 1, 1997, through September 30, 2002. See FERC Docket No. EF98-5041-000, 82 FERC Par. 62,164 (March 10, 1998).

Rate Order No. WAPA-98, approved by the Secretary of Energy on September 13, 2002 (67 FR 60655, September 26, 2002), extended WAPA-75 through September 30, 2004. Rate Order WAPA-113, approved by the Deputy Secretary on September 2, 2004 (69 FR 55429, September 14, 2004), extended WAPA-75 through September 30, 2006.

Discussion

Western is currently conducting a formal re-marketing process for the Parker-Davis Project, which will increase the firm electric service capacity that will be available October 1, 2008, creating a larger resource pool and making additional capacity and energy available to new contractors. Western seeks this extension to allow adequate time to consider the effect of additional firm electric service capacity on the rates and to consider the input of the public including the additional contractors. Western proposes to extend the current rate schedules to complete this analysis. On the Deputy Secretary of Energy's approval, Rate Order No.

WAPA-75, as extended, will be further extended under Rate Order No. WAPA-131.

Order

In view of the above and under the authority delegated to me, I hereby extend for a period effective from October 1, 2006, through September 30, 2008, the existing Firm Electric Service Rate Schedule PD-F6, and the Transmission Service Rate Schedules PD-FT6, PD-FCT6, and PD-NFT6.

Dated: September 22, 2006.

Clay Sell,

Deputy Secretary.

Extension of Period for Objection Concerning Notice of Data Availability for EGU NO_x Annual and NO_x Ozone Season Allocations for the Clean Air Interstate Rule Federal Implementation Plan Trading Programs

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice to extend period for objections.

SUMMARY: EPA is extending the period for submission of objections concerning the notice of data availability (NODA) for EGU NO_x Annual and NO_x Ozone Season Allocations for the Clean Air Interstate Rule Federal Implementation Plan Trading Programs (CAIR FIP) published on August 4, 2006 for an additional 90 days with regard to cogeneration units combusting biomass (biomass cogeneration units). The period had previously been extended to October 5, 2006 for all objections and will be further extended to January 3, 2007 only for objections concerning biomass cogeneration units. Certain biomass cogeneration unit owners and operators requested the additional time to submit objections because of difficulties in collection of information relating to the application of efficiency standards for cogeneration units (as defined in the CAIR FIP) to biomass cogeneration units. For all other objections, the deadline remains October 5, 2006.

DATES: The EPA is establishing a period ending on January 3, 2007 only for objections (including data) related to biomass cogeneration units. Objections must be postmarked by the last day of the period for objection and sent directly to the Docket Office listed in **ADDRESSES** (in duplicate form if possible).

ADDRESSES: Submit your objections, identified by Docket Number OAR-2004-0076 by one of the following methods:

A. Federal Rulemaking Portal: <http://www.regulations.gov>. Today's action is not a rulemaking but you may use the Federal Rulemaking Portal to submit objections to the NODA. To submit
